This Is My Story* Michaline Gregorowicz, 2021-11-10 After my son Joey passed away in June of 2000 I struggled to find any books that gave me concrete ideas of how I could help myself through my grieving process Many family members and friends gifted me books but they all told the same story Have faith cherish the wonderful memories and so on Of course all good advice just superficial Then a few years after my son died I happened to be at my hairdresser's when a woman came in I knew her through our son's sports I also knew that her oldest son had also passed away after Joey It was getting close to Christmas so I asked her if they were planning on putting up a tree Her answer floored me She had two other teenaged children at home She shared with me that after her older son died her surviving children wanted nothing to do with Christmas no tree no lights nothing So as my heart broke for her I began telling her how I and my family celebrated our first Christmas after Joey died and how that became a new tradition that continues through today After listening to my story this mom told me that I had helped her more in the last fifteen minutes than anyone else had up to this point That was my light bulb moment And the spark to write my book was ignited In the first few chapters of my book I do recount the day my son died his viewing and his funeral I also discuss the many other issues that have to be dealt with during the months afterward Although sad I felt that this was an important part of my grieving process But in the chapters that follow I describe all the positive actions we took that helped us to go on I discuss new found hobbies seeking professional help medium readings and even the many beautiful signs I feel my

son sends us to let us know he is alright So in addition to a journey filled with very specific steps I and my family took to survive it is also a story of my spiritual journey So if you or anyone you know has lost a child or loved one I am confident that some idea or story in my book will help them Little Steps James Ream Adams,2020-04-27 All too often survivors of a loved one's suicide are left behind struggling with a loss that fosters stigma shame blame guilt and abandonment For the survivor these struggles last long after the funeral is over and friends and relatives have returned to their daily lives Healing the loss after the suicide of a loved one is about restarting your life with nothing firm to stand on Little Steps is the guided process James Adams recorded in his journal documenting before during and after his son committed suicide It starts with conversations where voices of wisdom are guiding him along a spiritual path of discovery then as he was confronted with the trauma of his loss those conversations shifted focus towards coping with and understanding the grief process as it unfolded Feeling left behind and somehow responsible James continued to write his guided conversations as he dealt with the questions of Why did he do this I should have I could have if only I had known or done what did I do wrong These real time journaled conversations capture in a loving spiritual and supportive way all the drama trauma and recovery as they occurred making Little Steps a powerful documentary of healing from a traumatic loss Letters to My Son Mitch Carmody,2011-03 The second edition of Letters to My Son is even more powerful than the first edition with many more pages of valuable insights into the griever's journey This edition also contains many more of the author's evocative pencil illustrations This moving exploration of the process of grieving is authored by a father whose nine year old son died following a two year battle with a recurring malignant brain tumor During the months that followed his son's death the author wrote letters and poems to his son as a catharsis for his grief In that process he discovered that there is life after death on both sides of the equation and that miracles do happen A compelling story of love loss and recovery that will grab your heart nourish your soul and open your eyes Letters to My Son is a must read for anyone who has experienced a great loss and is trying to find some path out of the darkness of their despair **My Son and the Afterlife** Elisa Medhus,2013-10 Love knows no boundaries not even death An emotional journey through a mother's grief to healing and a doctor's skepticism to belief discover the answers that changed one woman's life forever and may just change yours too Are you not sure of what awaits you after death Dr Elisa Medhus wasn't either having never believed in life after death As an accomplished physician she placed her faith in science All of those beliefs changed after her son Erik took his own life and then reached out to her from the other side Intimate heartbreaking and illuminating this is an incredible journey from grief and skepticism to healing and belief in the afterlife Based on Medhus's wildly popular blog Channeling Erik My Son and the Afterlife is a story that is as painful as it is uplifting depicting a mother's healing journey as she discovers that Erik is still with her Erik speaks from the other side with candor wisdom and depth as he describes his own experiences and provides new answers about the nature of souls death and the afterlife answers that have the potential to change our lives forever Content warning Please note that there is some explicit

their journey from all that I've learned looking back on my own. While all bereaved parents have thousands of questions related to the death of their child, suicide presents its own unique questions and challenges. Not knowing the reasons for their child's death can create lasting suffering for grieving parents and complicate their grief. Time is bittersweet. The more it passes, the more it can challenge bereaved parents to accept the finality of their child's death. It can also trap us in only surviving the trauma and pain we experience after our loss, rather than being able to embrace truly living. But time also gives us the increasing courage and ability to reflect on our loss and pain, which is necessary to heal. I remain optimistic that we can heal from what is perhaps the toughest loss for anyone to bear. This book comforts and encourages every bereaved parent to contemplate the difficulties that will challenge them in their grief. It also serves as a compass to guide them to the destination they want and that does await them when they believe and trust that they can and will find their way.

Bridge Over The River Why David Cooper, Deborah Cooper, 2018-04-09. In *Bridge Over the River Why*, the Coopers have succeeded in a dual task: documenting their own journey through the grief of losing their son Eli by suicide, while at the same time providing a valuable resource for anyone who has had to face the same terrible tragedy. They start with the premise that doing and feeling are the key components of moving forward and have a core message to deliver as bereaved parents: we want you to know this is survivable. This short book blends the personal inquiry of David and Deborah, populated with meaningful quotations and practical advice. They challenge readers to harness their own resilience and list a series of brief tips ranging from how to talk to friends to the more: the more we talk about the loss, the more real it becomes; talk about your child often; keeping Eli's name in day-to-day conversation helped them move forward. There are different ways to carry on the legacy of a loved one: some keep a photo album, while others focus on sponsoring a memorial lecture or a scholarship. In their search for meaning, the Coopers are committed to addressing a significant gap in the mental health services for people like Eli by establishing Eli's Place, a rural residential treatment and transition centre dedicated to holistic therapeutic techniques for young adults. As a psychiatrist working in the fields of depression and suicide, I am inspired by this initiative and believe this is an important step in building strong partnerships between persons who have lived through serious mental health challenges and those who provide professional care. Sidney H. Kennedy MD, Professor of Psychiatry, University of Toronto, Arthur Sommer-Rotenberg Chair in Suicide and Depression Studies, St. Michael's Hospital. This book is an excellent guide for parents and others grappling with a suicide loss. The Coopers are an authentic, compassionate pair of voices that speak from their lived experience. Cross the bridge and take the journey with them. A journey of tears and ultimately hopefulness. Alex Shendelman, Program Manager, The Survivor Support Program, Distress Centres Toronto, and a survivor of suicide loss.
