Clifford,2012-11-30 Reflections of a Cat Whisperer is a journey through childhood and then into life as an adult The short stories thoughts and verses are descriptions of the interactions between numerous felines and me throughout the years This collection is not one continuous story rather it contains descriptions of moments with my thundering herd and other felines It is about a magical way of looking at life through which I received wisdom and continue to do so from these marvellous creatures *Life After Death by God's Hands* Rosalia Rushton,2021-08-09 Throughout my life I have often wondered What is the most important What matters most in life and what makes a life worth living Faith has been the answer to every question I have ever had In the early fall of 1979 while walking through the streets of Santiago Chile I stopped in front of a young street vendor and purchased a small book *El Diario de Mi Vida* In the years that followed I returned to that diary often filling the new pages and rereading the past always staring at the first line What has motivated me to write in this diary is the countless times I have seen God s presence in my life This is a true story of my life **A Cat's Life** Danielle Forrester,

Thoughtful Times Mary Lax,2014-08-22 Writing this book is my way of sharing what I've learned in the course of my life on earth some very unique life experiences and some most of us have in common I believe it's this information that ought to be shared more freely by all of us to enable the creation of better ways than wars and prejudices to take care of personal and collective interests and responsibilities It's not possible to make life improvements unless we fully own what is and isn't working well It's also not possible to obtain and provide needed help unless we share what assistance is lacking and available As a favorite professor insisted at the start of every class Our sickness is revealed in our secrets we must uncover and study what we keep so well hidden before it's possible to cure it There are two rules essential to assuring this sharing is productive and non hurtful Those key rules are truthfulness and kindness The stories in this book represent what happens when these rules are well applied and when they aren't to encourage careful management of all interactions so that all participants are treated with due respect There are chapters as well that encourage better understanding and use of human emotions and behavior generally
