My Freight Train:

Alligators, Freight Trains & Near Flying Disasters Ray Madden, 2009-02 Down through the years with my unusual amount of engine failures over 18 most pilots with total engine failures usually died Also how many 16 year old teenagers have thumbed and hopped the freight trains to see the states from coast to coast and border to border starting with a twenty dollar bill Not only is this an interesting fun read but it has some simple rules that help to keep pilots in general aviation alive even the best Before retiring from the airline I met a flight instructor that had instructed at the same airport in Monroeville years before He was an excellent pilot He told me he was ferrying airplanes all over the world even single engine aircraft I was amazed that he would fly over the ocean to reach some of the countries with a single engine airplane The last thing I asked him What will you do if the engine quits He just laughed A few years later his picture was on the front page of a Pittsburgh newspaper He was flying near the Canary Islands and his engine quit They never found him So if you have any pilot friends you may want to give them a copy of this book if only to read the chapter on Staying Alive *Railroad Men*, 1900 **The American and English Railroad Cases** Lawrence Lewis, Adelbert Hamilton, John Houston Merrill, William Mark McKinney, James Manford Kerr, John Crawford Thomson, 1887 Covers cases decided 1879 1895 **Miscellaneous Documents** United States.
