Burke's Permanence and Change Ann George, 2018-11-27 A guide to and analysis of a seminal book's key concepts and methodology Since its publication in 1935 Kenneth Burke's *Permanence and Change* a text that can serve as an introduction to all his theories has become a landmark of rhetorical theory Using new archival sources and contextualizing Burke in the past and present Ann George offers the first sustained exploration of this work and seeks to clarify the challenging book for both amateurs and scholars of rhetoric This companion to *Permanence and Change* explains Burke's theories through analysis of key concepts and methodology demonstrating how for Burke all language and therefore all culture is persuasive by nature Positioning Burke's book as a pioneering volume of New Rhetoric George presents it as an argument against systemic violence positivism and moral relativism *Permanence and Change* has become the focus of much current rhetorical study but George introduces Burke's previously unavailable outlines and notes as well as four drafts of the volume to investigate his work more deeply than ever before Through further illumination of the book's development publication and reception George reveals Burke as a public intellectual and critical educator rather than the eccentric aloof genius earlier scholars imagined him to be George argues that Burke was not ahead of his time but rather deeply engaged with societal issues of the era She redefines Burke's mission as one of civic engagement to convey the ethics and rhetorical practices necessary to build communities interested in democracy and human welfare lessons that George argues are as needed today as they were in the 1930s **Queer Intercultural Communication** Shinsuke Eguchi, Bernadette Calafell, 2019-10-01

Rhetoric is a comprehensive survey of the latest research as well as the foundational teachings in this broad field. Featuring 150 original signed articles by leading scholars from many different fields of study, it brings together knowledge from classics, philosophy, literature, literary theory, cultural studies, speech and communications. The Encyclopedia surveys basic concepts: speaker, style and audience, elements, genres, terms, fallacies, figures of speech, and the rhetoric of non-Western cultures and cultural movements. It covers rhetoric as the art of proof and persuasion, as the language of public speech and communication, and as a theoretical approach and critical tool used in the study of literature, art, and culture at large, including new forms of communication such as the internet. The Encyclopedia is the most wide-ranging reference work of its kind, combining theory, history, and practice with a special emphasis on public speaking, performance, and communication. Cross-references, bibliographies after each article, and synoptic and topical indexes further enhance the work. Written for students, teachers, scholars, and writers, the Encyclopedia of Rhetoric is the definitive reference work on this powerful discipline.

Logic and structure of the computer game Stephan Günzel, Michael Liebe, Dieter Mersch, 2010. The fourth volume of the DIGAREC Series holds the proceedings to the conference Logic and Structure of the Computer Game held at the House of Brandenburg Prussian History in Potsdam on November 6 and 7, 2009. The conference was the first to explicitly address the medial logic and structure of the computer game. The contributions focus on the specific potential for mediation and on the unique form of mediation inherent in digital games. This includes existent yet scattered approaches to develop a unique curriculum of game studies. In line with the concept of mediality, the notions of aesthetics, interactivity, software architecture, interface design, iconicity, spatiality, and rules are of special interest. Presentations were given by invited German scholars and were commented on by international respondents in a dialogical structure.

From Modernism to Postmodernism Gerhard Hoffmann, 2016-08-01. This systemic study discusses in its historical, cultural, and aesthetic context the postmodern American novel between the years of 1960 and 1980. A general overview of the various definitions of postmodernism in philosophy, cultural theory, and aesthetics provides the framework for the inquiry into more specific problems, such as the broadening of aesthetics, the relationship between aesthetics and ethics, the transformation of the artistic tradition, the interdependence between modernism and postmodernism, and the change in the aesthetics of fiction. Other topics addressed here include situationalism, montage, the ordinary and the fantastic, the subject and the character, the imagination, comic modes, and the future of the postmodern strategies. The authors whose fiction is treated in some detail under the various aspects thematized are John Barth, Donald Barthelme, Richard Brautigan, Robert Coover, Stanley Elkin, Raymond Federman, William Gaddis, John Hawkes, Jerzy Kosinski, Thomas Pynchon, Ishmael Reed, Ronald Sukenick, and Kurt Vonnegut.

Kenneth Burke + The Posthuman Chris Mays, Nathaniel A. Rivers, Kellie Sharp-Hoskins, 2017-10-15. While rhetoric as a discipline is firmly planted in humanism and anthropology, posthumanism seeks to leave the human behind. This highly original examination of Kenneth Burke's thought

grapples with these ostensibly contradictory concepts as opportunities for invention revision and importantly transdisciplinary knowledge making Rather than simply mapping posthumanist rhetorics onto Burke s scholarship Kenneth Burke The Posthuman focuses on the multiplicity of ideas found both in his work and in the idea of posthumanism Taking varied approaches organized within a framework of boundaries and futures the contributors show that studying the humanist theories of Burke in this way creates a satisfyingly chaotic web of interconnections The essays look at how Burke s writing on the human mind and technology from his earliest works to his very latest revisions interrelates with current concepts such as new materiality and coevolution Throughout the contributors pay close attention to the fluidity concerns and contradictions inherent in language symbolism and subjectivity A unique illuminating exploration of the contested relationship between bodies and language this inherently transdisciplinary book will propel important future inquiry by scholars of rhetoric Burke and posthumanism In addition to the editors the contributors are Casey Boyle Kristie Fleckenstein Nathan Gale Julie Jung Steven B Katz Steven LeMieux Jodie Nicotra Jeff Pruchnic Timothy Richardson Thomas Rickert and Robert Wess

Rethinking Rhetorical Theory, Criticism, and Pedagogy Antonio de Velasco, John Angus Campbell, David Henry, 2016-10-01 What distinguishes the study of rhetoric from other pursuits in the liberal arts From what realms of human existence and expression of human history does such study draw its defining character What in the end should be the purposes of rhetorical inquiry And amid so many competing accounts of discourse power and judgment in the contemporary world how might scholars achieve these purposes through the attitudes and strategies that animate their work Rethinking Rhetorical Theory Criticism and Pedagogy The Living Art of Michael C Leff offers answers to these questions by introducing the central insights of one of the most innovative and prolific rhetoricians of the twentieth century Michael C Leff This volume charts Leff s decades long development as a scholar revealing both the variety of topics and the approach that marked his oeuvre as well as his long standing critique of the disciplinary assumptions of classical Hellenistic renaissance modern and postmodern rhetoric Rethinking Rhetorical Theory Criticism and Pedagogy includes a synoptic introduction to the evolution of Leff s thought from his time as a graduate student in the late 1960s to his death in 2010 as
