Personal Virtues Introductory Readings:

Personal Virtues Clifford Williams, 2006-03-03 In this groundbreaking collection of articles ten respected philosophers discuss everyday virtues including generosity of spirit gratitude hope patience and trust Martha C Nussbaum describes the cognitive dimensions of compassion Robert Solomon argues that love must have reasons Eamonn Callan contends that patience has as much value as courage Clifford Williams Introduction places the virtues into the contemporary context and discusses each one treated in the book **Personal Virtues** Clifford Williams, 2005 **Faith and Virtue Formation** Adam C. Pels, W. Scott Cleveland, 2021 The Christian tradition offers a compelling vision of what it is for human life to be lived well This collection articulates various aspects of that vision in ways that will deepen understanding of virtue formation The contributors demonstrate that moral philosophy not only illuminates but can also inspire the formation of virtue

Introduction to the Art of Reading Explained in a Series of Instructions and Exercises, Etc J. G. Graham, 1861

the seventeenth century reformer and radical Thomas Tryon As part of the wider turn to religion in early modern studies this study seeks to complicate our understanding of a mainstream early modern virtue and to problematize a mode of critical analysis that assumes agency is always defined by resistance

The Naturalness of Belief Charles Taliaferro, Paul Copan, 2018-11-13 Despite its name naturalism as a world view turns out to be rather unnatural in its strict and more consistent form of materialism and determinism This is why a number of naturalists opt for a broadened version that includes objective moral values intrinsic human dignity consciousness beauty personal agency and the like But in doing so broad naturalism begins to look more like theism As many strict naturalists recognize broad naturalism must borrow from the metaphysical resources of a theistic world view in which such features are very natural common sensical and quite at home in a theistic framework The Naturalness of Belief begins with a naturalistic philosopher's own perspective of naturalism and naturalness The remaining chapters take a multifaceted approach in showing theism's naturalness and greater explanatory power They examine not only rational reasons for theism's ability to account for consciousness intentionality beauty human dignity free will rationality and knowledge they also look at common sensical existential psychological and cultural reasons in addition to the insights of the cognitive science of religion
