Persons Rights And Corporations

Naomi R. Lamoreaux, William J. Novak

Persons Rights And Corporations:

Persons, Rights, and Corporations Patricia Hogue Werhane, 1985 **Corporations and Persons** David Silver, 2025-05-20 We need to reimagine how we think about the firm The dominant view of today sees corporations as relentlessly driven profit maximizers and while many see this as an unfortunate reality others maintain that a sophisticated understanding of law economics and morality reveals that corporations have a duty to act in this fashion Either way the dominant view is out of step with the needs and values of society People and especially members of younger generations are clamoring for more meaningful and ethically engaged work We also have recent memory of a global financial crisis that shook confidence in the free market system and relatedly there has subsequently been a diminution in trust in liberal democratic institutions and values This work in philosophy and applied ethics responds to these events by presenting a persons based theory of the firm It views the for profit corporation as a corporate person standing in moral relationships with human persons rather than as a purely calculating or even psychopathic actor It fills out this theory by exploring the normative dimensions of the firm s relationships with key stakeholders such as customers employees and shareholders and it recognizes a special importance to the relationship between the firm and the citizens of a democratic society and the role this relationship plays in understanding all of the others The resulting way of thinking about corporations is more attuned to their duties within democratic society and more ethically empowering for their personnel Radical Business Ethics Richard L. Lippke, 1995 Arguing against most scholars of business ethics who have articulated a set of moral principles and applied them to problems faced by business people Richard Lippke steers away from offering moral directives In *Radical Business Ethics* he develops a more comprehensive perspective on business issues that is tied to larger questions of social justice Analyzing a select group of timely issues such as advertising employee privacy and insider trading in the context of debates about the nature of the just society Lippke argues that the most plausible theory of justice is one whose implications are highly critical of many features of advanced capitalist societies *Radical Business Ethics* will be an eye opening book for students and scholars of ethics and anyone interested in the role business plays in a just society *Corporations are Not People* Jeffrey D. Clements, 2012 This is the first practical guide for every citizen on the problem of corporate personhood and the tools we have to overturn it Jeff Clements explains why the Citizen s United case is the final win in a campaign for corporate domination of the state that began in the 1970s under Richard Nixon More than this Clements shows how unfettered corporate rights will impact public health energy policy the environment and the justice system Where Thom Hartmann s *Unequal Protection* provides a much needed detailed legal history of corporate personhood *Corporations Are Not People* answers the reader s question What does Citizens United mean to me And even more important it provides a solution A Constitutional amendment included in the book which would reverse Citizens United The book s ultimate goal is to give every citizen the tools and talking points to overturn corporate personhood state by state community by community with

petitions house party kits draft letters shareholder resolutions and much more **Corporations Are People Too** Kent Greenfield, 2018-01-01 Why we're better off treating corporations as people under the law and making them behave like citizens Are corporations people The U S Supreme Court launched a heated debate when it ruled in Citizens United that corporations can claim the same free speech rights as humans Should they be able to claim rights of free speech religious conscience and due process Kent Greenfield provides an answer Sometimes With an analysis sure to challenge the assumptions of both progressives and conservatives Greenfield explores corporations' claims to constitutional rights and the foundational conflicts about their obligations in society and concludes that a blanket opposition to corporate personhood is misguided since it is consistent with both the purpose of corporations and the Constitution itself that corporations can claim rights at least some of the time The problem with Citizens United is not that corporations have a right to speak but for whom they speak The solution is not to end corporate personhood but to require corporations to act more like citizens

Corporations Have Almost as Many Constitutional Rights as Individuals Edward J. Schoen, 2020-04-02 This book which will be of interest to teachers students and scholars of constitutional and business law explains how over the past 225 years US Supreme Court decisions have enshrined corporations with fundamental constitutional rights and transformed those rights from individual freedoms to corporate entitlements This is a fascinating story that delineates which fundamental constitutional rights accorded to individuals have been extended to corporations and which have not and parses the US Supreme Court decisions extending constitutional protections to corporations The book also shows how the views of the Founders have been altered by these decisions and demonstrates how corporations like individuals have used their constitutional protections to evade government regulations Telling this story in a clear and uncomplicated way underscores how intriguing and compelling the ebb and flow and evolution and retreat of fundamental constitutional rights is from the time of the Founders to the twenty first century [Encyclopedia of Business Ethics and Society](#) Robert W. Kolb, 2008 This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society **Corporations and Disability Rights** Neha Pathakji, 2018-05-08 The emergence of a decentralized fragmented and low cost Internet opened up possibilities for persons with disabilities to lead an independent and inclusive life which had been denied to them in the physical world The virtual world unlike the physical world was presumed to be devoid of physical social and attitudinal barriers that have historically led to the marginalization and exclusion of persons with disabilities Yet with advancement in technology concerns of persons with disabilities to access the Internet were relegated to the background Since the Internet is largely dominated by corporations this digital divide cannot be bridged without questioning their role and corporations as gatekeepers of the virtual world need to proactively engage in dismantling barriers to accessing the Internet Corporations and Disability Rights engages with the contemporary discourse on the nature of the right to access the Internet and contextualizes this right within the framework of emerging disability rights

