Worstell,Claude C. Hopkins,John E. Kennedy,Albert D. Lasker,2014-07-31 All effective modern marketing can be traced to three authors in one time period If you study the best of the best marketers out there and then study who they studied you can eventually find the real basics which make all marketing work Really work That is how these books were uncovered While each separately tells pieces of the puzzle together they tell the evolution of advertising as it exists today All the advances made by others since can be directly traced to the breakthroughs made during this time These five books each tell their own piece to the puzzle Albert Lasker gave the narrative telling where he first met John E Kennedy and Claude Hopkins When you read those copywriters works in turn the lights come on You ll see where all the new modern breakthroughs have come from and why they get results All the secrets hidden in plain sight Just in need of a bit of dusting off Get Your Copy Today **My Life in Advertising** Claude C Hopkins,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1917 edition Excerpt Chapter Seventeen SCIENTIFIC ADVERTISING THROUGH a book I wrote my name has become connected with Scientific Advertising That is advertising based on fixed principles and done according to fundamental laws I learned those principles through thirty six years of traced advertising Through conducting campaigns on some hundreds of different lines Through comparing on some lines by keyed returns thousands of pieces of copy Always since I sent out my first thousand letters to the time when 5 000 000 yearly was being spent on my copy I have had to face records on cost and result So I have naturally proved out many fundamentals which should always be applied I have little respect for most theories of advertising because they have not been proved They are

based on limited experiences on exceptional conditions Some lines seem to succeed on methods of advertising which every traced return proves impossible The reasons for success have little to do with the advertising The line may have succeeded in spite of the advertising Many unadvertised lines become highly successful because of some wanted quality which people soon discover Or because dealers are in some way induced to feature it Or because of a name which in itself tells an appealing story Cream of Wheat is an example The name alone tells the story So with Spearmint Gum All successful gums have succeeded through fortunate names There is almost no story to tell There are no great distinctions The very men who succeeded with one name failed again and again with others Any conclusions drawn from such experiences are bound to lead others astray The cases where they apply are rare Safe principles are evolved only by those who know with reasonable exactness what
