Authorship in the Long Eighteenth Century Dustin Griffin, 2013-12-11 This book deals with changing conditions and conceptions of authorship in the long eighteenth century a period often said to have witnessed the birth of the modern author It focuses not on authorial self presentation or self revelation but on an author's interactions with booksellers collaborators rivals correspondents patrons and audiences Challenging older accounts of the development of authorship in the period as well as newer claims about the public sphere and the professional writer it engages with recent work on print culture and the history of the book Methodologically eclectic it moves from close readings to strategic contextualization The book is organized both chronologically and topically Early chapters deal with writers notably Milton and Dryden at the beginning of the long eighteenth century and later chapters

Early Professional Women in Northern Europe, c. 1650-1850 Johanna Ilmakunnas, Marjatta Rahikainen, Kirsi Vainio-Korhonen, 2017-07-06 This book focuses on early examples of women who may be said to have anticipated in one way or another modern professional and or career oriented women The contributors to the book discuss women who may at least in some respect be seen as professionally ambitious unlike the great majority of working women in the past In order to improve their positions or to find better business opportunities the women discussed in this book invested in developing their qualifications and professional skills took economic or other kinds of risks or moved to other countries Socially they range from elite women to women of middle class and lower middle class origin In terms of theory the book brings fresh insights into issues that have been long discussed in the field of women's history and are also debated today However despite its focus on women the book is conceptually not so much focused on gender as it is on profession business career qualifications skills and work By applying such concepts to analyzing women's endeavours the book aims at challenging the conventional ideas about them

Samuel Johnson in Context John T. Lynch, 2012 A work of reference on the age of Johnson putting literature in the context of the society that produced it

Publishing the Woman Writer in England, 1670-1750 Leah Orr, 2023 Based on a survey of nearly seven hundred works with female authors from this period this book contends that authorship was constructed not always by the author for market appeal that biography often supported an authorial persona rooted in the genre of the work and that authorship was a role rather than an identity

Romanticism and Music Culture in Britain, 1770-1840 Gillen D'Arcy Wood, 2010-03-04 This book surveys the role of music in British culture throughout the long Romantic period

Living as an Author in the Romantic Period Matthew Sangster, 2021-01-27 This book explores how authors profited from their writings in the late

eighteenth and early nineteenth centuries contending that the most tangible benefits were social rather than financial or aesthetic. It examines authors' interactions with publishers, the challenges of literary sociability, the vexed construction of enduring careers, the factors that prevented most aspiring writers, particularly the less privileged, from accruing significant rewards, the rhetorical professionalisation of periodicals, and the manners in which emerging paradigms and technologies catalysed a belated transformation in how literary writing was consumed and perceived. Women's work Jennie

Batchelor, 2013-07-19 *Women's work* challenges influential accounts about gender and the novel by revealing the complex ways in which labour informed the lives and writing of a number of middling and genteel women authors publishing between 1750 and 1830. This book provides a particularly rich yet largely neglected seam of texts for exploring the vexed relationship between gender, work, and writing. The four chapters that follow contain thoroughly contextualised case studies of the treatment of manual, intellectual, and domestic labour in the work and careers of Sarah Scott, Charlotte Smith, Mary Wollstonecraft, and women applicants to the writer's charity, the Literary Fund. By making women's work visible in our studies of female-authored fiction of the period, Batchelor reveals the crucial role that these women played in articulating debates about the gendered division of labour, the incompatibility of women's domestic and professional lives, and the status and true value of women's work that shaped eighteenth-century culture as surely as they shape our own. **The Seduction**

Narrative in Britain, 1747-1800 Katherine Binhammer, 2009-09-24 Eighteenth-century literature displays a fascination with the seduction of a virtuous young heroine, most famously illustrated by Samuel Richardson's *Clarissa* and repeated in 1790s radical women's novels, in the many memoirs by fictional or real penitent prostitutes, and in street print. Across fiction, ballads, essays, and miscellanies, stories were told of women's mistaken belief in their lovers' vows. In this book, Katherine Binhammer surveys seduction narratives from the late eighteenth century within the context of the new ideal of marriage for love and shows how these tales tell varying stories of women's emotional and sexual lives. Drawing on new historicism, feminism, and narrative theory, Binhammer argues that the seduction narrative allowed writers to explore different fates for the heroine than the domesticity that became the dominant form in later literature. This study will appeal to scholars of eighteenth-century literature, social and cultural history, and women's and gender studies. Prolific Ground Nicolle

Jordan, 2025 *Prolific Ground* investigates landownership as a crucial factor in the emergence of British women's independence during the long eighteenth century. Staking a claim to the nation's investment in land, women writers acquired a socio-political authority that otherwise eluded them. The landscapes that emerge in their writing testify to the socio-political power of land in this era. **Hester Lynch Thrale Piozzi** Marianna D'Ezio, 2010-01-08 Scholars and readers who are

interested in eighteenth-century British literature are surely familiar with Hester Lynch Thrale Piozzi in the light she came to be known in her lifetime and after, first as the formidable hostess of Streatham House, South London, and then as an outcast from respectable eighteenth-century society after she had married the Italian piano teacher of her daughter. As a writer, her

importance has long been that of a footnote to Samuel Johnson and as a consequence she has been part of the official British literary canon only as a character. This volume introduces Hester Lynch Thrale Piozzi as a whole, trying to link her fascinating and subversive biography to her development as a writer, emphasizing the innovative issues of her works, her style, and her social and personal beliefs. Piozzi's biography is an interesting example of the dynamic scene of the late eighteenth century where she was both conservative and subversive. She was an eccentric, and although her decision to marry the Italian singer and composer Gabriele Piozzi disgraced her, it was through this act of subversion that Hester Thrale Piozzi could finally make her own entrance into the world as a public writer. Once she had transgressed the social codes of so-called feminine behaviour, she was also ready to move into the public sphere, publish her works, and make money out of them, pioneering several traditional literary genres through her passionate search for professional independence in the literary canon of the eighteenth century.

The Cambridge Companion to Women's Writing in the Romantic Period Devoney

Looser, 2015-03-12. A wide-ranging and accessible account of the pioneering professional women writers who flourished during the Romantic period. *The Routledge Companion to Romantic Women Writers* Ann R. Hawkins, Catherine S. Blackwell, E. Leigh Bonds, 2022-12-30. The Routledge Companion to Romantic Women Writers overviews critical reception for Romantic women writers from their earliest periodical reviews through the most current scholarship and directs users to avenues of future research. It is divided into two parts. The first section offers topical discussions on the status of provincial poets, women's engagement in children's literature, the relation of women writers to their religious backgrounds, the historical backgrounds to women's orientalism, and their engagement in debates on slavery and abolition. The second part surveys the life and careers of individual women, some 47 in all, with sections for biography, biographical resources, works, modern editions, archival holdings, critical reception, and avenues for further research. The final sections of each essay offer further guidance for researchers, including Signatures under which the author published and a List of Works accompanied, whenever possible, with contemporary prices and publishing formats. To facilitate research, a robust Works Cited includes all texts mentioned or quoted in the essay.
