Personal Law:

The Politics of Personal Law in South Asia Partha S. Ghosh, 2018-05-11 The viability of the Uniform Civil Code UCC has always been a bone of contention in socially and politically plural South Asia It is entangled within the polemics of identity politics minority rights women s rights national integration uniform citizenry and of late global Islamic politics and universal human rights While champions of each category view the issue from their own perspectives making the debate extremely complex this book takes up the challenge of providing a holistic political analysis As most of the South Asian states today subscribe to a decentralised view and share a common history this study is an excellent comparative analysis of the applicability of the UCC In this work India figures prominently being the most plural and vibrant democracy as well as accounting for almost three fourths of the region s population This provides the backdrop for an analysis of the other states in the region This second edition will be indispensable for scholars researchers and students of law political science and South Asian Studies

The Politics of Personal Law in South Asia Partha Sarathy Ghosh, 2007 It is a political study of the controversy surrounding the issue of the uniform civil code vis vis personal laws from a South Asian perspective At the centre of the debate is whether there should be a centralized view of the legal system in a given society or a decentralized view both horizontally and vertically This issue is entangled within the threads of identity politics minority rights women s rights national integration global Islamic politics and universal human rights Champions of each category view it through their own prisms making the debate extremely complex especially in politically and socially plural South Asia So this book attempts to harmonize the threads of the debate to provide a holistic political analysis
