Energy Price Shocks and Macroeconomic Performance Douglas R. Bohi, 2017-02-17 The oil price shocks of the 1970 s led to severe recessions in the 1980 s in the United States Originally published in 1989 in the aftermath Bohi attempts to show both how energy prices can cause a decline in output and employment and to explore important other factors which led to the recessions using the US United Kingdom Japan and Germany as examples The findings in Energy Price Shocks and Macroeconomic Performance have major implications for energy policy and questions government plans which focus solely on preventing another oil supply disruption This title will be of interest to students of environmental studies and economics as well as professionals *Energy Research Abstracts*, 1994 American Book Publishing Record, 1988 **Scientific and Technical Aerospace Reports**, 1995 Exploration of the Outer Heliosphere and the Local Interstellar Medium National Research Council, Division on Engineering and Physical Sciences, Space Studies Board, Committee on Solar and Space Physics, 2004-11-25 This report is the summary of a workshop held in May 2003 by the Space Studies Board s Committee on Solar and Space Physics to synthesize understanding of the physics of the outer heliosphere and the critical role played by the local interstellar medium LISM and to identify directions for the further exploration of this challenging environment

Drug Use in America: Problem in Perspective United States. Commission on Marihuana and Drug Abuse, 1973 *A Global Perspective on Real Estate Cycles* Stephen J. Brown, Crocker H. Liu, 2012-12-06 In March 1999 New York University Salomon Center in association with the Department of Finance at NYU Stern held a one day conference on

the impact of real estate cycles on the real estate industry both from a domestic as well as an international perspective The conference featured the leading research on this topic in the United States Europe and Asia Currendy the real estate industry is at a critical point New development projects around the world are being put on hold given recent developments in the international capital markets The industry is hard hit by the decline in real estate investment trust REIT share prices and a shrink ing pool of capital for real estate ventures This has unfortunately coincided with serious financial problems of very large hedge funds and other institutional investors in the market for commercial mortgage backed securities There is need for new insights into the implications of U S and global real estate cycles on real estate secu rities including REITs and mortgage backed securities as well as direct real estate investment This global orientation is important given the high mobility of capital into the real estate the increasing integration of real estate markets and the proposed expan sion of real estate investment trusts REIT into international real estate The process of globalization has resulted in increased competition between cities for the attrac tion of investment Energy Abstracts for Policy Analysis ,1984
