Modern Condition Essays At Centurys End:

The Modern Condition Dennis Hume Wrong,1998 In this collection a leading sociologist brings his distinctive method of social criticism to bear on some of the most significant ideas political and social events and thinkers of the late twentieth century Of the seventeen essays two are published for the first time and several of the previously published essays have been expanded and updated for this volume In the first section the author critiques several concepts that have figured prominently in political ideological controversies capitalism rationality totalitarianism power alienation left and right and cultural relativism multiculturalism He considers their origins historical shifts in their meaning and the myths surrounding them and their subtle resonance beyond their formal definitions The second section highlights the author s lifelong interest in the relation of intellectuals to social classes and institutions The author critically assesses the notion of a New Class in which intellectuals have been alleged to play a prominent role considers the implications for class structure of the increasing centering of intellectual life in the university and assesses the relation of sociology to professional jargon The final essays in this section discuss four influential thinkers David Riesman Daniel Bell Christopher Lasch and Allan Bloom The book closes with an autobiographical statement centered on the author s intellectual political life *21st Century Sociology: A*

Randall Jarrell and His Age Stephen Burt,2005-06-14 Few aspects of American military history have been as vigorously debated as Harry Truman s decision to use atomic bombs against Japan In this carefully crafted volume Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons surveys the major debates related to that decision and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945 He then provides a historical overview of thye events in question beginning with the decision and program to build the atomic bomb Detailing the sequence of events leading to Japan s surrender he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders Finally Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents scholarly books and articles

The Oversocialized Conception of Man Dennis H. Wrong,2018-04-17 The chapters in this volume represent some of Dennis Wrong s best and most enduring essays Initially published as *Skeptical Sociology* this collection displays his ability to write compellingly for general intellectual audiences as well as for academic sociologists The book is divided into sections that represent Wrong s major areas of interest and investigation Human Nature and the Perspective of Sociology Social Stratification and Inequality and Power and Politics Each section is preceded by a short introduction that places the articles in context and elaborates and often sheds new light on the contents The essays in the first section were written with polemical intent directed against the

assumptions of academic sociology that prevailed in an earlier period Part two calls attention to the neglect by functionalists of power group conflict and historical change Wrong shows that failure to consider them made functional theories of stratification especially vulnerable The third section is more heterogeneous in subject and theme than the others all the essays in it touch in some way on power or politics Included in this volume is Wrong s celebrated and much quoted article The Oversocialized Conception of Man in Modern Sociology Other significant essays reveal the author s views on many timely topics of sociological concern such as the quests for community and for identity the Freudian Marxian and Weberian heritages in sociology social class in America meritocracy a theory of democratic politics humanist positivist and functionalist perspectives and the sociology of the future The Oversocialized Conception of Man is an indispensable volume for sociologists political theorists and historians Dennis H Wrong is emeritus professor of sociology at New York University He is the author of The Problem of Order Population and Society Class Fertility Trends in Western Nations Power Its Forms Bases and Uses also published by Transaction and The Modern Condition forthcoming **Autonomy and Order** Edward W. Lehman, 2000 This anthology of original essays by prominent political scientists philosophers and sociologists systematically advances our understanding of the movement s agenda Using Amitai Etzioni s The New Golden Rule as the guidepost for organizing conversations the essays are structured around key questions that spring from Communitarian tenets

Goffman's Legacy Javier A. Treviño, 2003-07-28 Erving Goffman 1922-82 was arguably one of the most influential American sociologists of the twentieth century A keen observer of the interaction order of everyday life Goffman s books which have sold in the hundreds of thousands continue to be widely read and his concepts have permanently entered the sociology lexicon This volume consists of ten original essays all written by prominent Goffman scholars that critically assess Goffman s many contributions to various areas of study including functionalism social psychology ethnomethodology and feminist theory **Reflections on Politically Skeptical Era (Clt)** Dennis Hume Wrong, a welcome and scholarly contribution to Political Science reference collections and reading lists The Bookwatch All of the essays included in the present volume were written between 1995 and 2001 This attests to the timeliness and relevance of Dennis H Wrong s writings He notes that the mid twentieth century disposition to believe that politics fundamentally consisted of clashes between totalistic worldviews such as communism socialism capitalism fascism nationalism internationalism and a cluster of isms may have been historically transitional But politics now appears more nuanced if no less troubled following the collapse of the Soviet bloc between 1989 and 1991 Multiculturalism and identity politics as well as communitarianism flourished in the 1990s The volume is divided into five parts Capitalism Inequalities and Alternatives Multiculturalism and Identity Politics Communitarianism Theory and Theorists and Autobiographical Reminiscences This concluding part indicates how Wrong s work includes self reflections as well as reflections an examination of how figures such as C Wright Mills and Raymond Aron Amitai Etzioni and Digby Baltzell played a role in shaping his own thought and how these changed over the course of the past

century This is the third collection of the essays and articles of Dennis H Wrong published by Transaction As was the case with his earlier volumes *Reflections on a Politically Skeptical Era* is characterized by a deep attention to the actual social history of our times and how this plays out in academic pursuits especially within sociology Whether the works were published in academic journals or more popular media they reflect a quality of literary manners that is rare among social science writings but a reflection that never sacrifices a sense of principle and probity in the process Dennis H Wrong is the author of several books including two essay collections containing articles first published in cultural intellectual political and scholarly journals in the United States Canada and Britain several of which he has served as an editor or editor in chief He has taught sociology at Princeton Rutgers Brown the University of Toronto the New School for Social Research Graduate Faculty and for most of his career at New York University He is currently retired and lives in Princeton

