Sensory Biographies Prof. Robert R. Desjarlais,2003-03-03 Robert Desjarlais s graceful ethnography explores the life histories of two Yolmo elders focusing on how particular sensory orientations and modalities have contributed to the making and the telling of their lives These two are a woman in her late eighties known as Kisang Omu and a Buddhist priest in his mid eighties known as Ghang Lama members of an ethnically Tibetan Buddhist people whose ancestors have lived for three centuries or so along the upper ridges of the Yolmo Valley in north central Nepal It was clear through their many conversations that both individuals perceived themselves as nearing death and both were quite willing to share their thoughts about death and dying The difference between the two was remarkable however in that Ghang Lama s life had been dominated by motifs of vision whereas Kisang Omu s accounts of her life largely involved a theatre of voices Desjarlais offers a fresh and readable inquiry into how people s ways of sensing the world contribute to how they live and how they recollect their lives

but no easy answers Laytner intersperses his penetrating theological reflections with pertinent episodes from his life because for him theology is personal and experience based Trained as a liberal rabbi Laytner riffs on Jewish themes to offer a universal message of hope in the face of suffering and loss and of mutual support based on humanity's various teachings of lovingkindness This book will challenge you it will sometimes amuse you but you will not remain unmoved **My Life After Hate** Arno Michaels,2010-11-07 *Imaging Life after Death* Fischer, Kathleen,2004 Drawing inspiration from science scripture poetry and relationships this book explores the meaning of life after death in a variety of traditions *The Art of Dying* Patricia Weenolsen,2016-02-02 The Art of Dying speaks to modern readers with refreshing frankness and wit It covers the subject thoroughly from how to inform relatives of impending death to coping with pain and fear to death rituals to preparing for a possible afterlife or depending on one's viewpoint the end of it all Publishers Weekly Along with our caring presence this book may be the finest gift we can give someone facing the last stage of life Rabbi Harold Kushner author of When Bad Things Happen to Good People Dr Weenolsen doesn't duck the tough questions M Brewster Smith PhD former president American Psychological Association This book gives the same things a good support group does compassionate sympathy and practical advice for people sharing pain It will be a godsend Rebecca Brown author of Gifts of the Body Begins with the day you receive the diagnosis and the sudden realization that never again will you be as you were Even if by some miracle you heal it will be only temporary Weenolsen takes the panic and paralysis out of such news through wise aggressive no holds barred approaches Patricia Holt San Francisco Chronicle A book everyone can benefit from reading Nancy Pearl author of More Book Lust Also for family and friends of dying persons for professionals in the health care fields and for those who train them Hannelore Wass PhD founding editor Death Studies *Is There a Duty to Die?* John Hardwig,2014-05-01 First published in 2000 Routledge is an imprint of Taylor Francis an informa company *The Myth of an Afterlife* Michael Martin,Keith Augustine,2015-03-12 Because every single one of us will die most of us would like to know what if anything awaits us afterward not to mention the fate of lost loved ones Given the nearly universal vested interest in deciding this question in favor of an afterlife it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance But the evidence of our senses and the ever gaining strength of scientific evidence strongly suggest otherwise In *The Myth of an Afterlife* The Case against Life after Death Michael Martin and Keith Augustine collect a series of contributions that redress this imbalance in the literature by providing a strong comprehensive and up to date casebook of the chief arguments against an afterlife Divided into four separate sections this collection opens with a broad overview of the issues as contributors consider the strongest evidence of whether or not we survive death in particular the biological basis of all mental states and their grounding in brain activity that ceases to function at death Next contributors consider a host of conceptual and empirical difficulties that confront the various ways of surviving death from bodiless minds to bodily resurrection to any form of posthumous survival Then essayists turn to internal inconsistencies between traditional

theological conceptions of an afterlife heaven hell karmic rebirth and widely held ethical principles central to the belief systems supporting those notions In the final section authors offer critical evaluations of the main types of evidence for an afterlife Fully interdisciplinary The Myth of an Afterlife The Case against Life after Death brings together a variety of fields of research to make that case including cognitiveneuroscience philosophy of mind personal identity philosophy of religion moralphilosophy psychical research and anomalistic psychology As the definitive casebookof arguments against life after death this collection is required reading for anyinstructor researcher and student of philosophy religious studies or theology It issure to raise provocative issues new to readers regardless of background from thosewho believe fervently in the reality of an afterlife to those who do not or are undecidedon the matter
