Programming Languages and Systems S. Doaitse Swierstra, 2003-07-31 This is the second time that of ESOP has formed part of the ETAPS cluster of conferences workshops working group meetings and other associated activities One of the results of colocating so many conferences is a reduction in the number of possibilities to submit a paper to a European conference and the increased competition between conferences that occurs when boundaries between individual conferences have not yet become well established This may have been the reason for the fact that only 44 submissions were received this year On the other hand we feel that the average quality of submissions has gone up and thus the program committee was able to select 18 good papers only one less than the year before The program committee did not meet physically and all discussion was done using a Web driven data base system Despite some mixed feelings there is an overall tendency to appreciate the extra time available for giving papers a second look and really going into comments made by other program committee members I want to thank my fellow program committee members for the work they have put into the refereeing process and the valuable feedback they have given to authors I want to thank the referees for their work and many detailed comments and finally I want to thank everyone who has submitted a paper without authors no conference **T&P Of**