The Blackwell Companion to Sociology Judith R Blau, 2008-04-15 The Blackwell Companion to Sociology is a milestone collection of new essays by renowned sociologists covering both the traditions and strengths of the field as well as newer developments and directions Authors from the US the UK Europe and elsewhere have contributed to this all in one reference work highlighting the relevance of interdisciplinary and international perspectives while at the same time representing the scope and quality of sociology in its current form

Les idées en mouvement Michel Ducharme, Damien-Claude Bélanger, Sophie Coupal, 2004

Before the Storm Rick Perlstein, 2009-03-17 Acclaimed historian Rick Perlstein chronicles the rise of the conservative movement in the liberal 1960s At the heart of the story is Barry Goldwater the renegade Republican from Arizona who loathed federal government despised liberals and mocked peaceful coexistence with the USSR Perlstein's narrative shines a light on a whole world of conservatives and their antagonists including William F Buckley Nelson Rockefeller and Bill Moyers Vividly written *Before the Storm* is an essential book about the 1960s

Every Intellectual's Big Brother John Rodden, 2009-03-06 George Orwell has been embraced adopted and co-opted by everyone from the far left to the neoconservatives Each succeeding generation of Anglo American intellectuals has felt compelled to engage the life work and cultural afterlife of Orwell who is considered by many to have been the foremost political writer of the twentieth century *Every Intellectual's Big Brother* explores the ways in which numerous disparate groups Orwell's intellectual siblings have adapted their views of Orwell to fit their own agendas and how in doing so they have changed our perceptions of Orwell himself By examining the politics of literary reception as a dimension of cultural history John Rodden gives us a better understanding of Orwell's unique and enduring role in Anglo American intellectual life In Part One Rodden opens the book with a section titled *Their Orwell Left and Right* which focuses on Orwell's reception by several important literary circles of the latter half of the twentieth century Beginning with Orwell's own contemporaries Rodden addresses the ways various intellectual groups of the 1950s responded to Orwell Rodden then moves on in Part Two to what he calls the Orwell Confraternity Today those contemporary intellectuals who have in various ways identified themselves with or reacted against

Orwell The author concludes by examining how Orwell's status as an object of admiration and detraction has complicated the way in which he has been perceived by readers since his death **The Persistence of the Particular** Dennis

Wrong, 2017-07-12 Definitions of human beings as symbolic animals emphasize our capacity to form theories and general laws that can be applied to common social experience This is balanced by an equally strong will to define events and conditions that are particular to specific times places and individuals In this volume Dennis H Wrong argues that the scientific standard of universal laws and propositions has only limited relevance to human historical phenomena Wrong identifies the essential questions for social science as the place of nature and nurture in forming personality the sources of variation in human conduct and culture the causes of deviations from social norms how human motivations are socially shaped and controlled to make society possible and finally the causes of social change Because successive generations of thinkers have given varying answers to these questions no cumulative progress can be said to have occurred Wrong argues that the unity of theory and research sought by American sociologists cannot be obtained in social theory In terms of sociological practice this has created a disparity between the canonical theories of Marx Durkheim and Weber and the empirically oriented methodologies of current social research especially questionnaires fieldwork and statistical research Wrong attributes this disparity to postmodern skepticism about the potential of the social sciences to create a body of knowledge that might positively reshape human society Between the large scale theoretical constructs of classical theory and the overly particularistic tendencies associated with postmodernism Wrong argues for a historically oriented approach emphasizing unforeseen accidental agents as a foundation for modestly conceived theories Wrong emphasizes that the capacity to avoid predictable standardized responses whether they are based on instinct or ingrained habit is the source of human creativity Homo sapiens is as much as a creature of habit as it is a creature of instinct Freud and American Sociology Philip Manning, 2013-04-23 Although Freud's impact on social science and indeed 20th century social thought has been extraordinary his impact on American sociology has been left relatively unexplored This ground breaking book aims to fill this knowledge gap By examining the work of pioneers such as G H Mead Cooley Parsons and Goffman as well as a range of key contemporary thinkers it provides an accurate history of the role Freud and psychoanalysis played in the development of American social theory Despite the often reluctant and frequently resistant nature of this encounter the book also draws attention to the abiding potential of fusing psychoanalytic and sociological thinking Freud and American Sociology represents an original and compelling contribution to scholarly debate At the same time the clarity with which Manning develops his comprehensive account means that the book is also highly suitable for adoption on a range of upper level undergraduate and graduate courses including sociology social theory social psychology and related disciplines Modernity and Postmodernity Gerard Delanty, 2000-04-19 This accessible and comprehensive overview of the main issues on the modernity postmodernity controversy is the first clear sighted book on the subject It surveys modern social theory from Kant to Weber with economy and masterly precision And

