Professional Military Education In The United States A Historical Dictionary

Daniel K. Blewett

Professional Military Education In The United States A Historical Dictionary:

Professional Military Education in the United States William E. Simons, 2000-08-30 This book provides a unique resource on the educational development of the American military profession With nearly 140 entries from 65 authors it covers the origins and major evolutionary developments of all major institutions from the Federal service academies and ROTC programs through the Capstone program for newly appointed general and flag officers It provides sketches of personalities who made significant contributions as well as discussions of important concepts influencing professional military curricula contentious issues affecting program development and significant academic practices Most entries include a brief list of principal sources and a general bibliography is also provided Simons introduces the historical dictionary with a comprehensive essay that locates most of the topics historically in relation to others *Historical Dictionary of United States Intelligence* Michael A. Turner, 2014-10-08 While the United States has had some kind of intelligence capability throughout its history its intelligence apparatus is young dating only to the period immediately after World War II Yet in that short a time it has undergone enormous changes from the labor intensive espionage and covert action establishment of the 1950s to a modern enterprise that relies heavily on electronic data technology satellites airborne collection platforms and unmanned aerial vehicles to name a few This second edition covers the history of United States intelligence and includes several key features Chronology Introductory essay Appendixes Bibliography Over 600 cross referenced entries on key events issues people operations laws regulations This book is an excellent access point for members of the intelligence community students scholars and historians legal experts and general readers wanting to know more about the history of U S intelligence

Historical Dictionary of the United States Navy James M. Morris, Patricia M. Kearns, 2011-04-01 The United States Navy has evolved in the last century and a half from humble and often frustrating beginnings during and after the Revolutionary War to become the strongest navy in the world with responsibilities that span the globe The story of the Navy from its birth through the Civil War and other 19th century conflicts through its victories of World War I and World War II and down to the current efforts in the Middle East to maintain the peace not only for the United States but also for other nations as the world's primary peace keeper has been one of responding to the call of duty as captured by its unofficial motto *Non sibi sed patriae* Not self but country No other nation's navy past or present can match its successes and history The second edition of *Historical Dictionary of the United States Navy* covers U S Naval developments personnel and engagements from the colonial times to the present day This is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries on people places events and other terminology of the Navy This book is an excellent access point for students researchers and anyone wanting to know more about the United States Navy

Professional Military Education in the United States William E. Simons, 2000-08-30 This book provides a unique resource on the educational development of the American military profession With nearly 140 entries from 65 authors it covers the

origins and major evolutionary developments of all major institutions from the Federal service academies and ROTC programs through the Capstone program for newly appointed general and flag officers. It provides sketches of personalities who made significant contributions as well as discussions of important concepts influencing professional military curricula, contentious issues affecting program development and significant academic practices. Most entries include a brief list of principal sources and a general bibliography is also provided. Simons introduces the historical dictionary with a comprehensive essay that locates most of the topics historically in relation to others.

American Military History Daniel K. Blewett, 2008-12-30 In this companion volume to his 1995 bibliography of the same title, Daniel Blewett continues his foray into the vast literature of military studies. As did its predecessor, it covers land, air, and naval forces primarily but not exclusively from a U.S. perspective, with the welcome emergence of small wars from publishing obscurity. In addition to identifying relevant organizations and associations, Blewett has gathered together the very best in chronologies, bibliographies, biographical dictionaries, indexes, journals, abstracts, glossaries, and encyclopedias, each accompanied by a brief descriptive annotation. This work remains a pertinent addition to the general reference collections of public and academic libraries as well as special libraries, government documents collections, military and intelligence agency libraries, and historical societies and museums.

Historical Dictionary of American Education Richard J. Altenbaugh, 1999-10-30 The history of American education is a vital and productive field of study. This reference book provides factual information about eminent people and important topics related to the development of American public, private, and parochial schools covering elementary and secondary levels. In addition to major state and regional leaders and reformers, it includes biographies of significant national educators, philosophers, psychologists, and writers. Subjects embrace important ideas, events, institutions, agencies, and pedagogical trends that profoundly shaped American policies and perceptions regarding education. The more than 350 entries are arranged alphabetically and written by expert contributors. Each entry closes with a brief bibliography, and the volume ends with a list of works for further reading. Entries were drawn from a review of leading history of education textbooks and the *History of Education Quarterly*. These topics were further refined by comments from leading authorities and the contributors. Most of the contributors are established scholars in the history of education, curriculum, and instruction, school law, educational administration, and American history; a few also work as public and private school teachers and thus bring their practical experience to their entries. The period covered begins in the colonial period and continues through the 1990s.

