Personality And Ability The Personality Assessment System:

Personality and Ability Charles J. Krauskopf, David Robertson Saunders, 1994 This book presents a theory of individual differences and personality along with research support and applications The authors base the measuring construct on Wechsler scales evaluating in what ways the differences in structural and developed aptitudes cause what we refer to as personality In the tradition of Henry Murray they combine the tough minded highly rigorous quantitative analysis of measures with the tender minded clinical judgement of interpretive information and environmental influence **Handbook of Psychology, Assessment Psychology** Irving B. Weiner, John R. Graham, Jack A. Naglieri, 2012-10-16 Psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do This award winning twelve volume reference covers every aspect of the ever fascinating discipline of psychology and represents the most current knowledge in the field This ten year revision now covers discoveries based in neuroscience clinical psychology's new interest in evidence based practice and mindfulness and new findings in social developmental and forensic psychology *Measuring Human Capabilities* National Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Measuring Human Capabilities: Performance Potential of Individuals and Collectives, 2015-04-10 Every year the U S Army must select from an applicant pool in the hundreds of thousands to meet annual enlistment targets currently numbering in the tens of thousands of new soldiers A critical component of the selection process for enlisted service members is the formal assessments administered to applicants to determine their performance potential Attrition for the U S military is hugely expensive Every recruit that does not make it through basic training or beyond a first enlistment costs hundreds of thousands of dollars Academic and other professional settings suffer similar losses when the wrong individuals are accepted into the wrong schools and programs or jobs and companies Picking the right people from the start is becoming increasingly important in today's economy and in response to the growing numbers of applicants Beyond cognitive tests of ability what other attributes should selectors be considering to know whether an individual has the talent and the capability to perform as well as the mental and psychological drive to succeed *Measuring Human Capabilities An Agenda for Basic Research on the Assessment of Individual and Group Performance Potential for Military Accession* examines promising emerging theoretical technological and statistical advances that could provide scientifically valid new approaches and measurement capabilities to assess human capability This report considers the basic research necessary to maximize the efficiency accuracy and effective use of human capability measures in the military's selection and initial occupational assignment process The research recommendations of *Measuring Human Capabilities* will identify ways to supplement the Army's enlisted soldier accession system with additional predictors of individual and collective performance Although the primary audience for this report is the U S military this book will be of
