Personal Hygiene in Islam Ghulam Mustafa Khan,1982 The Etiquette of Eating & Personal Hygiene from Islamic Perspective Muhammad Vandestra,2019-05-22 The religion of Islam is a holistic way of life It is not separated into physical emotional and spiritual areas rather it teaches that all aspects of life combine to fulfil one purpose What is that purpose and is it possible to understand the meaning of life Yes it is Islam makes it very clear that the purpose of life is to worship our Creator the One True God What gives meaning to our existence is understanding that all our actions no matter how grand or how trivial can be turned easily into worship All actions performed in the daily course of life can be raised to the status of worship simply by remembering to praise God and seek His pleasure Islam makes remembrance easy by giving us guidelines It teaches us in a gentle and moderate way that life is worship and worship is the meaning of life To this end even eating has an etiquette that raises its status from the mundane to worship Food plays a significant role in our everyday lives We spend a lot of time effort and money in shopping cooking and eating so it makes sense to turn these worldly acts into worship worthy of reward The sayings of Prophet Muhammad are filled with guidelines and recommendations that make eating a rewardable action Cleanliness is an important part of Islam Not only should a Muslim purify himself before turning to God in prayer but they must pay attention to the cleanliness of their bodies and their surroundings at all times Prophet Muhammad may the mercy and blessings of God be upon him reminded us that our body has certain rights and one of those rights is that it should be maintained with cleanliness

more about Islam's genuine Message and Wisdom More than a book the material I give here for your consideration is a compilation of words intended to bring good news to educate and maybe even to warn you against something It is a piece of work motivated by what I hope will be a sound and strong Message In this guide I aim to encourage my audience to think freely widen their perspectives and contemplate and seek their truth This scripture warns individuals to never mindlessly accept any religion without first pondering on the faith in question and deducing its actual meaning from the evidence presented Beyond all forms of belief and emotion one must utilize their intellect to seek the truth at the heart of all religions As a severe seeker of truth this guide is intended to draw and empower individuals who question reflect and consider their own life's purpose and challenge their future and direction Islam for example is a religion that is often misunderstood and misrepresented by the general public To create an opinion about Islam one must first evaluate their existing knowledge of this religion to determine its thoroughness and truthfulness before forming that view This book aims to bring positivity happiness and good health to the reader by following the teaching of Islam and the holy book Quran The author wants to uncover the hidden wisdom from the most sacred book that ever existed the Holy Quran Humanity has been given a Divine Book that will guide them to a better life both in this world and the next The Holy Quran is a one of a kind book that has the power to alter one's thoughts feelings and actions Islam and the Holy Quran transform people from the inside out transforming them into better people The mission is to assist people in discovering the Wisdom Inspiration and Beauty that may be found in Islam and the Holy Quran Inadequate education about Allah's words Wisdom and Advice leads to the development of a negative attitude toward Allah God People who hear about Islam from News channels or the Internet assume that God is a harsh stern cruel and demanding deity who demands that His creation submit entirely to Him while also demanding that they respect worship and obey Him completely In reality God is All Loving and All Merciful in all that he does Islam is much more than a set of rules and regulations it is a way of life and religion in its own right In this work the author hopes to assist readers in realizing that Islam is a religion of wisdom love and mercy for all and that it is the true religion of God Overall the goal of this Message is to open up a fresh new level of thought that will allow one to recognize the ultimate significance of their being in this universe to assist one in understanding their divine relationship with the Creator The Islamic faith is helpful only to those who are sincere in their pursuit of guidance It is harmful to those who are not sincere and honest in their spiritual quests reject divine guidance and spiritual truth and are not serious and honest in their spiritual pursuits

of Islam Treating the Body in Medicine and Religion John J. Fitzgerald, Ashley John Moyse, 2019-05-09 Modern medicine has produced many wonderful technological breakthroughs that have extended the limits of the frail human body. However, much of the focus of this medical research has been on the physical, often reducing the human being to a biological machine to be examined, understood, and controlled. This book begins by asking whether the modern medical milieu has overly objectified the body unwittingly or not, and whether current studies in bioethics are up to the task of restoring a fuller understanding of the human person. In response, various authors here suggest that a more theological, religious approach would be helpful or perhaps even necessary. Presenting specific perspectives from Judaism, Christianity, and Islam, the book is divided into three parts: Understanding the Body, Respecting the Body, and The Body at the End of Life. A panel of expert contributors, including philosophers, physicians, and theologians and scholars of religion, answer key questions such as: What is the relationship between body and soul? What are our obligations toward human bodies? How should medicine respond to suffering and death? The resulting text is an interdisciplinary treatise on how medicine can best function in our societies. Offering a new way to approach the medical humanities, this book will be of keen interest to any scholars with an interest in contemporary religious perspectives on medicine and the body.

The Islamic Shield Elie Elhadj, 2006 While politicians and media pundits debate the success of U S attempts to instill a democratic government in Iraq author and social scientist Elie Elhadj Ph D explains why thoughts of a democratic Arab Muslim nation are nothing but fantasy Arab people are characterized by obedience to a hierarchical authority Syrian born Elhadj states Western style democracy can never fill this cultural mandate Elhadj explains how Muslim Arab political and religious leaders raise the tenets of Islam in a shield against democracy in order to protect their power Constant preaching by Islam's religious leaders instructing Muslims to blindly obey their leaders has created an attitude of political quietism in regard to the tyranny of Arab rulers and ambivalence towards democracy Elhadj says in his book Using Syria and Saudi Arabia as the archetypal Arab governments The Islamic Shield outlines the numerous reasons why genuine democratic reforms are not likely to emerge in Arab countries for a very long time Instead Elhadj proposes that a benevolent dictatorship may be a more hopeful and realistic expectation especially since democratic elections are likely to result in the election of a theocratic dictator rather than a secular democratic one A benevolent dictatorship would fulfill the goal of reducing Arab rulers cruelty which fans the flame of Islamic extremism and Jihadism he states Jihadism and its causes are examined in detail by Elhadj He makes the case that Jihadist terrorism is fueled by the oppression and frustration of the Arab masses that results not only from tyrannical Arab rule but also from the perception of biased American policies in the Middle East Combined with the growing influence from extremist factions within Islam these oppressions form a vicious cycle of violent confrontation Elhadj says Islamist extremism alone does not cause terrorism Elhadj states What Islamist extremism does is to turn political frustrations into religious crusades The United States may even have created a set back for themselves in the effort to democratize the Middle East Elhadj says As the United States deposed the Arab World's most secular regime in Iraq a theocratic leadership aligned to Tehran emerged with potentially far reaching regional political and religious consequences
