may yet come up other days new problems come as unwanted surprises so I am still learning too I thought it was about time to share some of my experiences in the hope that what I've learned will help you There are few guarantees in life but with a little planning and forethought you can often tip the scales in your favor or you can change the odds a little more to your benefit As a result hopefully you will be able to avoid most major problems and minimize the impact caused by the others The trip you are about to take will highlight many experiences from my life some of which hopefully will stay with you and you will benefit from what I learned without pain to yourself I've always tried to see the fun parts of everything whenever the situation permits I also try to share what I've learned in appreciation to all those before me that shared with me what they learned Enjoy the trip I hope you will find many sections that you will pass along with your own experiences to benefit others We all are still learning 103
