Hero of the Crossing Thomas W. Lippman,2016-02 In eleven dramatic years Anwar Sadat changed history not just that of Egypt or of the Middle East but of the entire world As the architect of the 1973 war against Israel he gained the support of other Arab nations and inspired the oil embargo that transformed the global economy Following the war however he forever ended Arab aspirations of unity by making peace with Israel Early in his presidency Sadat jettisoned Egypt s alliance with the Soviet Union and turned to the United States thereby giving the West a crucial Cold War victory Sadat s historic tenure still resonates in the twenty first century as the Islamic activists whom he originally encouraged but who opposed his conciliatory policy toward Israel and ultimately played a role in his assassination continue to foster activism including the Muslim Brotherhood today Thomas W Lippman was stationed in the Middle East as a journalist during Sadat s presidency and lived in Egypt in the aftermath of the October War He knew Sadat personally but only now after the passage of time and the long delayed release of the U S State Department s diplomatic files can Lippman assess the full consequences of Sadat s presidency Hero of the Crossing provides an eye opening account of the profound reverberations of one leader s political cultural and economic maneuverings and legacy

The Ending of Tribal Wars Jürg Helbling,Tobias Schwoerer,2021-03-23 All over the world and throughout millennia states have attempted to subjugate control and dominate non state populations and to end their wars This book compares such processes of pacification leading to the end of tribal warfare in seven societies from all over the world between the 19th and

21st centuries It shows that pacification cannot be understood solely as a unilateral imposition of state control but needs to be approached as the result of specific interactions between state actors and non state local groups Indigenous groups usually had options in deciding between accepting and resisting state control State actors often had to make concessions or form alliances with indigenous groups in order to pursue their goals Incentives given to local groups sometimes played a more important role in ending warfare than repression In this way indigenous groups in interaction with state actors strongly shaped the character of the process of pacification This volume s comparison finds that pacification is more successful and more durable where state actors mainly focus on selective incentives for local groups to renounce warfare offer protection and only as a last resort use moderate repression combined with the quick establishment of effective institutions for peaceful conflict settlement
