My Life In The Nineties:

My Life and My Life in the Nineties Lyn Hejinian, 2013-06-27 Lyn Hejinian is among the most prominent of contemporary American poets Her poem *My Life* has garnered accolades and fans inside and outside academia First published in 1980 and revised in 1987 and 2002 *My Life* is now firmly established in the postmodern canon This Wesleyan edition includes the 45 part prose poem sequence along with a closely related ten part work titled *My Life in the Nineties* An experimental intervention into the autobiographical genre *My Life* explores the many ways in which language the things people say and the ways they say them shapes not only their identity but also the very world around them *A Long Essay on the Long Poem* Rachel Blau DuPlessis, 2023-03-21 For decades Rachel Blau DuPlessis has shown readers how genres forms and the literal acts of writing and reception can be understood as sites of struggle In her own words writing is a praxis in which the author disappears into a process into a community into discontinuities and into a desire for discovery It is cause for celebration then that we have another work of warm incisive expository writing from DuPlessis in *A Long Essay on the Long Poem* **My Life in the Nineties** Lyn Hejinian, Emilie Clark, 2003 Poetry The continuation of the project begun in Hejinian's best selling *MY LIFE* also available from SPD *MY LIFE IN THE NINETIES* provides important glimpses into related works such as *HAPPILY THE BEGINNER* and *SLOWLY* Part prose poetry part autobiography and part radical modernist experiment *MY LIFE IN THE NINETIES* is a masterpiece of recent writing on identity language and politics *Stitch, Unstitch* Kristin Grogan, 2025-08-26 The labor of literature is often thought of as a specialized craft distinct from everyday work In *Stitch Unstitch* Kristin Grogan traces an alternative vision of writing and the writer arguing that modernist poetry was deeply shaped by ordinary labor and the people who performed it This relationship provoked powerful political and aesthetic experiments and allowed modernist poets to imagine ways of life beyond the demand to earn a living Poetic form Grogan shows offers ways to reflect on the meaning and worth of labor particularly types of gendered labor that are typically unseen and undervalued Her fine grained readings locate modernist poetry within sites of social reproduction factory work craft labor and other forms of manual labor placing literary texts alongside objects such as constructivist posters and set design household notes and homemade books Grogan considers Ezra Pound's ideology of craft and artisanal labor Lola Ridge's immersion in the New York garment industry Langston Hughes's encounter with Soviet workers theater Gertrude Stein's gendered and queer domestic labors and Lorine Niedecker's employment as a hospital cleaner Blending Marxist and feminist theory with attentive close readings *Stitch Unstitch* is a revelatory materialist account of the values of poetry **American Poetry since 1945** Eleanor Spencer-Regan, 2017-09-16 This book features a collection of essays on some of the key poets of post war America written by leading scholars in the field All the essays have been newly commissioned to take account of the diverse movements in American poetry since 1945 and also to reflect retrospectively on some of the major talents that have shaped its development In the aftermath of the Second World War American poets took stock of their own tumultuous past

but faced the future with radically new artistic ideals and commitments More than ever before American poetry spoke with its own distinctive accents and declared its own dreams and desires This is the era of confessionalism beat poetry protest poetry and avant garde postmodernism This book explores the work of John Berryman Robert Lowell Elizabeth Bishop Adrienne Rich and Sylvia Plath as well as contemporary African American poets and new poetic voices emerging in the 21st century This New Casebook introduces the major American poets of the post war generation evaluates their achievements in the light of changing critical opinion and offers lively incisive readings of some of the most challenging and enthralling poetry of the modern era

Nineties to Now Matthew McKeever, 2021-10-06 What is it actually like to live today It s an era where world politics play out on Twitter and where the gig economy has made the nine to five job an object of aspiration rather than dread Rates of mental illness are soaring inequality predominates everything and much of life is contained in our phones The core idea of this book is that we can only understand what life is like now by comparing it to previous times to see what has changed what is genuinely new and what is a continuation of existing trends Providing original analyses of a range of seminal works of 90s pop culture this book extracts a core set of concepts such as irony branding and media that defined the 90s It demonstrates how these concepts are expressed in both those works and in the art of today Presenting close history in a new light this book helps us understand today by framing it in terms of yesterday

Prose Poetry Paul Hetherington, Cassandra Atherton, 2020-10-13 An engaging and authoritative introduction to an increasingly important and popular literary genre Prose Poetry is the first book of its kind an engaging and authoritative introduction to the history development and features of English language prose poetry an increasingly important and popular literary form that is still too little understood and appreciated Poets and scholars Paul Hetherington and Cassandra Atherton introduce prose poetry s key characteristics chart its evolution from the nineteenth century to the present and discuss many historical and contemporary prose poems that both demonstrate their great diversity around the Anglophone world and show why they represent some of today s most inventive writing A prose poem looks like prose but reads like poetry it lacks the line breaks of other poetic forms but employs poetic techniques such as internal rhyme repetition and compression Prose Poetry explains how this form opens new spaces for writers to create riveting works that reshape the resources of prose while redefining the poetic Discussing prose poetry s precursors including William Wordsworth and Walt Whitman and prose poets such as Charles Simic Russell Edson Lydia Davis and Claudia Rankine the book pays equal attention to male and female prose poets documenting women s essential but frequently unacknowledged contributions to the genre Revealing how prose poetry tests boundaries and challenges conventions to open up new imaginative vistas this is an essential book for all readers students teachers and writers of prose poetry