Army History, 1999

Routledge Handbook of Defence Studies David J. Galbreath, John R. Deni, 2018-02-12 The *Routledge Handbook of Defence Studies* provides a comprehensive collection of essays on contemporary defence studies by leading international scholars. Defence studies is a multi-disciplinary study of how agents predominantly states prepare for and go to war. Whereas security studies has been broadened and stretched to cover at times the near totality of international and domestic affairs, and war studies has come to mean not just operations and tactics but also experiences and outcomes.

defence studies remains a coherent area of study primarily aimed at how defence policy changes over time and in relation to stimulating factors such as alterations in power strategy and technology This new Handbook offers a complete landscape of this area of study and contributes to a review of defence studies in terms of policy security and war but also looks forward to new challenges to existing conceptions of defence and how this is changing as states and their militaries also change The volume is divided into four thematic sections Defence as Policy Defence Practice Operations and Tactics and Contemporary Defence Issues The ability to review the field while also looking forward to further research is an important element of a sustainable text on defence studies In as much as this volume is able to highlight the main themes of defence studies it also offers an in depth look into how defence issues can be examined and compared in a contemporary setting This Handbook will be of great interest to students of defence studies strategic studies war studies security studies and IR

Encyclopedia of Military Science G. Kurt Piehler, 2013-07-24 The Encyclopedia of Military Science provides a comprehensive ready reference on the organization traditions training purpose and functions of today's military Entries in this four volume work include coverage of the duties responsibilities and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political social legal economic and technological factors A large component is devoted to issues of leadership group dynamics motivation problem solving and decision making in the military context Finally this work also covers recent American military history since the end of the Cold War with a special emphasis on peacekeeping and peacemaking operations the First Persian Gulf War the events surrounding 9 11 and the wars in Afghanistan and Iraq and how the military has been changing in relation to these events Click here to read an article on The Daily Beast by Encyclopedia editor G Kurt Piehler Why Don't We Build Statues For Our War Heroes Anymore

[The Origins of Aegis](#) Thomas Wildenberg, 2024-05-15 This book provides readers with an in depth understanding of the professional development of two notable and highly accomplished naval officers and their contributions to the development of the Aegis Weapons System The main argument is that there was no single career path or set of formal qualifications for achieving excellence in the naval profession as characterized by selection for Flag rank One of the major points is the revelation that a combination of essential personal traits and qualities and important operational and technical experiences fundamental to the nature of naval warfare are critical to developing highly competent and confident officers Such officers are needed to lead major acquisition programs capable of delivering innovative weapons systems for a twenty first century Navy facing new age threats

Parameters, 2000

Historical Dictionary of Indonesia R. B. Cribb, Audrey Kahin, 2004 Indonesia is Asia's third largest country in both population and area a sprawling tropical archipelago of some 180 million people from hundreds of ethnic groups with a complex and turbulent history One of Asia's newly industrializing countries it is already a major economic powerhouse In over 800 clear and succinct entries the dictionary covers people places and organizations as well as economics culture and political thought from Indonesia's ancient history up until the recent past Includes a

comprehensive bibliography maps chronology list of abbreviations and appendix of election results and major office holders This second edition has been thoroughly updated and expanded to cover the events that have occurred in Indonesia s history in the past fifteen years

The Routledge International Encyclopedia of Education Gary McCulloch,David Crook,2013-11-26 The Routledge International Encyclopedia of Education is a unique and major resource for the field of education It is a comprehensive single volume work arranged alphabetically and comprising around 600 entries The entries range from definitions of key educational concepts and terms to biographies of key educators and specially written substantial essays on major educational topics The volume includes authoritative and critical commentary on historical and contemporary themes examinations of continuities changes and emerging issues and discussions of the educational traditions and features of major countries and continents The following special features are also included Unrivalled coverage of education in a single volume Entries by leading international educational researchers Contributors drawn from all over the globe including Australia Brazil Canada China Finland India Israel Japan New Zealand South Africa the United Kingdom and the United States A distinguished international advisory board Fully cross referenced and indexed Suggestions for further reading Offering insight into the world of education in an interesting informed and sometimes provocative way The Routledge International Encyclopedia of Education is an invaluable work of reference for educators students researchers and policy makers in education and related fields internationally

