My Son Is An Alien A Cultural Portrait Of Todays Youth:

My Son is an Alien Marcel Danesi, 2003 *My Son Is an Alien* is an entertaining informative look at cultural influences on today's youth. Based on interviews with hundreds of teens, pre-teens and parents, the book sketches out facets of the adolescent's cultural portrait from body image and slang to peer pressure and drugs. Filled with facts, commentaries, anecdotes and resources, it also includes numerous features on topics like teen expressions and the least family friendly TV shows. Danesi proposes strategies for changing the prevailing mindset on youth, including reconnecting adolescents to adult society.

Becoming Citizens Ross VeLure Roholt, Michael Baizerman, R. W. Hildreth, 2014-01-02 The decreasing rate of involvement in organized groups and with voting by young people is a disturbing trend that perhaps can be turned around. *Becoming Citizens* Deepening the Craft of Youth Civic Engagement brings together civic education, experiential education and political theory to provide a revealing multiple perspective examination of the new alternative way of practice in the youth work field called civic youth work. This helpful resource bridges the theory of civic engagement with education ground both in extensive data and then discuss various youth civic engagement initiatives that battle apathy and effectively invite expanded involvement by young people. This title examines three different youth civic engagement initiatives: Public Achievement, PA Youth in Government, YIG and Youth Science Center, YSC. The book then discusses the initiatives from various perspectives, including the academic perspectives of educational theory, political theory, theories of youth and vocation. This unique source offers multiple points of view and is designed to enrich both the theoretical and practical for practitioners and scholars and provides a revealing and useful look at the available sources. This book is a valuable resource for secondary social studies teachers, school district curriculum coordinators, youth workers, university faculty in political theory, democratic theory, youth studies, child and youth care, recreational studies, public health education and social work, youth and community organizers and program directors and managers in community based youth services. This book was published as a special issue of *Child and Youth Services*.

Multilingual Youth Practices in Computer Mediated Communication Cecelia Cutler, Unn Røynealand, 2018-09-20 With an eye to the playful, reflexive, self-conscious ways in which global youth engage with each other online, this volume analyzes user-generated data from these interactions to show how communication technologies and multilingual resources are deployed to project local as well as trans-local orientations. With examples from a range of multilingual settings, each author explores how youth exploit the creative heteroglossic potential of their linguistic repertoires from rudimentary attempts to engage with others in a second language to hybrid multilingual practices. Often their linguistic orthographic and stylistic choices challenge linguistic purity and prescriptive correctness, yet in other cases their utterances constitute language policing, linking standardness or correctness to piety, trans-local affiliation or national belonging. Written for advanced undergraduates, postgraduates and researchers in linguistics, applied linguistics, education and media and communication studies, this volume is a timely and ready-made resource for researching online multilingualism.

nationwide telephone survey of teens and significant caregivers as well as nearly 300 in depth face to face interviews with a sample of the population that was surveyed The results show that religion and spirituality are indeed very significant in the lives of many American teenagers Among many other discoveries they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought They refute the conventional wisdom that teens are spiritual but not religious And they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes This eagerly awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but because teenagers serve as bellwethers for possible future trends it affords an important and distinctive window through which to observe and assess the current state and future direction of American religion as a whole

signification grounded largely in image aesthetics and extrarational modes of thinking He discusses three important aspects of this system its social and commercial structuring its political consequences and its role as the chief rhetorical system of the modern world He argues that aesthetics and style are merging into a major engine of the global economy and that style is becoming a way to construct individual identity as well as social and political structures of alliance and opposition It is through style that we stereotype or make assumptions about others political identities their sexuality their culture and their economic standing To facilitate theoretical and critical analysis Brummett develops a systematic rhetoric of style and then demonstrates its use through an in depth exploration of gun culture in the United States Armed with an understanding of how this rhetoric of style works methodologically students and scholars alike will have the tools to do their own analyses Written in clear and engaging prose *A Rhetoric of Style* presents a novel discussion of the workings of style and sheds new light on a venerable and sometimes misunderstood rhetorical concept by illustrating how style is the key to constructing a rhetoric for the twenty first century
