

Lorsque l'enfant paraît 2

Dans ce deuxième tome de réponses aux lettres reçues à France Inter, Françoise Dolto a rassemblé et approfondi certaines questions l'ordre et le désordre, la fausse idée d'un développement « normal », l'adolescence, les interrogations des enfants sur la sexualité. Elle éclaire les rôles respectifs du père et de la mère.

Françoise Dolto (1908-1988)

Médecin psychanalyste, elle est l'une des figures marquantes de l'histoire du mouvement psychanalytique en France. Sa pensée et ses travaux ont profondément renouvelé le regard des adultes sur les enfants.

Lorsque L'enfant Parle Tome 2:

Discovering Françoise Dolto Kathleen Saint-Onge, 2019-05-22 This psychobiographical study of the renowned French pediatrician and psychoanalyst Françoise Dolto introduces both her theories of child development and her unique insights into language and identity. A friend of Jacques Lacan's, Dolto believed that we are all humanized through language and that the words we use carry unconscious traces of our early histories of love, suffering, and desire. Suggesting that infants unconsciously symbolize and that a continuous circulation of unconscious affects the transference prevails in all language-based relations, her findings challenge assumptions about autism, autobiography, linguistics, literacy, pedagogy, and therapy. Dolto's own corpus, a rich archive blending the personal and professional, demonstrates this with echoes between Dolto's constructs about the child and her own challenging childhood. This fascinating book will not only introduce the work of Françoise Dolto to many readers but will be a valuable resource for all psychoanalytic researchers and theorists interested in childhood, language, and identity.

Perpetual Children Jonathyne Briggs, 2024-12-03 *Perpetual Children* is a narrative history of debates over the definition and appropriate treatment of autism in France since 1950, noting the French divergence from psychological norms in the rest of the world. Examining the works of psychoanalysts, the activities of parents' associations, and the efforts of autistic self-advocates, the book argues that the consistent framing of autism as a form of childhood psychosis marginalized autists and emphasized the voices of parents and professionals. This framing also justified the continued use of psychoanalysis as an intervention due to the placement of autism within the family dynamic. Even as research in the United States pointed to biological and neurological conceptions of autism, the French continued to support a psychogenic origin for the disorder, impacting state policy and medical norms for decades. This position energized conflict between professionals and parents concerning expertise, leading to political and legal changes at the end of the twentieth century. By the twenty-first century, French autists entered the debate to transform its parameters and assert their own position as experts on autism, reconceiving the disorder outside of childhood to a limited degree. *Perpetual Children* reveals the international dimension of the story of autism and how the French context provides a different perspective on its history.

Rethinking Autism with Dolto Kathleen Saint-Onge, 2024-03-04 *Rethinking Autism with Dolto* takes up a principal legacy of Françoise Dolto's immense project: her conviction that autism is a regression to the archaic. Dolto theorizes that the infant in utero, deep in dreams, is receptive to the audition of phonemes during the pre-conscious, archaic stage of psychosexual maturation. That dream work on words, an idiosyncratic prehistory at the onset of mental and emotional life, secures the unconscious circulation of affect and the ontogeny of thought long prior to speech, seeding associative thinking and facilitating self-regulation. Kathleen Saint-Onge uses the written work of four nonverbal autistic authors in seeking corroboration for Dolto's formulations, finding thoughtful self-reflections that relate the experience of living in silence with relentless anxiety while relying on regression as a defence. Dolto's unprecedented insights into the infant's earliest learning

carry formidable implications for autism interventions and for primary language and literacy At issue is an enduring susceptibility to archaic echoes the haphazard securing return of pre invested phonemes in communicative exchanges including reading and writing Rethinking Autism with Dolto considers unconscious processes as inherently reparative heralding the responsibility education holds for human health and supports a rethinking of autism that presumes competence Readers are invited to new conversations in psychoanalysis child development education and linguistics through an exploration of the unconscious concomitants of first language acquisition *Un divan pour vivre debout - tome 2* , **Arts Therapists in Multidisciplinary Settings** Caroline Miller,2015-12-21 An edited collection from art music drama dance and play therapists on the proven benefits of arts therapies when applied in a range of interdisciplinary settings Caroline Miller aims to help arts therapists to advocate for their profession to the colleagues families and clients with whom they work
