Ejaj Saifi,2020-10-20 In manipulation the behavior and perception of people can be changed by using deceptive or indirect tactics The art of manipulation is incredible The world just wants to make you a fool and people only seek benefits from you People don t care about you they don t have time to think about you or your problems they talk to you just for their own needs and favors and after the completion of the needs they will disappear in thin air But the thing to think is how do people do it How do they get what they want is it so easy to manipulate someone I think yes It is very easy to manipulate someone Think of it like this when a child cries how does the mother silence him By giving something What does a child do when he asks for money from his father He makes his voice and behavior sweet What does the police do to make a criminal confess The police collect data Data is the most important And I will not only tell you the theory but also real time practice It all depends on behavior and behavior is the basis of manipulation □□□□2 dong benxigu,2024-12-08 This horrible imagination
