**Lords of the Line** David Cruise,1996-10      *Lords of the Line* David and Griffiths Cruise (Alison),1988      The Spiral Tunnels and the Big Hill - An Illustrated Railway History Graeme Pole,2024-01-18 When the Canadian Pacific Railway CPR built through the Rockies in 1884 it laid track straight down the west slope of Kicking Horse Pass Dropping 1 140 feet in 7 1 railway miles this section of railway was a construction worker s horror and a railroader s nightmare that soon became known as the Big Hill Intended to be temporary the 4 5 percent grade more than 3 miles long saw use for 25 years until completion of the Spiral Tunnels in 1909 The two tunnels unique in North America loop over themselves doubling the length of track and halving the grade Incorporating more than 100 photographs The Spiral Tunnels and the Big Hill An Illustrated Railway History describes the construction of the CPR and recounts the tales of daring defiance and disaster on the second steepest mainline track ever operated in North America Maps and diagrams reveal how the Spiral Tunnels create a safer grade for trains The text provides up to date descriptions of today s locomotives and explains the many challenges of operating trains on mountain grades A Canadian bestseller for three decades this revised edition will be informative reading for railfans for travellers in the Rockies and for those with an interest in Canadian history      Immigration and Settlement, 1870-1939 Gregory P. Marchildon,2009 Immigration and Settlement 1870 1939 includes twenty articles organized under the following topics the Opening of the Prairie West First Nations and the Policy of Containment Patterns of Settlement and Ethnic Relations and Identity in the New West The second volume in the History of the Prairie West Series Immigration and Settlement includes chapters on early immigration patterns including transportation routes and ethnic blocks as well as the policy of containing First Nations on reserves Other chapters grapple with the various identities preferences and prejudices of settlers and their complex relationships with each other as well as the larger polity      Harry Livingstone's Forgotten Men Dan Black,2019-10-01 HARRY LIVINGSTONE was a small town doctor from Listowel Ontario when he felt the pull of patriotism that led him to volunteer in the First World War In 1917 Livingstone found himself embarking on a strange journey that took him to China where he would inspect and ultimately travel back to Canada with men who became known as the Chinese Labour Corps Once in Canada the Chinese under Livingstone s care travelled across Canada in secret trains bound for Halifax All news about the trains and the men was censored On board crowded ships the men crossed the U boat infested Atlantic They were then put to work to keep the war machine in motion digging trenches hauling supplies repairing military vehicles and the grisly job of cleaning up the battlefields About 300 000 Chinese labourers were recruited by the British French and Russian allies during the First World War Nearly 84 000 of them passed through Canada on their way to France Livingstone and other officers kept diaries and journals and wrote letters home telling of their experiences with the Chinese From these first person accounts as well as historical records and from rare letters written by Chinese labourers themselves author Dan Black offers for the first time a full account of Canadians and the Chinese Labour Corps a story that

had mostly been unknown until now      *Lord Strathcona* Donna McDonald,2002-09-01 Donald Smith known to most Canadians as Lord Strathcona was an adventurer who made his fortune building railroads He joined the Hudson s Bay Company at age eighteen and went on to build the first railway to open the Canadian Northwest to settlement As his crowning achievement he drove the last spike for the nation building Canadian Pacific Railway In 1896 Smith became Canada s High Commissioner in London and was soon elevated to the peerage He became a generous benefactor to Canadian institutions This eminently readable biography brings to light new information including details about Strathcona s personal life and his scandalous marriage      *Development Derailed* Max Foran,2013-11-01 In June of 1962 the Canadian Pacific Railway announced a proposal to redevelop part of its reserved land in the heart of downtown Calgary In an effort to bolster its waning revenues and to redefine its urban presence the CPR proposed a multimillion dollar development project that included retail office and convention facilities along with a major transportation centre With visions of enhanced tax revenues increased land values and new investment opportunities Calgary s political and business leaders greeted the proposal with excitement Over the following year the scope of the project expanded growing to a scale never before seen in Canada The plan took official form through an agreement between the City of Calgary and the railway company to develop a much larger area of land and to reroute or remove the railway tracks from the downtown area a grand design for reshaping Calgary s urban core In 1964 amid bickering and a failed negotiating process the project came to an abrupt end What caused this promising partnership between the nation s leading corporation and the burgeoning city of Calgary to collapse What in economic terms was perceived to be a win win situation for both parties fell prey to a conflict between corporate rigidity and an unorganized ill informed and over enthusiastic civic administration and city council Drawing on the private records of Rod Sykes the CPR s onsite negotiator and later Calgary s mayor Foran unravels the fascinating story of how politics ultimately undermined promise      **High on a Windy Hill** Ray Djuff,Chris Morrison,1999 Since 1927 sitting atop a knoll overlooking Upper Waterton Lake the Prince of Wales Hotel has survived floods fire gales and even closure Built for the Minnesota based Great Northern Railway the hotel initially provided an oasis for thirsty Americans during Prohibition Now a national historic site the lodge receives its rightful tribute in this extensively annotated book Discover why a US railway would build a hotel in Canada 50 miles from its closest line Read the nearly impossible saga of the construction site Uncover the stories of the dedicated people who have worked to preserve and run this classic venue Ray Djuff a former employee of the Prince of Wales Hotel spent 20 years researching this book uncovering facts and details long considered lost Vivid historical photographs bring to life the story of this grand survivor of the golden age of railway resort development      **Rails Across Canada** Tom Murray,2011-03-07 Few stories in the annals of railroading are as compelling as the construction evolution and astounding successes of the Canadian Pacific and Canadian National railways This sprawling volume combines two of Voyageur Press most successful Railroad Color History titles into one volume taking in the grand scope of both railroads Author Tom Murray

presents fastidiously researched and concisely presented histories of each railroad along with more than 300 photographs including rare archival black and white images and modern and period color photography sourced from national archives and private collections      *Gravity, Steam, and Steel* Graeme Pole, 2022-12-19 In 1882 the Canadian Pacific Railway Company committed to building Canada's first trans continental railway across unknown ground in the Selkirk Mountains of southern British Columbia. It was a gamble that almost scuttled the project and the promise of the young country. During the next three years a small army of surveyors, engineers and labourers cleared the grade and built track across Rogers Pass, the only break in the Selkirk Mountains, a place that defined wilderness. Trestles, tunnels, snowsheds, bridges and miles of looping track the Canadian Pacific Railway has since employed them all to reduce the dangers and to make railway operations in Rogers Pass safer and more reliable. *Gravity, Steam, and Steel* recounts the triumphs and tragedies of building and operating a railway in a place where 40 feet of snow falls each year and where trains routinely run on grades that many other railways would consider impossibly steep.
