Imperial Reckoning Caroline Elkins, 2010-04-01 A major work of history that for the first time reveals the violence and terror at the heart of Britain's civilizing mission in Kenya As part of the Allied forces thousands of Kenyans fought alongside the British in World War II But just a few years after the defeat of Hitler the British colonial government detained nearly the entire population of Kenya's largest ethnic minority the Kikuyu some one and a half million people The compelling story of the system of prisons and work camps where thousands met their deaths has remained largely untold the victim of a determined effort by the British to destroy all official records of their attempts to stop the Mau Mau uprising the Kikuyu people's ultimately successful bid for Kenyan independence Caroline Elkins an assistant professor of history at Harvard University spent a decade in London Nairobi and the Kenyan countryside interviewing hundreds of Kikuyu men and women who survived the British camps as well as the British and African loyalists who detained them The result is an unforgettable account of the unraveling of the British colonial empire in Kenya a pivotal moment in twentieth century history with chilling parallels to America's own imperial project *Imperial Reckoning* is the winner of the 2006 Pulitzer Prize for Nonfiction

Undesirable Practices Jessica Cammaert, 2016-07 *Undesirable Practices* examines both the intended and the unintended consequences of imperial feminism and British colonial interventions in undesirable cultural practices in northern Ghana Jessica Cammaert addresses the state management of social practices such as female circumcision nudity prostitution and illicit adoption as well as the hesitation to impose severe punishments for the slave dealing of females particularly female children She examines the gendered power relations and colonial attitudes that targeted women and children spanning pre and postcolonial periods the early postindependence years and post Nkrumah policies In particular Cammaert examines the

limits of the male colonial gaze and argues that the power lay not in the gaze itself but in the act of looking away a calculated aversion of attention intended to maintain the tribal community and retain control over the movement sexuality and labor of women and children With its examination of broader time periods and topics and its complex analytical arguments Undesirable Practices makes a valuable contribution to literature in African studies contemporary advocacy discourse women and gender studies and critical postcolonial studies

Anglicanism In Australia Kaye, Bruce, 2013-06-05 This benchmark work is unlike anything previously attempted It is the first comprehensive national history of Anglicans in Australia Anglicanism in Australia is an important contribution to our social history Its authors have moved beyond biography and histories of individual congregations to create a broad complex layered history They assess Anglicanism s contribution to Australian social political and cultural life They explore the processes by which a highly centralised English institution has been reshaped by the environment and experience of this country The book begins with a fascinating and thoroughly researched narrative account which moves from the arrival with the First Fleet of an Anglican chaplain right through to the 1990s Along the way it charts among many other events the nineteenth century church buffeted by the pendulum swings of state aid the nationalistic fervour of wartime and the political radicalism of the 1960s In its second half Anglicanism in Australia looks at Anglicans dealing with a broad spectrum of issues the family questions of gender Indigenous peoples the visual arts the search for a national identity It acknowledges the wide variety of Anglican views and reveals how regional identity a powerful force in many other areas of Australian life has expressed itself both positively and negatively during the past two centuries Anglicanism in Australia will be an indispensable research tool for Australian social historians an invaluable general reference work and above all a treasury for those close to the Anglican Church or interested in church history To find out more about Anglicanism in Australia visit The Anglican Church of Australia s website <http://www.anglican.org.au>

Christian Mission Dana L. Robert, 2011-09-09 CHRISTIAN MISSION Dana Robert distils a quarter of a century of her research into an erudite and accessible single volume account of how Christianity became the largest religious tradition in the world There is no better place for any reader to start becoming informed about this important subject David Hempton Harvard University Remarkable for the range and depth of the material Robert is able to pack into so short a book Reliable and readable it is especially valuable for its treatment of the relation between western and non western missionary activity David A Hollinger University of California Berkeley Dana Robert s richly textured book shows us that the history of Christian missions is far from being merely a European colonial story and will be immensely valuable to students and general readers who are concerned to uncover the historical roots of Christianity s current status as a truly global faith Brian Stanley University of Edinburgh The Gospels record that Christ commanded his disciples to go forth and teach all nations Thus began the history of Christian mission a phenomenon which brought about massive shifts in the nature and practice of Christianity and one that many say reflects the single most important movement of intercultural encounter over a sustained period of

human history To understand Christianity as a global movement therefore it is essential to study the role of mission defined as the transmission of the Gospel across cultures Erudite and enlightening this brief book explores the 2 000 years of mission history covering topics such as the meaning of the missionary through history gender and missions and missions in culture and politics Given that in the twenty first century Christianity is now largely practiced outside the West Christian Mission is an inspirational and invaluable resource to broaden our understanding of the nature of Christianity as a truly multi cultural world religion

The Oxford Handbook of Anglican Studies Mark David Chapman, Sathianathan Clarke, Martyn Percy, 2016 The Anglican Communion is the third largest Christian denomination and claims a membership of some 80 million members in about 164 countries Given that there are only around two hundred countries in the world this makes the churches of the Anglican Communion the most geographically widespread denomination after Roman Catholicism The 44 essays in this volume embrace a wide range of academic disciplines theological historical demography and geography and different aspects of culture and ethics They are united in their discussion of what is effectively a new inter disciplinary subject which we have termed Anglican Studies At the core of this volume is the phenomenon of Anglicanism as this is expressed in different places and in a variety of ways across the world This Handbook covers a far broader set of topics from a wider range of perspectives than has been hitherto attempted in Anglican Studies At the same time it doesn't impose a particular theological or historical agenda The contributions are drawn from across the spectrum of theological views and opinions It shows that the unsettled nature of the polity is part of its own rich history and many will see this as a somewhat lustrous tradition In its comprehensive coverage this volume is a valuable contribution to Anglican Studies and helps formulate a discipline that might perhaps promote dialogue and discussion across the Anglican world

Missionary Zeal and Institutional Control Jon Miller, 2014-05-22 This book is about the Basel Mission in the Gold Coast now Ghana before the First World War Miller reconstructs the backgrounds and motivations of the mission's participants and describes the organizational structure that shaped their activities at home and abroad He then traces some serious and recurrent internal problems to the commitment to difficult Pietist beliefs about authority and obedience The organization survived those troubles and its impact on Ghana continued to grow because the same biblical worldview that demanded extreme discipline also prepared the members of the mission community to sustain their efforts

From Mission to Modernity Paul Sedra, 2011-03-30 In this pioneering account of Egyptian educational history Paul Sedra describes how the Egyptian state under Muhammad Ali Pasha sought to forge a new relationship with children during the nineteenth century Through the introduction of modern forms of education brought to Egypt by evangelical missions the state aimed to ensure children's loyal service to the state whether through conscription or forced labour However these schemes of educational reform most prominently Joseph Lancaster's monitorial system led to unforeseen consequences as students in Egypt's new modern schools resisted efforts to control their behaviour in creative and complex ways and these acts of resistance themselves led to

new forms of political identity Tracing the development of a distinctly Egyptian modernity From Mission to Modernity is indispensable for all those interested in Egyptian history and the history of modern education and reform
