

My Own Philosophy in Life

My philosophy of Life is we have to accept what we are, and what we have in our lives, live the life that we have today, and the people who inspire and support us every day. Because acceptance leads to acknowledging the facts of every circumstance and the awareness to solve the issues and all the challenges we face. What we have in our lives is the reason for us to stand and fight for who we are in the future, we must implement the desire in our lives to have a peaceful and joyful life as long as we cannot create harm to other people. We can't ignore the people who became our inspiration in life, this is also one of the reasons why we keep fighting every day because it motivates us to do something that makes us happy. Especially the one who supports us from we were born until now.

I come up with this idea with knowledge and life experience because I envy other peoples lives who have happy, luxurious, different living or traditional lives. Early Unmeet moments from childhood experiences and to the present. Sometimes I also question myself "Why do I have this kind of life?" "Why can't have what other people have?" , but still I am grateful to have this kind of life with my family.

The Origin of the Soul Joshua Farris, Joanna Leidenhag, 2024-02-01 The Origin of the Soul is a contemporary retrieval of an important theological discussion throughout history The origin of the soul is thought by many to be an outdated discussion that is theologically antiquated And yet in recent years there has been a renewed and growing interest not only in the soul immaterial substances and theistic explanations for the origins of consciousness but a more vibrant interest in the origins of the soul and the implications it has for numerous theological topics This is due in part to the growing recognition in theistic circles that we are not material beings at least not solely but rather we are ensouled beings and it is this part aspect or feature of us that needs some explaining beyond biological evolution The conversation that takes place in this volume will be of interest to scholars and students of both theology and philosophy

Culture and Enlightenment Paul Crittenden, 2017-11-22 This title was first published in 2002. Culture and Enlightenment are the two words that best characterise the essence of Gyrgy Markus's career in whose honour this book is published. Markus devoted the last twenty years of research towards a theory of cultural objectifications and their pragmatics and the great depth of his knowledge of the history of culture and philosophy informs all his teaching and writing. The pursuit of Enlightenment ideals attains reflective self consciousness in Markus works forged in the knowledge of its own historicity of the embeddedness of rationalities in culture and in an awareness of the paradoxes that cling to the conscious affirmation of ideals which are no longer self evident or beyond questioning. In taking up the challenge of these paradoxes Markus spans the whole history of modern philosophy and culture with a matchless authority. This book draws together contributions from leading figures in contemporary philosophy who are also friends colleagues and former students of Gyrgy Markus. The book is divided into two sections the first presents critical assessments of various aspects of Markus wide ranging works the second presents contributions in celebration of his influence and his wide interests. In their critical assessment of Markus work and in the demonstration of his influence the contributors hope to convey something of the breadth and something of the excitement of doing philosophy in the company of Gyrgy Markus.
