Personal Styles In Early Cycladic Sculpture:

Personal Styles in Early Cycladic Sculpture Pat Getz-Gentle, 2013-08-13 Annotation *Personal Styles in Early Cycladic Sculpture* represents the culmination of thirty five years of study Pat Getz Gentle offers here much new material and many fresh insights into a tradition rooted in the Neolithic period that spanned most of the third millennium B C She begins with a review of this tradition placing particular emphasis on the stages leading to the reclining figure with folded arms that is the unique and quintessential icon of the early Bronze Age culture at the center of the Aegean She then focuses on the styles of fifteen sculptors several of whom are identified and discussed for the first time in this volume By introducing little known pieces attributable to these sculptors she illuminates various phases of their artistic development **BOOK JACKET Title** Summary field provided by Blackwell North America Inc All Rights Reserved *Personal Styles in Early Cycladic Sculpture* Pat Getz-Gentle, 2001-11-26 Getz Gentle an independent scholar has seen many of the examples that exist in the course of her career studying Cycladic sculpture She presents in this volume a catalog of Cycladic sculpture which she has organized into stylistic categories based on formal analysis The methods she used to arrive at her conclusions as well as her theory of how the sculptures were produced are discussed at length Annotation copyrighted by Book News Inc Portland OR **Early Cycladic Sculpture** Pat Getz-Preziosi, 1995-01-12 First published in 1985 this ground breaking book surveys the development of Cycladic sculpture produced by unidentified artists who worked in the Aegean islands forty five hundred years ago Illustrated with numerous objects from American collections with particular emphasis on some two dozen pieces in the Getty Museum this volume surveys the typological development of Early Cycladic sculpture and identifies where possible the work of individual sculptors Newly revised and updated this book is a concise introduction to the field *Early Cycladic Sculpture in Context* Marisa Marthari, Colin Renfrew, Michael J. Boyd, 2017-01-04 The sculpture of the early bronze age Cyclades has been systematically studied since the time of Christos Tsountas at the end of the 19th century But that study has been hampered by the circumstance that so many of the subsequent finds come from unauthorized excavations where the archaeological context was irretrievably lost Largely for that reason there are still many problems surrounding the chronology the function and the meaning of Early Cycladic sculpture This lavishly illustrated and comprehensive reassessment sets out to rectify that situation by publishing finds which have been recovered in controlled excavations in recent years as well as earlier finds for which better documentation can now be provided Using the material from recent excavation projects and drawing on the papers presented at a symposium held in Athens in 2014 it is possible now to undertake a fresh overview of the entire body of sculpture from the Cycladic islands which has been found in secure archaeological contexts Beginning with early examples from Neolithic settlement sites and extending into a consideration of material found in later contexts the 35 chapters are divided into sections which examine sculpture from settlements cemeteries and the sanctuary at Kavos concluding with a discussion of material techniques and aspects of manufacture

Early Cycladic Sculpture in Context from beyond the Cyclades Marisa Marthari, Colin Renfrew, Michael J.

Boyd, 2019-12-31 This second volume on Early Cycladic and Cycladicising sculptures found in the Aegean examines finds from mainland Greece along with the rarer items from the north and east Aegean with the exception of those discovered in the Cyclades covered in the preceding volume and of those found in Crete The significance of these finds is that these are the principal testimonies of the influence of the Early Bronze Age Cycladic cultures in the wider Aegean This influence is shown both by the export of sculptures produced in the Cyclades and made of Cycladic marble and of their imitations produced elsewhere in the Aegean usually of local marble They hold the key therefore to the cultural interactions developing at this time the so called international spirit manifest particularly during the Aegean Early Bronze II period This was the time when the foundations of early Aegean civilisation were being laid and the material documented is thus of considerable significance The volume is divided into sections wherein contributions examine finds and their archaeological social and economic contexts from specific regions It concludes with an overview of the significance and role of these objects in Early Bronze Age societies of the Aegean and eastern Mediterranean region This will be the first time that this material has been systematically gathered together Highly illustrated it follows and builds on the successful preceding volume **Early Cycladic Sculpture in Context** Oxbow 2016