Gelpi,2015-03-09 Albert Gelpi s *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich Gelpi argues that a distinctly American poetic tradition was solidified in the later half the twentieth century thus severing it from British conventions *Why the Nineties Matter* Terry H. Anderson,2024

Why the Nineties Matter offers an incisive yet broad ranging history of America in that decade Terry Anderson focuses on key trends that either began or gained steam then and which have had lasting effects until this day the spread of right wing extremism transformations in class voting preferences and party realignment the expansion of neoliberal economic policy the emergence of social media and US foreign policy choices in the Middle East **Experimentalism as Reciprocal**

Communication in Contemporary American Poetry Elina Siltanen,2016-10-06 The poems of John Ashbery Lyn Hejinian and Ron Silliman may seem to offer endless small details of expression observation thought and narrative which fail to hang together even from one line to the next But as Elina Siltanen shows here this extraordinary flow of uncoordinated detail can stimulate readers to join the poets in a delightful exploration of ordinary language When readers take a poem in this spirit they actually begin to read as members of a community the community not only of themselves and other readers but also including the poet and other poets plus all the speakers of the language in which the poem is written For all these different parties that language is indeed a shared resource and the way for readers to get started is simply by recalling or imagining some of the numerous kinds of context in which the given poem s words phrases sentences could or could not be successfully used The rewards for such proactive readers are on the one hand a heightened sense of the subtle interweavings of language and life and on the other hand a freshly empowered self confidence The point being that within the community of contemporary experimental poetry poets have no more authority than readers Rejecting older cultural hierarchies they present themselves as teasing out the idiomatic serendipities of their own poems together with their readers *Slips of the Mind* Jennifer Soong,2025-04-07

An audacious account of what happens when forgetting becomes a way of writing and writing becomes a way of forgetting In *Slips of the Mind* poet and critic Jennifer Soong turns away from forgetting s long standing associations with suppression privation and error to argue that the absence or failure of memory has often functioned as a generative creative principle Exploring forgetting not as the mere rejection of a literary past or a form of negative poetics Soong puts to the test its very aesthetic meaning What new structures forms of desires styles and long and short feelings do lapses in time allow What is oblivion s relationship to composition And how does the twentieth century poet come to figure as the quintessential embodiment of such questions Soong uncovers forgetting s influence on Gertrude Stein

Lyn Hejinian Tan Lin Harryette Mullen Lissa Wolsak and New York School poets John Ashbery James Schuyler Bernadette Mayer and Ted Berrigan among others She reveals that forgetting's shapeshifting produces differences in poetic genre interest and degrees of intentionality and that such malleability is part of forgetting's nature Most provocatively Soong shows how losing track of things leaving them behind or finding them already gone resists overdetermination and causality in the name of surprise as poets leverage forgetting in order to replace identity with style Slips of the Mind is the kind of literary criticism that will reward all readers of modern and contemporary poetry Bubble Blog Richard MacManus,2024-12-15 A captivating memoir and behind the scenes look at the rise of Web 2.0 and the internet revolution of the early 2000s Dive into the transformative decade that reshaped the internet and our lives with Bubble Blog a hybrid memoir and internet history by pioneering blogger Richard MacManus Journey through the early 2000s a pivotal time that saw the meteoric rise of social media smartphones and cloud computing MacManus chronicles how he founded and grew ReadWriteWeb into one of the world's top ten blogs syndicated by The New York Times His account offers an insider's view of the Web 2.0 era and the shift from analog to digital

Stimulus, Intention and Process in Creative Writing Graeme Harper,2024-02-01 Stimulus Intention and Process in Creative Writing explores three exciting and key areas of creative writing practice and understanding What stimulates a writer to write or to write a particular piece What do they intend to achieve when they do it And is there a process we can study and perhaps even understand The authors in this book who are both practitioners and researchers explore these three areas in unique and thought provoking ways They bring to the discussion both expertise in relation to what we already know and a sense of forward thinking in discussing how we can find out more This is a book for creative writing researchers and students who are seeking new knowledge about how creative writing is done what informs and encourages those doing it and what results from that knowledge and encouragement It is also potentially a book for creative writing practitioners who wonder how the things that interest them have them writing certain things and the ways they go about approaching undertaking and completing these projects The chapters in this book were originally published in New Writing The International Journal for the Practice and Theory of Creative Writing

Poetics of Cognition Jessica Lewis Luck,2023-08-14 Poetics of Cognition investigates the material effects of

experimental poetics using new evidence emerging from cognitive science It asks How do experimental poems think and how do we think through them Examining experimental modes such as the New Sentence proceduralism projective verse sound poetry and visual poetry Jessica Lewis Luck argues that experimental poems materialize not so much the content as the activity of the embodied mind and they can thus function as a powerful scaffolding for extended cognition both for the writer and the reader While current critical approaches tend to describe the effects of experimentalism solely in terms of emotion and sensation Luck shifts from the feeling to the thinking that these poems can generate expanding the potential blast radius of experimental poetic effects into areas of linguistic sonic and visual processing and revealing a transformational potency that strictly affective approaches miss The cognitive research Luck draws upon suggests that the strangeness of experimental poetry can reshape the activity of the reader's mind creating new forms of attention perception and cognition This book closes by shifting from theory to praxis extracting forms of teaching from the forms of thinking that experimental poems instill in order to better enable their transformative effects in readers and to bring poetry pedagogy into the twenty first century
