Modernist Form and the Myth of Jewification Neil Levi, 2013-11-01 Why were modernist works of art literature and music that were neither by nor about Jews nevertheless interpreted as Jewish In this book Neil Levi explores how the antisemitic fantasy of a mobile dangerous contagious Jewish spirit unfolds in the antimodernist polemics of Richard Wagner Max Nordau Wyndham Lewis and Louis Ferdinand Celine reaching its apotheosis in the notorious 1937 Nazi exhibition Degenerate Art Levi then turns to James Joyce Theodor W Adorno and Samuel Beckett offering radical new interpretations of these modernist authors to show how each presents his own poetics as a self conscious departure from the modern antisemitic imaginary Levi claims that just as antisemites once feared their own contamination by a mobile polluting Jewish spirit so too much of postwar thought remains governed by the fear that it might be contaminated by the spirit of antisemitism Thus he argues for the need to confront and work through our own fantasies and projections not only about the figure of the Jew but also about that of the antisemite

Terrorist Recruitment, Propaganda and Branding Anna Kruglova,2022-08-05 This book analyses the marketing techniques that terrorist organisations employ to encourage people to adopt their ideology and become devoted supporters The book s central thesis is that due to the development of digital technologies and social media terrorist groups are employing innovative marketing techniques and advertising strategies to foster an emotional connection with their audiences particularly those in younger demographics By conducting thematic and narrative analyses of Islamic State of Iraq and Syria ISIS propagandist magazines as well as looking at the group s online

communities the book demonstrates that terrorist groups behave as commercial brands by establishing an emotional connection with their potential recruits Specifically groups and their potential supporters follow the logic of emotional choice The book emphasizes that while ISIS became the first group that discovered and benefited from the power of marketing it did not have a supernatural power and thus it is possible to find a response to it which is particularly important now The book eventually poses a question about whether terrorism has become the product of marketing in the same way as any mainstream consumer product is and asks what can we do to battle the appeal of marketing savvy terrorist groups This book will be of interest to students of terrorism studies radicalisation and propaganda communication and security studies

Heroes and Legends of Fin-de-Siècle France Venita Datta,2011-04-11 In Heroes and Legends of Fin de Si cle France Venita Datta examines representations of fictional and real heroes in the boulevard theater and mass press during the fin de si cle 1880 1914 illuminating the role of gender in the construction of national identity during this formative period of French history The popularity of the heroic cult at this time was in part the result of defeat in the Franco Prussian War in 1870 as well as a reaction to changing gender roles and collective guilt about the egoism and selfishness of modern consumer culture The author analyzes representations of historical figures in the theater focusing on Cyrano de Bergerac Napoleon and Joan of Arc and examines the press coverage of heroes and anti heroes in the Bazar de la Charit fire of 1897 and the Ullmo spy case of 1907

The American Digest Annotated, Key-number Series ,1913 **Nineteenth-century Studies** ,2001 **The Oxford Handbook of Identity Development** Kate C. McLean,Moin U. Identity, Competition and Electoral Availability Stefano Bartolini,Peter Mair,2007-09-01 The question of whether Western party systems were becoming more unstable and electorates more volatile had already become central to the study of modern European by the end of the 1970s Much of the literature at the time stressed how Western Europe was experiencing a phase of party breakdown dealignment and decay

and how traditional mass politics was in the process of transformation In this first book length analysis of the subject Stefano Bartolini and Peter Mair convincingly demonstrated how this emphasis on change had been largely misconceived and misplaced This was the first systematic and conceptually sophisticated work to bring together the study of electoral change and cleavage persistence and has since become one of the landmark volumes in the study of electoral politics in Europe The authors examine patterns of electoral persistence and change in Western Europe between 1885 and 1985 They assess both what these patterns indicate with regard to the persistence of traditional cleavages particularly the class cleavage and how these patterns vary according to political institutional and social factors They analyse the various patterns of competition which have characterised elections across the different European countries and in different historical periods and how cleavages can persist and re emerge even in the face of widespread social change They develop a sophisticated model of aggregate electoral change in which national electorates are conceived as being torn between the stability brought about by cultural identities and organisational structures and the stimuli for change that are provoked by party competition and institutional change Identity Competition and Electoral Availability was awarded the Stein Rokkan Prize for Comparative Social Science Research and is now reprinted for the first time in paperback
