Clarion book review of The Life of Stuart O Van Slyke In this autobiography compiled from old diaries and letters Stuart O Van Slyke recounts his adventures as a young man born to hardship in the early 20th century He recalls how he overcame his background through his own grit imagination and the support of his family and friends From a 21st century point of view Stuart s unsupervised childhood seems carefree Virtually on his own from the beginning Stuart worked his way through college where he was introduced to the Army through ROTC and was the first of his family to graduate He was called to active duty on June 30 1941 as a second lieutenant but his true military career started on Pearl Harbor day This turned out to be a pivotal event in the shaping of his life One of the highlights of the book is his service in the North African Campaign and his passionate yet sensitive command of the 78th Fighter Control Squadron and later on the staff of the Allied Air Command of Corsica The war s ending found him in Korea in military government in 1945 where he assisted in the start of South Korea s return to the community of countries who were no longer enslaved or ruled by despots He had a real bird s eye view of the development of the 38th Parallel dilemma that plagues us even today At the age of 29 in 1946 he was a lieutenant colonel in the Army Reserves and a civilian again who wondered what he was now going to do      Report ,1879      Report

Integrating a variety of historical approaches and methods Joanna Bourke looks at the construction of class within the intimate contexts of the body the home the marketplace the locality and the nation to assess how the subjective identity of the working class in Britain has been maintained through seventy years of radical social cultural and economic change She argues that class identity is essentially a social and cultural rather than an institutional or political phenomenon and therefore cannot be understood without constant reference to gender and ethnicity Each self-contained chapter consists of an essay of historical analysis introducing students to the ways historians use evidence to understand change as well as useful chronologies statistics and tables suggested topics for discussion and selective further reading
