Perspectives on France Philip J.-L. Westfall, 1984      *The British and French Mandates in Comparative Perspectives/Les mandats français et anglais dans une perspective comparative* Nadine Méouchy, Peter Sluglett, 2004-01-01 This collection represents the first large scale attempt to discuss the Middle Eastern mandates as a totality It compares the application and effects of this very specific form of late colonialism from a variety of different disciplinary perspectives including anthropology architecture archival conservation economics history law and sociology It contains analyses at both micro and macro levels including specific instances of revolt or collaboration studies of particular individuals of professional groups and their contributions to nation building comparisons between the various political and cultural policies of the mandatory powers and the formation and practice of le savoir colonial by contemporary ethnographers officials physicians and teachers The volume will be of interest to historians of imperialism and of the twentieth century Middle East      **British**

**Establishment Perspectives on France, 1936-40** Michael L. Dockrill, 1999-04-12 This book analyses British official reactions to the apparent decline of France politically socially and economically in the three years before the outbreak of war in Europe The book is based on public and private archival sources and on the memoirs and biographies of leading British figures and describes the British Government s efforts to cope with the desperate strategic situation created by its own military weakness and the malaise of the Third Republic its own potential great power ally in a war with the Axis powers

**The Police, State and Society: Perspectives from India and France** Mehra and Levy, 2010 The Police State and Society Perspectives from India and France is a parallel study between criminal justice systems in India and France It covers the institutional democratic and functional aspects of the police and law in the two countries It discusses the modern aspects of policing and human rights issues in the criminal justice system against a backdrop of violence and conflict It is useful for students and scholars of sociology law criminal justice political science policymakers and general readers      **Stereo:**

*Comparative Perspectives on the Sociological Study of Popular Music in France and Britain* Philippe Le Guern, 2016-04-01 The term Popular Music has traditionally denoted different things in France and Britain In France the very concept of popular music has been fiercely debated and contested whereas in Britain and more largely throughout what the French describe as the Anglo saxon world popular music has been more readily accepted as a description of what people do as leisure or consume as part of the music industry and as something that academics are legitimately entitled to study French researchers have for some decades been keenly interested in reading British and American studies of popular culture and popular music and have often imported key concepts and methodologies into their own work on French music but apart from the widespread use of elements of French theory in British and American research the Anglo saxon world has remained largely ignorant of particular traditions of the study of popular music in France and specific theoretical debates or organizational principles of the making and consuming of French musics French British and American research into popular

music has thus coexisted with considerable cross fertilization for many years but the barriers of language and different academic traditions have made it hard for French and anglophone researchers to fully appreciate the ways in which popular music has developed in their respective countries and the perspectives on its study adopted by their colleagues This volume provides a comparative and contrastive perspective on popular music and its study in France and the UK National Regeneration in Vichy France Dr Debbie Lackenstein,2013-07-28 The creators of the Vichy regime did not intend merely to shield France from the worst effects of military defeat and occupation rather the leaders of Vichy were inspired by a will to regenerate France to establish an authoritarian new order that would repair the degenerative effects of parliamentary democracy and liberal society Their plan to effect this change took the form of a far reaching programme they called the National Revolution This is the first study of the National Revolution as the expression of Vichy s ideology and aims It reveals the variety and complexity of both right wing and other strands of French thought in the context of the turbulent years of the 1930s when Vichy s history really begins and under the Occupation when internal rivalries and divisions as well as the pressures of war doomed Vichy s programme of national regeneration The book is structured around a consideration of the rhetoric of right wing ideology and such key catchwords as decadence action order realism and new man and shows how these phrases only served to mask the political and ideological incoherence of the Vichy government *Language and Social Structure in Urban France* David Hornsby,2017-07-05 The coming together of linguistics and sociology in the 1960 s most notably via the work of William Labov marked a revolution in the study of language and provided a paradigm for the understanding of variation and change Labovian quantitative methods have been employed successfully in North America the UK Scandinavia and New Zealand but have had surprisingly little resonance in France a country which poses many challenges to orthodox sociolinguistic thinking Why for example does a nation with unexceptional scores on income distribution and social mobility show an exceptionally high degree of linguistic levelling that is the elimination of marked regional or local speech forms And why does French appear to abound in hyperstyle variables which show greater variation on the stylistic than on the social dimension in defiance of a well established theory that such variables should not occur This volume brings together leading variationist sociolinguists and sociologists from both sides of the Channel to ask what makes France exceptional In addressing this question variationists have been forced to reassess the accepted interdisciplinary consensus and to ask as sociolinguistics has come of age whether concepts and definitions have been transposed in a way which meaningfully preserves their original sense and crucially takes account of recent developments in sociology Sociologists for their part have focused on the largely neglected area of language variation and its implications for social theory Their findings therefore transcend the case study of a particularly enigmatic country to raise important theoretical questions for both disciplines **OECD Public Governance Reviews: France An international perspective on the General Review of Public Policies** OECD,2012-08-21 The reform programme called General Review of Public Policies R

vision G n role des Politiques Publiques RGPP implemented at central government level in France in 2007 is a novel approach for OECD countries by its mode of governance directly and continuously involving the highest state offic

**Race Politics in Britain and France** Erik Bleich, 2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race found across the English Channel

**Problems and Perspectives** Wendy Ayres-Bennett, Janice Carruthers, Rosalind Temple, 2014-02-25 Problems and Perspectives Studies in the Modern French Language looks at a number of interesting or problematic areas in the phonology morphology syntax and lexis of the French language and encourages the reader to think critically about different ways of approaching describing and explaining these issues or data The book is divided into two parts the first section is a preliminary to and contextualises the discussion of the more specialised topics of the second part Part two presents problematic and controversial areas in the description and analysis of the contemporary language Where appropriate historical and sociolinguistic issues are also integrated into the discussion of modern French Aimed primarily at advanced students and researchers in French linguistics the introductory sections of part one also make this book accessible to undergraduates beginning their study of French linguistics and to less specialised readers