The "Keros Hoard" Panagiōta I. Sōtērakopoulou, Peggy Sotirakopoulou, 2005 Keros is a small mountainous and now deserted island situated between Naxos Amorgos and Ios in the southeast Cyclades Keros became widely known after a series of extensive and clandestine excavations in the 1950s and early 1960s which concentrated on a particularly rich deposit of material at the site of Kavos situated at its barren western extremity These major lootings resulted in the illegal export from Greece of a large number of Early Cycladic objects mostly fragmentary marble figurines that flooded the international antiquities market under the general name the Keros Hoard The cache was said to have included at least 350 Cycladic objects and is now widely dispersed This study features a review of the archaeological investigations on Keros a discussion of the so called Keros Hoard an extensive account of the various aspects of Cycladic figurines and a catalogue of the objects identified as coming from the Hoard Also included are an analysis of the data derived from the Hoard the results of the study comparing the fragments in the Museum of Cycladic Art with those discovered at Kavos during official archaeological investigations an interpretation of the Ho

The Oxford Handbook of Prehistoric Figurines Timothy Insoll, 2017-04-13 Figurines dating from prehistory have been found across the world but have never before been considered globally The Oxford Handbook of Prehistoric Figurines is the first book to offer a comparative survey of this kind bringing together approaches from across the landscape of contemporary research into a definitive resource in the field The volume is comprehensive authoritative and accessible with dedicated and fully illustrated chapters covering figurines from the Americas Europe Africa Asia and Australasia and the Pacific laid out by geographical location and written by the foremost scholars in figurine studies wherever prehistoric figurines are found they have been

expertly described and examined in relation to their subject matter form function context chronology meaning and interpretation Specific themes that are discussed by contributors include for example theories of figurine interpretation meaning in processes and contexts of figurine production use destruction and disposal and the cognitive and social implications of representation Chronologically the coverage ranges from the Middle Palaeolithic through to areas and periods where an absence of historical sources renders figurines prehistoric even though they might have been produced in the mid 2nd millennium AD as in parts of sub Saharan Africa The result is a synthesis of invaluable insights into past thinking on the human body gender identity and how the figurines might have been used either practically ritually or even playfully

Soussloff, 2008-11-29 The editing process is a vital part of virtually every form of media Primarily associated with texts and written language editing is equally essential if less examined in regard to visual media *Editing the Image* looks at the editing of visual media as both a series of technical exercises and as an allegory It touches on concerns that are crucial to the history of art and visual culture as well as those media and institutions that produce and disseminate the visual arts in our society Featuring contributors from a wide range of disciplines *Editing the Image* considers editing in the context of academic journals art historical texts illustrated books museum displays and exhibitions It is an inclusive analysis of visual forms commonly associated with the process of editing photography film and video as well as some that are not intrinsically linked to editing painting sculpture and architecture In addition to wide ranging academic considerations this collection includes discussions of moving picture media and studio art by practitioners giving the study a practical focus For anyone who has considered the implications of the editorial process this work will be of significant interest

The Cycladic and Aegean Islands in Prehistory Ina Berg, 2019-02-01 This textbook offers an up to date academic synthesis of the Aegean islands from the earliest Palaeolithic period through to the demise of the Mycenaean civilization in the Late Bronze III period The book integrates new findings and theoretical approaches whilst at the same time allowing readers to contextualize their understanding through engagement with bigger overarching issues and themes often drawing explicitly on key theoretical concepts and debates Structured according to chronological periods and with two dedicated chapters on Akrotiri and the debate around the volcanic eruption of Thera this book is an essential companion for all those interested in the prehistory of the Cyclades and other Aegean islands

The Oxford Handbook of the Bronze Age Aegean Eric H. Cline, 2012-01-01 The Greek Bronze Age roughly 3000 to 1000 BCE witnessed the flourishing of the Minoan and Mycenaean civilizations the earliest expansion of trade in the Aegean and wider Mediterranean Sea the development of artistic techniques in a variety of media and the evolution of early Greek religious practices and mythology The period also witnessed a violent conflict in Asia Minor between warring peoples in the region a conflict commonly believed to be the historical basis for Homer's Trojan War The Oxford Handbook of the Bronze Age Aegean provides a detailed survey of these fascinating aspects of the period and many others in sixty six newly commissioned articles