jurisprudence This book explores the interplay between human rights of persons with disabilities and corporate obligation in a technologically advanced society It argues that under disability rights jurisprudence the right to access the Internet is a human right and not merely an enabling right It bridges the existing normative and regulatory gaps for the effective realization of the right to access the Internet *Managing with Integrity* Augustine Chennattu,2020-04-06 *Managing with Integrity* challenges the readers to explore different perspectives on and conceptions of corporate ethics It is situated within the broader context of the emerging interests of the people of India to eradicate corporate unethical conduct The massive protest against corporate unethical conduct and public opinion puts leaders top managers and employees under strong social and political pressure This book aims at articulating arguments for the necessity of incorporating personal integrity formation along with codes of ethical conduct to reduce unethical corporate activity more steadily and effectively This book is an ethical guide for managers employees politicians clergy candidates for priesthood and business students equipping them to eradicate corporate unethical conduct from all spheres of life **Business and Human Rights** Wesley

Cragg,2012-01-01 The relationship between business and human rights has emerged in the last two decades as one of the most pressing issues in the field of business ethics Do corporations have human rights responsibilities If so what is that nature of those responsibilities and do they differ in any significant way from those of governments Is it reasonable or realistic to expect corporations to respect human rights in environments where governments particularly in the developing and underdeveloped world need economic development and have a limited capacity and or interest in enforcing human rights standards and laws The contributors to this groundbreaking volume take up these questions examining them from both theoretical and practical perspectives Topics discussed include the debates leading to the creation of the ISO 26000 standard and the United Nations human rights framework for business entities as well as the nature and limits of the human rights responsibilities of business the roles and responsibilities of international trade bodies like the World Trade Organization in protecting human rights and the implications of the current debate for international trade agreements and trade with China The contributors also explore the effectiveness of voluntary human rights standards in the textile and clothing trade mining advertising and the pharmaceutical industry Scholars and students in management philosophy political science sociology and law will find this volume a great resource as will activists managers and policy makers Human Rights and Corporations

David Kinley,2017-05-15 The erstwhile unlikely coupling of human rights and corporations is now a typical feature of corporate community relations High profile corporate infringements of human rights the rise and rise of corporate social responsibility CSR and on going efforts to regulate corporate behaviour through legal regimes at both domestic and international levels have spawned a mountain of academic literature and commentary This volume assembles the leading essays from this body of work Together they frame the relationship between human rights and corporations by charting its history and salient features tackle the conceptual perspectives of the relationship and detail the practice problems and

potential of the relationship **Corporations and American Democracy** Naomi R. Lamoreaux, William J. Novak, 2017-05-08 Recent Supreme Court decisions in Citizens United and other high profile cases have sparked disagreement about the role of corporations in American democracy Bringing together scholars of history law and political science Corporations and American Democracy provides essential grounding for today's policy debates Corporate Personhood Susanna Ripken, 2019-08-08 Explores the nature of corporate personhood and how it affects the rights powers and influence of corporations in society The Fallacy of Corporate Moral Agency David Rönnegard, 2015-05-12 It is uncontroversial that corporations are legal agents that can be held legally responsible but can corporations also be moral agents that are morally responsible Part one of this book explicates the most prominent theories of corporate moral agency and provides a detailed debunking of why corporate moral agency is a fallacy This implies that talk of corporate moral responsibilities beyond the mere metaphorical is essentially meaningless Part two takes the fallacy of corporate moral agency as its premise and spells out its implications It shows how prominent normative theories within Corporate Social Responsibility such as Stakeholder Theory and Social Contract Theory rest on an implicit assumption of corporate moral agency In this metaphysical respect such theories are untenable In order to provide a more robust metaphysical foundation for corporations the book explicates the development of the corporate legal form in the US and UK which displays how the corporation has come to have its current legal attributes This historical evolution shows that the corporation is a legal fiction created by the state in order to serve both public and private goals The normative implication for corporate accountability is that citizens of democratic states ought to primarily make calls for legal enactments in order to hold the corporate legal instruments accountable to their preferences Utility Corporations United States. Federal Trade Commission, 1934

