The Mexican Filmography, 1916 through 2001 David E. Wilt, 2024-10-17 Mexican cinema has largely been overlooked by international film scholars because of a lack of English language information and the fact that Spanish language information was difficult to find and often out of date This comprehensive filmography helps fill the need Arranged by year of release and then by title the filmography contains entries that include basic information film and translated title production company genre director cast a plot summary and additional information about the film Inclusion criteria a film must be a Mexican production or co production feature length one hour or more silent films excepted fictional documentaries and compilation films are not included unless the topic relates to Mexican cinema some docudramas and films with recreated or staged scenes are included and theatrically released or intended for theatrical release *Visualizing Loss in Latin America* Gisela Heffes, 2023-05-19 Visualizing Loss in Latin America engages with a varied corpus of textual visual and cultural material with specific intersections with the natural world arguing that Latin American literary and cultural production goes beyond ecocriticism as a theoretical framework of analysis Gisela Heffes poses the following crucial question How do we construct a conceptual theoretical apparatus to address issues of value meaning tradition perspective and language that contributes substantially to environmental thinking and that is part and parcel of Latin America The book draws attention to ecological inequality and establishes a biopolitical ethics based reading of Latin American art film and literature that operates at the intersection of the built environment and urban settings Heffes suggests that the aesthetic praxis that emerges in from Latin America is permeated with a rhetoric of waste a significant trait that overwhelmingly defines it
