The Lost Tribe Edward Marriott, 2000-05 Two years before this story begins the Liawep were living deep in the jungle of Papua New Guinea long forgotten by the outside world Numbering seventy nine men women and children the tribe worshipped a mountain dressed in leaves and hid when planes flew overhead believing them to be evil sanguma birds Their discovery by a missionary hit the headlines in 1993 Galvanized by the reports of people living in Stone Age conditions Edward Marriott set out to find the Liawep Banned from visiting the tribe by the New Guinea government he assembled his own ragtag patrol and ventured illegally into the wilderness in search of his quarry Nothing could have prepared him for what he found or for the dramatic events that followed A thrilling superbly written adventure The Lost Tribe is a memorable account of what happens when good intentions go awry when rational man meets primal beliefs and when a small primitive people are ensnared by the predations of civilization

Our Way Robert Kastenbaum, 2004-05-20 How do our ideas about dying influence the way we live Life has often been envisioned as a journey the river of time carrying us inexorably toward the unknown country and in our day we increasingly turn to myth and magic ritual and virtual reality cloning and cryostasis in the hope of eluding the reality of the inevitable end In this book a preeminent and eminently wise writer on death and dying proposes a new way of understanding our last transition A fresh exploration of the final passage through life and perhaps through death his work deftly interweaves historical and contemporary experiences and reflections to demonstrate that we are always on our way Drawing on a remarkable range of observations from psychology anthropology religion biology and personal experience Robert Kastenbaum re envisions life s forward looking progress from early childhood bedtime rituals to the many small rehearsals we stage for our final separation Along the way he illuminates such moments and ideas as becoming a corpses person going down to earth or up in flames respecting or abusing and eating the dead coping with too many dead conceiving and achieving a good death undertaking the journey of the dead and learning to live through the scrimmage of daily life fully knowing that Eternity does not really come in a designer flask Profound insightful often moving this look at death as many cultures await it or approach it enriches our understanding of life as a never ending passage [Evolving Brains, Emerging Gods](#) E. Fuller Torrey, 2017-09-05 Religions and mythologies from around the world teach that God or gods created humans Atheist humanist and materialist critics meanwhile have attempted to turn theology on its head claiming that religion is a human invention In this book E Fuller Torrey draws on cutting edge neuroscience research to propose a startling answer to the ultimate question Evolving Brains Emerging Gods locates the origin of gods within the human brain arguing that religious belief is a by product of evolution Based on an idea originally proposed by Charles Darwin Torrey marshals evidence that the emergence of gods was an incidental consequence of several evolutionary factors Using data ranging from ancient skulls and artifacts to brain imaging primatology and child development studies this book traces how new cognitive abilities gave rise to new behaviors For instance autobiographical memory the ability to project ourselves backward and forward in time gave Homo sapiens a competitive advantage However it also led to comprehension of mortality spurring belief in an alternative to death Torrey details the neurobiological sequence that explains why the gods appeared when they did connecting archaeological findings including clothing art farming and urbanization to cognitive developments This book does not dismiss belief but rather presents religious belief as an inevitable outcome of brain evolution Providing clear and accessible explanations of evolutionary neuroscience Evolving Brains Emerging Gods will shed new light on the mechanics of our deepest mysteries [Speak For England](#) James Hawes, 2010-08-20 Brian Marley should be counting his winnings as victor of Britain s ultimate reality TV show Instead he s stranded on a jungle island after a helicopter crash wipes out the television crew His ill fated luck takes a turn when he falls from a precarious cliff and lands in a lost world Awakening in a village founded by survivors of a 1958 airplane crash Brian discovers an idyllic community modeled after pre Sixties England and overseen
