professional qualification These men and women end up working either legally or illegally Most work on construction sites or physical hard labour jobs Thus they are the labour or manpower brain drain The other sector is those who come to further their academic education but eventually stay to work abroad Another subsector of them comes already trained in different fields such as doctors teachers engineers and nurses Their reasons to stay are mostly political or economic For some to go home may signify persecution by corrupt dictatorship governments or regimes Thus I call them the elite brain drain from developing countries to Europe or the west developed and mature democracies Diaspora denotes what these people experience and undergo betwixt an exodus of mass migration By the author Amadou BH Sey **The Science of Life, Or, Self-preservation** Albert H.