Air & Space Power Journal win 02 , Talking about Naval History John B. Hattendorf,2011 NOTE NO FURTHER DISCOUNT ON THIS PRINT PRODUCT OVERSTOCK SALE Significantly reduced list price Twenty essays selected from the writings of John B Hattendorf Ernest J King Professor of Maritime History at the U S Naval War College between 2001 and 2009 They represent a wide historical perspective that ranges across nearly four centuries of maritime history A number of these pieces have been published previously but have appeared in other languages and in other countries where they may not have come to the attention of an American naval reading audience This collection is divided into parts that deal with four major themes the broad field of maritime history general naval history with specific focus on the classical age of sail from the mid seventeenth century to the end of the Napoleonic Wars in 1815 the wide scope of American naval history from 1775 to the end of the twentieth century and finally the realm of naval theory and its relationship to naval historical studies They are reprinted with only minor alterations as they originally appeared This work may appeal to general history readers scholarly and general adult readers of history especially naval and maritime plus students pursuing coursework in military science degree programs Other related products Fundamentals of War Gaming Print Paperback format can be found here https://bookstore.gpo.gov/products/sku/008_046_00299_1 Print Hardcover format can be found here https://bookstore.gpo.gov/products/sku/008_046_00269_0 Nineteen Gun Salute Case Studies of Operational Strategic and Diplomatic Naval Leadership During the 20th and Early 21st Centuries can be found here https://bookstore.gpo.gov/products/sku/008_046_00252_5 Digesting History The U S Naval War College the

He demonstrates that the military education system in Germany represented an organized effort where each school provided the stepping stone for the next. But in the US there existed no communication about teaching contents among the various schools.

Historical Dictionary of Ecuador George M. Lauderbaugh, 2019-07-15 In a country the size of Colorado one can explore snow capped mountain peaks, tropical rainforests and coastal beaches. These three continental regions also offer a variety of flora and fauna that are a dream come true to the botanist, zoologist and ornithologist. The famous Galapagos Islands provide an additional living laboratory for the natural scientist. The ethnographer and sociologist will be fascinated by the diversity of Ecuador's people and one could spend a lifetime studying the plethora of distinct ethnic, racial and linguistic groups. Students of economics will find an interesting case study of a mono-cultural economy that uses the U.S. dollar and avoids some of the pitfalls that other Latin American countries suffer from. Ecuador's rich traditions in art, music, literature and architecture are a draw to scholars interested in culture. Ecuador has been described by one author as a country of contrasts. This is indeed an apt description of Ecuador's geography and peoples. It also partially explains the nation's traditional lack of political cohesion which has plagued its quest for stability and development. Historical Dictionary of Ecuador contains a chronology, an introduction and an extensive bibliography. The dictionary section has over 800 cross-referenced entries on important personalities, politics, economy, foreign relations, religion and culture. This book is an excellent resource for students, researchers and anyone wanting to know more about Ecuador. **Command and General Staff Officer Education for the 21st Century: Examining the German Model** Major Luke G. Grossman USAF, 2015-11-06 Education has been the foundational cornerstone to every profession and continues to be so in the 21st Century. As a profession, the military is obligated to conduct not only training but also education of the keepers of the profession, the officer corps. Since the rise of large military bodies enabled by the levee en masse and industrialization, armies have required educated officers skilled in both command and staff functions. The Prussian/German model of staff officer education embodied in the Kriegsakademie of the Nineteenth and first half of the Twentieth Century was highly regarded and much copied. The education officer received at the Kriegsakademie directly contributed to an efficiently organized and employed Prussian/German Army at the tactical

and operational levels The investment in Kriegsakademie officer education paid huge dividends at Gravelotte St Privat and Sedan 1870 Tannenberg 1914 Battle of Poland 1939 and the Battle of France 1940 critical first battles With the rearming of Germany in 1955 came the need for the fledgling Bundeswehr to educate general staff officers This need was met by establishing the Führungsakademie German Armed Forces Command and Staff College The Führungsakademie was created with the same time honored principles that had served general staff officer training previously careful selection of the most highly qualified and promising officers and a broad based education rigorously applied However little information on the current Führungsakademie Education System is available in the English language This monograph attempts to address this void The author conducted research and interviews with the faculty staff and students at the Führungsakademie in Hamburg Germany in order to understand and assess the education given to German general staff officer aspirants The central general staff officer s education course is the National General Admiral Staff Officers Course

