Personal Property Law Text Cases And Materials:

The Principles of Personal Property Law Duncan Sheehan, 2017-05-18 The law of personal property covers a very wide spectrum of scenarios and unfortunately has had little detailed scrutiny of its overarching structure over the years It is a system and can best be understood as a system Indeed without understanding it as a system it becomes much more difficult to comprehend The second edition of this acclaimed textbook continues to provide a comprehensive yet detailed coverage of the law of personal property in England and Wales It includes transfer of legal title to chattels the nemo dat rule negotiable instruments and assignment of choses in action It also looks at defective transfers of property and the resulting proprietary claims including those contingent on tracing the tort of conversion bailment and security interests By bringing together areas often scattered throughout company law commercial law trusts and tort textbooks it enables readers to see common themes and issues and to make otherwise impossible generalisations across different contexts about the nature of the concepts English law applies Throughout the book concepts are explained rigorously with reference to how they are used in commercial practice and everyday life The new edition also includes a new chapter on secured transactions law reform and introduces new material on the Cape Town Convention IP rights and other intangible property The book will be of primary interest to academics and practitioners in the area However it will also be of use to students studying commercial or personal property law

lawyers considered the divide between common law and civil law to be so deep that no common ground so it was thought could be found. However economic integration in particular integration of financial markets and freedom of establishment has led to the integration of particular areas of property law such as mortgage law and enforceable security instruments eg retention of title. This pressure towards integration has led comparative lawyers to refocus their interest from contract tort and unjustified enrichment to property law and delve beneath its surface. This book reveals that today property law systems are closer to one another than previously assumed that common ground can be found and that differences can be analysed in a new light to enable comparison and further the development of property law in Europe.

Discrimination Herma Hill Kay, 1988 Sealy and Hooley's Commercial Law David Fox, Baris Soyer, Roderick Munday, Andrew Tettenborn, Peter Turner, 2020 Sealy and Hooley's Commercial Law Text Cases and Materials provides students with an extensive and valuable range of extracts from key cases and writings in this most dynamic field of law The authors expert commentary and questions enliven each topic while emphasizing the practical application of the law in its business context Five renowned experts in the field continue the legacy of Richard Hooley and Len Sealy capturing the essence of this fascinating topic at a time of significant legislative regulatory and political change Boundaries of Personal Property Arianna Pretto-Sakmann, 2005-08-15 This study of the boundaries of personal property has an inward and an outward perspective with the intellectual emphasis on the latter The inward looking inquiry considers shares as items of personal property Nowadays those who think of themselves as shareholders often stand one step removed from the share itself They hold what this book christens a sub share This part of the book asks in what sense shares and sub shares can be conceived to be things how those things are alienated and how they are protected in litigation The outward looking inquiry then asks whether personal property can be contemplated as a sub category of the law of things and more particularly as the law of all things locatable in space alienable or vindicable in court The outward inquiry considers three boundaries Within the law of property the line between realty and personalty proves relatively uncontroversial the second boundary lies between property and obligations the third between wealth and non wealth The second boundary is the main concern Respect for it necessitates a differentiation between the law of property in the strict sense and the all encompassing law of wealth even where the consequence might be to exclude shares and sub shares from the law of property In maintaining the value of careful proprietary taxonomy and in reviving the underlying concepts on which it depends this book opposes modern scepticism as to the possibility and desirability of precision in legal classification In these commitments it could fairly be styled a post modern study of personal property Winner of the SLS Birks Prize for Outstanding Legal Scholarship 2006