evaluates the work of the Frankfurt School Arendt Strauss Luhmann Habermas Heller Castoriadis and Touraine before moving on to consider the approaches of the leading writers on postmodernity Lyotard Vattimo Derrida Foucault and Jameson The result is a new way of conceptualizing the modernity postmodernity debate and an exciting new approach to the roots of contemporary social theory

Pluralism at Yale Richard M. Merelman, 2003 Pluralism at Yale The Culture of Political Science in America explores the relationship between personal experience and academic theories of American politics Through a detailed examination of the Yale University Department of Political Science between 1955 and 1970 including interviews with many of the political scientists involved this book traces the way pluralism a predominately optimistic theory of American democracy which the Yale department helped to develop in those years helped to support the American political regime Merelman also analyzes the impact of social and political events on the decline of Yale pluralism and describes pluralism's continued political relevance today Included are discussions of McCarthyism the Civil Rights Movement and the Vietnam War

The Anxiety of Ascent Scott Doidge, 2018-09-03 This intriguing book re-evaluates a narrative of cultural decline that developed in the wake of Max Weber's The Protestant Ethic and the Spirit of Capitalism For Weber and a group of influential sociologists that followed Western modernity is marked by growing disenchantment with the beliefs and values that had previously given a sense of structure and meaning to life Despite its unparalleled material achievements the modern West in this reading is suffering from a crisis of meaning and is no longer able to provide authoritative answers to the only really important question What shall we do and how shall we live This book examines two influential responses to this question the German bourgeois ideal of the late nineteenth century and the mid twentieth century American celebration of the middle class In each period the exploration is guided by a close reading of a contemporary and retrospective text For Germany Gustav Freytag's novel Debt and Credit 1855 is read against Thomas Mann's Buddenbrooks 1901 and for the US the domestic comedy Father Knows Best 1954 1960 is read against the cable television drama Mad Men 2007 2015 The Anxiety of Ascent casts Weber's narrative in a more optimistic light pointing towards the redemptive possibilities contained within everyday life As such it will appeal to sociologists and cultural studies scholars interested in cultural sociology social theory morality meaning and the culture of middle class life

George Orwell Thomas Cushman, John Rodden, 2015-11-17 The year 2003 was the 100th anniversary of the birth of George Orwell one of the most influential authors of the twentieth century Orwell's books are assigned today in over 60 000 classrooms annually In this book essays by prominent writers and scholars explain why his impact continues in a world much changed from his own The essays explore new aspects of Orwell's life and work and his continuing relevance for the interpretation of modern social political and cultural affairs Thematic topics include the use and abuse of 1984 ideas ideologues and intellectuals biography and autobiography literary and stylistic analyses and the reception of Orwell's work abroad The volume is an ideal secondary source for those who continue to be influenced by Orwell's insights and for teachers of Orwell's

work Contributors Christopher Hitchens Jonathan Rose Ian Williams Morris Dickstein John Rodden Thomas Cushman Ronald F Thiemann Lawrence Rosenwald Todd Gitlin Erika Gottlieb Dennis Wrong Daphne Patai Jim Sleeper William Cain Lynette Hunter Margery Sabin Vladimir Shalpentokh Miquel Berga Gilbert Bonifas Robert Conquest **Consumption, Status, and Sustainability** Paul Roscoe, Cindy Isenhour, 2021-08-12 This volume addresses current concerns about the climate and environmental sustainability by exploring one of the key drivers of contemporary environmental problems the role of status competition in generating what we consume and what we throw away to the detriment of the planet Across time and space humans have pursued social status in many different ways through ritual purity singing or dancing child bearing bodily deformation even headhunting In many of the world s most consumptive societies however consumption has become closely tied to how individuals build and communicate status Given this tight link people will be reluctant to reduce consumption levels and environmental impact and forego their ability to communicate or improve their social standing Drawing on cross cultural and archaeological evidence this book asks how a stronger understanding of the links between status and consumption across time space and culture might bend the curve towards a more sustainable future **Inequality in Australia** Alastair Greig, Frank Lewins, Kevin White, 2003-02-17 This text seeks to analyse and explain inequality challenging traditional conceptions and providing a new critical perspective The authors provide a comprehensive historical account of inequality and show how that account no longer adequately explains the new and different forms of inequality experienced in recent decades As society has changed they argue new forms of inequality have emerged conditioning the subject s very experience of identity embodiment and politics The book is at once a critical overview of contemporary inequality and a thorough going textbook suitable for undergraduates
