Reading for Storyness Susan Lohafer, 2020-03-03 The short story has been a staple of American literature since the nineteenth century taught in virtually every high school and consistently popular among adult readers But what makes a short story unique In *Reading for Storyness* Susan Lohafer former president of the Society for the Study of the Short Story argues that there is much more than length separating short stories from novels and other works of fiction With its close readings of stories by Kate Chopin Julio Cort zar Katherine Mansfield and others this book challenges assumptions about the short story and effectively redefines the genre in a fresh and original way In her analysis Lohafer combines traditional literary theory with a more unconventional mode of research monitoring the reactions of readers as they progress through a story to establish a new poetics of the genre Singling out the phenomenon of imminent closure as the genre s defining trait she then proceeds to identify preclosure points or places where a given story could end in order to access hidden layers of the reading experience She expertly harnesses this theory of preclosure to explore interactions between pedagogy and theory formalism and cultural studies fiction and nonfiction Returning to the roots of storyness Lohafer illuminates the intricacies of classic short stories and experimental forms of surreal postmodern and minimalist fiction She also discusses the impact of social constructions such as gender on the identification of preclosure points by individual readers *Reading for Storyness* combines cognitive science with literary theory to present a compelling argument for the uniqueness of the short story

The Guardians on Trial William H. F. Altman, 2016-07-19 Based on a conception of Reading Order introduced and developed in his *Plato the Teacher* *The Crisis of the Republic* Lexington 2012 and *The Guardians in Action* *Plato the Teacher and the Post Republic Dialogues* from Timaeus to Theaetetus Lexington 2016 William H F Altman now completes his study of Plato s so called late dialogues by showing that they include those that depict the trial and death of Socrates According to Altman it is not Order of Composition but Reading Order that makes Euthyphro Apology of Socrates Crito and Phaedo late dialogues and he shows why Plato s decision to interpolate the notoriously late Sophist and Statesman between Euthyphro and Apology deserves more respect from interpreters Altman explains this interpolation and another that places Laws between Crito and Phaedo as part of an ongoing test Plato has created for his readers that puts the Guardians on Trial If we

don't recognize that Socrates himself is the missing Philosopher that the Eleatic Stranger never actually describes and also the antithesis of the Athenian Stranger who leaves Athens in order to create laws for Crete we pronounce ourselves too sophisticated to be Plato's Guardians and unworthy of the Socratic inheritance

Resources in Education ,1994 **The Lily's Tongue** Frances Maughan-Brown,2019-10-01 Examines four discourses by Kierkegaard arguing that they play a critical and surprising role in his oeuvre and contribute to the philosophy of figural language How do texts speak with authority That is the question at the heart of Kierkegaard s theory and practice of indirect communication None of Kierkegaard s texts respond to this question more concisely and powerfully than the four discourses he wrote about the lily in the Gospel The Lily s Tongue is a nuanced sustained reading of these Lily Discourses Kierkegaard takes the lilies as authoritative rather than merely figural or metaphorical This book is a careful exploration of what Kierkegaard means by this authority Frances Maughan Brown demonstrates how Kierkegaard argues that the key is in the act of reading itself no text can have authority unless the reader grants it that authority because no text can entirely avoid figural language Texts don t speak directly their tongue is always the lily s tongue What is revealed in the Lily Discourses is a groundbreaking theory of figure which requires a renewed reading of Kierkegaard s major pseudonymous works Closely analyzing one of the least known yet most exacting series of texts in Kierkegaard s authorship his discourses on the lily in the field and the bird of the air Maughan Brown breaks apart disciplinary barriers between theology philosophy aesthetics and critical theory while at the same time showing how Kierkegaard s discourses can quietly illuminate a constellation of ideas drawn from Plato Kant Hegel Benjamin and Derrida Following Kierkegaard s texts to the letter Maughan Brown attends to what his texts do as much as to what they say Peter Fenves author of The Messianic Reduction Walter Benjamin and the Shape of Time