Historical Dictionary of Georgia

Alexander Mikaberidze, 2015-02-06 Situated in the breathtaking Caucasus Mountains between the Black and the Caspian Seas the country of Georgia sits at the crossroads between Europe and Asia it has gone through more turbulence and change in the last twenty five years the casting off of the Soviet regime a civil war two ethno territorial conflicts economic collapse corruption government inefficiency and massive emigration than most countries go through in 250 years This small nation s strategic location at the crossroads of different civilizations has been a curse as well as a blessing Once a battlefield between the ancient empires and the Christian and Islamic worlds today it is caught between its NATO aspirations and its location in Russia s backyard Yet despite all challenges and hardships this resilient and ancient country with thousands of years of winemaking three thousand years of statehood and almost two millennia of Christianity continues to survive and thrive Historical Dictionary of Georgia Second Edition through its chronology glossary introduction appendixes maps bibliography and over 900 hundreds of cross referenced dictionary entries on important persons places events and institutions and significant political economic social and cultural aspects traces Georgia s history and provides a compass for the direction the country is heading This book is an excellent access point for students researchers and anyone wanting to know more about Georgia

Texas Aggies Go to War

Henry C. Dethloff, John A. Adams, 2008-06-24 When their country calls Texas Aggies go to war From the Spanish American War and World War I to Operation Iraqi Freedom Aggies have been in the forefront of America s armed forces producing more officers than any other school outside the service academies More than 20 000 Texas Aggies served in World War II for instance including more than 14 000 as commissioned officers Trained in leadership and the knowledge required for warfare Aggies have served with distinction in all branches of the military service In this first ever compilation of the impressive war record of Texas Aggies stories of individual soldiers airmen sailors and marines are displayed with an abundance of statistics maps and tables These narratives include First person accounts of Aggie heroism in battle in all the wars in which A The horrific experiences of some of the eighty seven Aggies who were

stationed at Corregidor and Bataan The perils of five Aggies who participated in the raid over Tokyo with Jimmie Doolittle
The heroics of the seven Medal of Honor recipients from Texas A James Earl Rudder s leadership of the Ranger assault at
Normandy on D Day Examples of vigorous support and devotion to duty given by Aggies in Korea Vietnam and the Middle
East Texas Aggies Go to War celebrates the school s distinctive Corps of Cadets and its military contributions while honoring
the individual sacrifices of its members Those who fought and those who remember them will find here a comprehensive
account of the distinguished war record of this school This book was initiated and sponsored by a group of former students
who provided funding through the Texas A M Foundation All proceeds from the book will be used to benefit the Texas A M
Corps of Cadets

This book delves into Professional Military Education In The United States A Historical Dictionary. Professional Military Education In The United States A Historical Dictionary is a crucial topic that must be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Professional Military Education In The United States A Historical Dictionary, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to Professional Military Education In The United States A Historical Dictionary
 - Chapter 2: Essential Elements of Professional Military Education In The United States A Historical Dictionary
 - Chapter 3: Professional Military Education In The United States A Historical Dictionary in Everyday Life
 - Chapter 4: Professional Military Education In The United States A Historical Dictionary in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, the author will provide an overview of Professional Military Education In The United States A Historical Dictionary. This chapter will explore what Professional Military Education In The United States A Historical Dictionary is, why Professional Military Education In The United States A Historical Dictionary is vital, and how to effectively learn about Professional Military Education In The United States A Historical Dictionary.
 3. In chapter 2, this book will delve into the foundational concepts of Professional Military Education In The United States A Historical Dictionary. The second chapter will elucidate the essential principles that need to be understood to grasp Professional Military Education In The United States A Historical Dictionary in its entirety.
 4. In chapter 3, the author will examine the practical applications of Professional Military Education In The United States A Historical Dictionary in daily life. The third chapter will showcase real-world examples of how Professional Military Education In The United States A Historical Dictionary can be effectively utilized in everyday scenarios.
 5. In chapter 4, the author will scrutinize the relevance of Professional Military Education In The United States A Historical Dictionary in specific contexts. This chapter will explore how Professional Military Education In The United States A Historical Dictionary is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, this book will draw a conclusion about Professional Military Education In The United States A Historical Dictionary. The final chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Professional Military Education In The United States A Historical Dictionary.