First Amendment Rights Nancy S. Lind, Erik T. Rankin, 2012-11-21 This two volume work addresses every key cutting edge issue regarding the First Amendment including subjects such as freedom of religion freedom of press freedom of speech and freedom of organization First Amendment Rights An Encyclopedia provides both historical information and current 21st century topics in First Amendment issues Volume 1 addresses the subject through the lens of past decisions and precedent updated to include controversies between new social media and civil liberties Volume 2 examines the current state of First Amendment rights addressing the changes in interpretations of the First Amendment by the Roberts Court as well as in vogue issues such as Occupy Movements as well as student rights and responsibilities in freedom of religion and speech cases Key cases are highlighted throughout the text to further comprehension of the underlying issues and subtle complexities The information is presented so that readers can examine cases in the Roberts court and draw their own conclusions Coverage is also provided of the challenges and opportunities that arise with the adoption of new technologies and their impact on the interpretations of the First Amendment **Aesthetics of Law** Kamil Zeidler, Joanna Kamień, 2024-06-05 The aesthetics of law deals with the relationship between law and beauty by searching for aesthetic

values in the law itself an internal perspective by finding material related to law in art and culture an external perspective and lastly by demonstrating the impact of legal norms on what can be broadly understood as beauty law as a tool of aestheticization Regarding all these phenomena the aesthetics of law ultimately allows us to see the law more clearly and more profoundly What is more the law does not function nor has it ever functioned separately from its means of expression which are incontrovertibly subject to aesthetic interpretation If we think about law in this way perceiving not only the message but also the manner in which it is conveyed the whole set of means and tools used the perfection and beauty of the form then we will see art in it After all the widely known and still applicable ancient maxim *ius est ars boni et aequi* equates law and art This alone should be an argument for aesthetic reflection on the law a field of endeavour that should never have been abandoned The book's twenty three chapters written by scholars from various countries and three continents are thematically diverse In them we present the manifestations of the aesthetics of law from an external perspective If we accept a definition of the concept of law that is as broad as possible not only as a synonym of a certain formalized normative system but also including the process of its creation legislation its application and interpretation jurisprudence and even teaching on and research into it doctrine we can identify a wealth of aesthetic references in the law A broadly understood aesthetics of law approached solely from an external perspective covers such disciplines as law and literature the aesthetics of legal rhetoric the trial as performance the aesthetics of courthouse architecture law in the fine arts law in film law and music pictorial law symbols of the law and legal symbols symbols of the state and power legal archaeology etc The field of research is therefore wide In addition to topics traditionally and obviously associated with the aesthetics of law such as law and literature law in the fine arts and court rhetoric there are chapters on e g legal ethics and trademarks All authors share the belief that beauty in law is important even when it is hidden in a caricature Further they argue for restoring the aesthetics of law to its proper place in philosophical and legal discourse as doing so would yield a host of benefits for the addressees of law

The Federal Reporter ,1882 Includes cases argued and determined in the District Courts of the United States and Mar May 1880 Oct Nov 1912 the Circuit Courts of the United States Sept Dec 1891 Sept Nov 1924 the Circuit Courts of Appeals of the United States Aug Oct 1911 Jan Feb 1914 the Commerce Court of the United States Sept Oct 1919 Sept Nov 1924 the Court of Appeals of the District of Columbia

Human Rights in the Market Place Christopher Harding,Uta Kohl,2016-05-13 The ideology of human rights protection has gained considerable momentum during the second half of the twentieth century at both national and international level and appears to be an effective lever for bringing about legal change This book analyzes this strategy in economic and commercial policy and considers the transportation of the public law discourse of basic human rights protection into the commercial law context of economic policy business activity and corporate behaviour The volume will prove indispensable for anyone interested in human rights international law and business and commercial law

The Northwestern Reporter ,1909

The Top Books of the Year Persons Rights And Corporations The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Persons Rights And Corporations : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