Divided into four sections the handbook begins with Background and Definitions which contains articles establishing the discipline in its historical geographical and chronological settings and in its relation to other disciplines The second section Chronology and Geography contains articles examining the Bronze Age Aegean by chronological period Early Bronze Age Middle Bronze Age Late Bronze Age Each of the periods are further subdivided geographically so that individual articles are concerned with Mainland Greece during the Early Bronze Age Crete during the Early Bronze Age the Cycladic Islands during the Early Bronze Age and the same for the Middle Bronze Age followed by the Late Bronze Age The third section Thematic and Specific Topics includes articles examining thematic topics that cannot be done justice in a strictly chronological geographical treatment including religion state and society trade warfare pottery writing and burial customs as well as specific events such as the eruption of Santorini and the Trojan War The fourth section Specific Sites and Areas contains articles examining the most important regions and sites in the Bronze Age Aegean including Mycenae Tiryns Pylos Knossos Kommos Rhodes the northern Aegean and the Uluburun shipwreck as well as adjacent areas such as the Levant Egypt and the western Mediterranean Containing new work by an international team of experts The Oxford Handbook of the Bronze Age Aegean represents the most comprehensive authoritative and up to date single volume survey of the field It will be indispensable for scholars and advanced students alike

Objects of Authority Jakub Stejskal, 2022-08-12 Is the celebrated elegance of Cycladic marble figurines an effect their Early Bronze Age producers intended Can one adequately appreciate an Assyrian regal statue described by a cuneiform inscription as beautiful What to make of the apparent aesthetic richness of the traditional cultures of Melanesia which however engage in virtually no recognizable aesthetic discourse Questions such as these have been formulated and discussed by scholars of remote cultures against the backdrop of a general scepticism about the prospects of escaping the conditioning of one's own aesthetic culture and attuning to the norms of a remote one This book makes a radical move it treats the remote observers lack of aesthetic insight not as a hindrance to aesthetic analysis but as a condition requiring an aesthetic theory that would make room for an aesthetic analysis independent of the model of competent aesthetic judgement or appreciation Objects of Authority represents a rare effort at bringing together methods and concepts that are often addressed by separate disciplines It will appeal to scholars and advanced students working on philosophical art historical and anthropological theories of visual art and material culture

Hellenistic Sculpture Brunilde Sismondo Ridgway, 1990 This is the final volume in Brunilde Sismondo Ridgway's series of books covering the entire range of Greek sculpture from its inception to its virtual end as it merged into the production of the Roman Imperial world Volume III discusses sculptural works both architectural and free standing from approximately 100 B C to the Battle of Actium 31 B C which removed from power the last Hellenistic ruler Although some monuments may belong to the years just before or just after this timespan Ridgway's aim is to concentrate on works plausibly dated to the first century B C even those with highly controversial chronologies Famous sculptures the Laocoon the epic groups from the

Sperlonga cave the Belvedere Torso the bronze Boxer in the Terme Museum and many others are discussed together with less well known pieces Ridgway gives special emphasis to the finds from two shipwrecks the Mahdia and the Antikythera wrecks that provide a reasonable terminus ante quem and argues that many of the stylistic trends and decorative objects usually considered typically Roman instead have their roots in the Greek world This last Hellenistic phase is perhaps the most interesting of the three because it documents to a great extent the transformation of the products of one culture into those of another with different interests and priorities Far from being an unimaginative inferior output driven by commercial considerations the statuary of the first century B C is vibrant and inventive drawing from many sources in a stylistic eclecticism

The Iconography of Sculptured Statue Bases in the Archaic and Classical Periods Angeliki Kosmopoulou,2002 Angeliki Kosmopoulou demonstrates that relief bases present distinct consistent iconographic and technical characteristics that differentiate them from related monuments BOOK JACKET **Artwashing the Past** David W.J. Gill,2024-10-01 Artwashing the Past Context Matters contributes to the wider discussion about the appropriate due diligence process that should be conducted prior to the acquisition of cultural objects The chapters were written as museums in Europe and North America were facing a series of claims on recently acquired objects in their collections in the light of the photographic dossiers that had been seized from dealers in Switzerland and Greece They engage with some of the recent debates over cultural property that include the Ka Ka Nefer mummy mask currently in the St Louis Art Museum and the Leutwitz Apollo acquired by the Cleveland Museum of Art Two of the essays reflect on the recent and controversial metal detecting finds in England the so called Crosby Garrett helmet and the Lenborough Hoard **Kos in the Neolithic and Early Bronze Age** Mercourios Georgiadis,2012-12-31 This volume is based on material from an intensive and systematic field survey of Halasarna modern Kardamaina located on a coastal plain in the southern part of the Dodecanesian island of Kos and a study of settlement patterns across the Aegean It provides a new corpus of data on the Neolithic and Early Bronze Age periods presents a material sequence based on stylistic analysis and develops a diachronic understanding of settlement dynamics within a wider regional context **The Cambridge Companion to the Aegean Bronze Age** Cynthia W.

