My Search Susaik Chu,2015-10-16 My Search is the result of over 10 years of research testing and experimenting to find answers for all the people about allergies and sickness and how and why they were getting them The author feels that her work will serve and help people around the world This book is a personal journey of an author who fundamentally cares about the welfare and health of her fellow man and wanted to use her own personal challenges and transform them into opportunity to learn and better the world around her Emergency Claire Laurier Decoteau,2024-12-16 A forceful critique of how and why states failed to protect marginalized communities in their responses to the COVID 19 pandemic and the implications of ignoring the existing emergencies that exacerbated the pandemic s devastating effects The COVID 19 pandemic inaugurated a state of emergency unprecedented for most Americans Some could observe this emergency from the relative safety of their homes but those in marginalized communities without access to the same privileges were forced to risk their health and well being In Emergency sociologist Claire Laurier Decoteau documents and theorizes the emergencies of COVID 19 by looking at the experiences of Chicagoans and the policies that shaped their lives She describes the uneven racial impact of COVID 19 on Black and Latinx Chicagoans as a crisis within a crisis caused by a convergence of emergencies a state of emergency that protected white supremacy and wealth the slow emergencies racially marginalized populations have faced for decades due to the long term gutting of care infrastructure and deindustrialization and the sacrifice essential workers were asked to make to protect the United States economy As Decoteau shows the city s racial equity project used

data to determine which communities would be given scarce resources but once positivity or death rates declined resources were retracted and redistributed elsewhere City officials thus attempted to manage these converging emergencies by manipulating epidemiological data and orchestrating systems for interpreting that data Decoteau makes clear that the emergencies precipitated by COVID 19 long predated the pandemic and that we will continue to live with their compounding crises if we do not tackle their structural underpinnings

Downs, 2018-10-02 I know God is loving I know He is good I believe He is big and powerful But sometimes I wonder if He is really kind really deeply always kind Is He Christians love to talk about how God is in control but that s harder to grasp when things aren t going like you thought they would when your life looks quite different than you imagined For centuries God s people have been building altars to Him to remind themselves and the people around them of His work His goodness His kindness Stacks of stones Altars Temples Cathedrals Why Because they believed God and wanted to remember Him In the back of my mind God reminds me that He is the same trustworthy God the One who always finishes the stories he starts And this is my story of wrestling with our God who gives a limp and a blessing A God who is always kind even when my circumstances feel the opposite God is who He says He is He is kinder than you imagine In a world where it is easy to forget who He is we will not We will remember God