**National Perspectives on Russia** Maxine David, Jackie Gower, Hiski Haukkala, 2013-06-03 This book presents a ground breaking comparative study of the bilateral relations of all 27 EU member states with Russia and an assessment of their impact on the EU s efforts to conduct a coherent and effective policy towards its most important neighbour While there has been a lot of research on European foreign policy there has been much less on the role that national foreign policies play in it Based on a common analytical framework this book offers a detailed analysis of national perspectives on Russia and how they interact with and affect policymaking at the EU level The authors provide deep insights into the relationship between individual states and Russia looking at a range of policy areas economics trade energy security culture and education They are not only interested in examining policy failure but also probing the possibilities of seeing national foreign policies and the bilateralism with third parties that they often entail as a potentially positive resource for the European Union As Russia is an example of a particularly hard case for EU foreign policy this book yields important insights concerning the possibilities as well as limits of developing a common EU policy in the future It will

be of interest to students and scholars of European politics EU Studies Russian politics foreign policy studies and international politics      *Made in France* G r me Guibert, Catherine Rudent, 2017-11-06 *Made in France* Studies in Popular Music serves as a comprehensive introduction to the history sociology and musicology of contemporary French popular music The volume consists of essays by scholars of French popular music and covers the major figures styles and social contexts of pop music in France The book first presents a general description of the history and background of popular music in France followed by essays that are organized into thematic sections The Mutations of French Popular Music During the Trente Glorieuses Politicising Popular Music Assimilation Appropriation French Specificity and From Digital Stakes to Cultural Heritage French Contemporary Topics Contributors Christian B thune Juliette Dalbavie G r me Guibert Fabien Hein Olivier Julien Marc Kaiser Barbara Lebrun David Looseley St phanie Molinero Anne Petiau C cile Provost Thomas Vincent Rouz Catherine Rudent Matthieu Saladin Jediah Sklower Rapha l Suire Florence Tamagne      *Parties and the Party System in France* A. Knapp, 2004-03-12 The French elections of 2002 broke all records for fragmentation abstention and far right protest voting yet returned incumbent President Chirac in triumph and gave him a solid basis of parliamentary support *Parties and the Party System in France* seeks to explain the paradox of France's current relationship to politics through a comprehensive analysis of French political parties and their interaction over the last fifty years set against the two contexts of French history and of contemporary theories of parties and party systems      *The Museum of French Monuments 1795-1816* Alexandra Stara, 2013 The first volume in two centuries on Alexandre Lenoir's Museum of French Monuments in Paris this study presents a comprehensive picture of a seminal project of French Revolutionary cultural policy one crucial to the development of the modern museum institution The book offers a new critical perspective of the Museum's importance and continuing relevance to the history of material culture and collecting through juxtaposition with its main opponent the respected connoisseur and theorist Quatrem re de Quincy This innovative approach highlights the cultural and intellectual context of the debate situating it in the dilemmas of emerging modernity the idea of nationhood and changing attitudes to art and its histories Open only from 1795 to 1816 the Museum of French Monuments was at once popular and controversial The salvaged sculptures and architectural fragments that formed its collection presented the first chronological panorama of French art which drew the public it also drew the ire of critics who saw the Museum as an offense against the monuments artistic integrity Underlying this localized conflict were emerging ideas about the nature of art and its relationship to history which still define our understanding of notions of heritage monument and the museum      *Battle Of Single European Market* Gilles Grin, 2012-11-12 First published in 2004 This book studies the history of the single or internal market of the European Union since its beginnings after the Second World War until the end of 2000 The perspective is pluridisciplinary and incorporates several dimensions historical political economic legal and sociological      **Encyclopedia of Monasticism** William M. Johnston, 2013-12-04 The two volume Encyclopedia of Monasticism describes the monastic traditions of both

Christianity and Buddhism with more than 600 entries on important monastic figures of all periods and places surveys of countries and localities and topical essays covering a wide range of issues e g art behavior economics liturgy politics theology and scholarship Coverage encompasses not only geography and history worldwide but also the contemporary dilemmas of monastic life Recent upheavals in certain countries are highlighted Korea Russia Sri Lanka etc Topical essays subtitled Christian Perspectives and Buddhist Perspectives explore in imaginative fashion comparisons and contrasts between Christian and Buddhist monasticism Encyclopedia of Monasticism also includes more than 500 color and black and white illustrations covering all aspects of monastic life art and architecture

**Government Stability in Comparative Perspective** Marco Improta, 2025-04-09 This insightful book provides a systematic and comprehensive analysis of government stability across democracies Marco Improta draws on an original multilevel longitudinal dataset to investigate the factors influencing cabinet survival and identify policy recommendations to address the challenges facing contemporary governments

**Africa and France** Dominic Thomas, 2013-03-20 An excellent and incisive look at identity immigration and culture in postcolonial France Journal of West African History This stimulating and insightful book reveals how increased control over immigration has changed cultural and social production in theater literature and even museum construction Dominic Thomas's analysis unravels the complex cultural and political realities of long standing mobility between Africa and Europe Thomas questions the attempt to place strict limits on what it means to be French or European and offers a sense of what must happen to bring about a renewed sense of integration and global Frenchness Essential reading for anyone investigating the debates surrounding contemporary French identity and the ever changing relationship between France and her former colonial possessions African Studies Bulletin