Shelmerdine,2008-08-04 This book is a comprehensive up to date survey of the Aegean Bronze Age from its beginnings to the period following the collapse of the Mycenaean palace system In essays by leading authorities commissioned especially for this volume it covers the history and the material culture of Crete Greece and the Aegean Islands from c 3000 1100 BCE as well as topics such as trade religions and economic administration Intended as a reliable readable introduction for university students it will also be useful to scholars in related fields within and outside classics The contents of this book are arranged chronologically and geographically facilitating comparison between the different cultures Within this framework the cultures of the Aegean Bronze Age are assessed thematically and combine both material culture and social history Discs of Splendor Alexandra Ann Carpino,2003 The Etruscans whose culture flourished in Italy from the late eighth century B C E to

the first century B C E produced some of the most sumptuous bronze and silver mirrors found in the ancient Mediterranean Mirrors with relief decorations on their reverse sides are extremely rare and uniquely Etruscan Their designs inform us about artistic styles and supplement our understanding of Etruscan culture and taste The subjects illustrated on the mirrors give important insights into Etruscan mythology beliefs and cultural values filling the vacuum left by the loss of most of their literary record

Couched in Death Elizabeth P. Baughan, 2013-12-06 In *Couched in Death* Elizabeth P Baughan offers the first comprehensive look at the earliest funeral couches in the ancient Mediterranean world These sixth and fifth century BCE klinai from Asia Minor were inspired by specialty luxury furnishings developed in Archaic Greece for reclining at elite symposia It was in Anatolia however in the dynastic cultures of Lydia and Phrygia and their neighbors that klinai first gained prominence not as banquet furniture but as burial receptacles For tombs wooden couches were replaced by more permanent media cut from bedrock carved from marble or limestone or even cast in bronze The rich archaeological findings of funerary klinai throughout Asia Minor raise intriguing questions about the social and symbolic meanings of this burial furniture Why did Anatolian elites want to bury their dead on replicas of Greek furniture Do the klinai found in Anatolian tombs represent Persian influence after the conquest of Anatolia as previous scholarship has suggested Bringing a diverse body of understudied and unpublished material together for the first time Baughan investigates the origins and cultural significance of kline burial and charts the stylistic development and distribution of funerary klinai throughout Anatolia She contends that funeral couch burials and banqueter representations in funerary art helped construct hybridized Anatolian Persian identities in Achaemenid Anatolia and she reassesses the origins of the custom of the reclining banquet itself a defining feature of ancient Mediterranean civilizations Baughan explores the relationships of Anatolian funeral couches with similar traditions in Etruria and Macedonia as well as their afterlife in the modern era and her study also includes a comprehensive survey of evidence for ancient klinai in general based on analysis of more than three hundred klinai representations on Greek vases as well as archaeological and textual sources

Modes of Viewing in Hellenistic Poetry and Art Graham Zanker, 2008-02-04 Taking a fresh look at the poetry and visual art of the Hellenistic age from the death of Alexander the Great in 323 B C to the Romans defeat of Cleopatra in 30 B C Graham Zanker makes enlightening discoveries about the assumptions and conventions of Hellenistic poets and artists and their audiences Zanker s exciting new interpretations closely compare poetry and art for the light each sheds on the other He finds for example an exuberant expansion of subject matter in the Hellenistic periods in both literature and art as styles and iconographic traditions reserved for grander concepts in earlier eras were applied to themes motifs and subjects that were emphatically less grand

Dream, Fantasy, and Visual Art in Roman Elegy Emma Scioli, 2015-06-29 The elegists ancient Rome s most introspective poets filled their works with vivid first person accounts of dreams Emma Scioli examines these varied and visually striking textual dreamscapes arguing that the poets exploited dynamics of visual representation to share with readers the intensely personal
