Personal Outcome Measures:

Personal Outcome Measures ,1997 *Improving the quality of outcome measurement for adults with disabilities receiving community-based services* Renata Ticha,Brian Abery,Jan Šiška,2023-04-26 Enhancing the Quality of Life of People with Intellectual Disabilities Ralph Kober,2010-09-24 This book contains a series of articles written by international experts in the fields of intellectual disability and quality of life that explore a broad range of issues that impact on the quality of life of people with intellectual disabilities and their families The book commences with a general discussion on defining quality of life and family quality of life and the appropriateness of using these constructs in the field of intellectual disability and is followed by an analysis on the effects of living arrangements and employment on quality of life The book concludes with discussions on the unique issues facing children with intellectual disabilities and people living in developing countries and the effect these issues have upon their quality of life *International Review of Research in Mental Retardation* ,2001-03-19 *International Review of Research in Mental Retardation* is an ongoing scholarly look at research into the causes effects classification systems syndromes etc of mental retardation Contributors come from wide ranging perspectives including genetics psychology education and other health and behavioral sciences Out of the Darkness and Into the Light Robert L. Schalock,David L. Braddock,2002 The Nebraska model for dealing with the condition of mental retardation has been emulated worldwide This book contains an inspiring collection of articles on how the change occurred and is written by those who made the change happen Personal Outcome Measures in Consumer-Directed Behavioral Health ,2000-01-01

Embarking on a New Century Robert L. Schalock,Pamela C. Baker,M. Doreen Croser,2002 Captures the challenging and controversial era between 1975 2000 that led the field of intellectual disability into an age of community acceptance and inclusion This title includes chapters that focus themes such as public policy and health care *The Social Validity Manual* Stacy L. Carter,2009-10-01 Applied Behavior Analysis is the science of applying experimentally derived principles of behavior to improve socially significant behavior The research and application of ABA contributes to a wide range of practical areas including AIDS prevention education gerontology language acquisition and parenting and ABA based interventions have gained particular popularity in the last 20 years related to teaching students with autism spectrum disorders Social Validity a concept used in such behavioral intervention research focuses on whether the goals of treatment the intervention techniques used and the outcomes achieved are acceptable relevant and useful to the individual in treatment Judgments are made often via clinical trials about the effects of the intervention based on statistical significance and magnitude of effect Essentially social validity alerts us as to whether or not the ABA based intervention has had a palpable impact and actually helped people in ways that are evident in everyday life This clinical research volume offers a detailed evaluation of the extant findings on Social Validity as well as discussion of newly emerging factors which reemphasize the need for well developed methods of examining SV Basic conceptualizations measurement research findings applications ethics and future implications are

discussed in full and novel recommendations relating back to clinical treatment are provided The volume will give readers a firm understanding of the general concept of SV help them become familiar with the research methods and findings and teach them how to establish and evaluate the Social Validity of individual interventions and treatment programs Consolidates literature broadly distributed across journals and book chapters into single source Provides discussion of SV in greater depth and breadth than is found in other sources which generally just focus on general conceptualization and broad research findings Describes how concept of SV can be influential in numerous areas of clinical practice *Mental Health Outcome Measures* Graham Thornicroft,Michelle Tansella,2010-09 This new edition charts the increased range of mental health outcome domains that are now measurable while reflecting a new emphasis on positive outcomes and recovery and the central role of the service user s experience Measuring the Impact of the Nonprofit Sector Patrice Flynn, Virginia A. Hodgkinson,2013-11-11 One of the major tasks facing researchers practitioners and funders is the development of empirical tools to measure the inherent worth of nonprofit organizations as well as the sector as a whole Renowned scholars present chapters on the state of the art of performance measurement in the nonprofit sector and seek to establish a framework for a long term research agenda to identify quantify and self assess those qualities that make the nonprofit sector unique

The Handbook of Intellectual Disability and Clinical Psychology Practice Alan Carr,Christine Linehan,Gary O'Reilly,Patricia Noonan Walsh,John McEvoy,2016-04-12 The

Handbook of Intellectual Disability and Clinical Psychology Practice will equip clinical psychologists in training with the skills necessary to complete a clinical placement in the field of intellectual disability. Building on the success of the previous edition, this handbook has been extensively revised. Throughout the text, references and website addresses have been updated to reflect important developments since the publication of the first edition. Recent research findings on the epidemiology, aetiology, course, outcome, assessment and treatment of all psychological problems considered in the book have been incorporated into the text. Account has been taken of changes in the diagnosis and classification of intellectual disability and psychological problems reflected in the AAIDD 11 and the DSM 5. New chapters on the assessment of adaptive behaviour and support needs, person-centred active support and the assessment of dementia in people with intellectual disability have been added. The book is divided into eight sections. Section 1 covers general conceptual frameworks for practice, diagnosis, classification, epidemiology and lifespan development. Section 2 focuses on assessment of intelligence, adaptive behaviour, support needs, quality of life and the processes of interviewing and report writing. Section 3 covers intervention frameworks, specifically active support, applied behavioural analysis and cognitive behaviour therapy. Section 4 deals with supporting families of children with intellectual disability, genetic syndromes and autism spectrum disorders. Section 5 covers issues associated with intellectual disability, first evident or prevalent in middle childhood. Section 6 deals with adolescent concerns, including life skills training, relationships and sexuality. Section 7 focuses on residential, vocational and family-related challenges of adulthood and aging. Section 8 deals with professional issues and risk assessment. Chapters cover theoretical and empirical issues on the one hand and practice issues on the other. They close with summaries and suggestions for further reading for practitioners and families containing a member with an intellectual disability. Where appropriate, in many chapters, practice exercises to aid skills development have been included. The second edition of the Handbook of Intellectual Disability and Clinical Psychology Practice is one of a set of three volumes which cover the lion's share of the curriculum for clinical psychologists in training in the UK and Ireland. The other two volumes are the Handbook of Child and Adolescent Clinical Psychology, Third Edition, by Alan Carr, and the Handbook of Adult Clinical Psychology Practice, Second Edition, edited by Alan Carr, Muireann McNulty.
