Perspectives On Equality Constructing A Relational Theory:

Perspectives on Equality Christine M. Koggel, 1998 Beginning with liberalism's foundational idea of moral equality as the basis for treating people with equal concern and respect Christine Koggel offers a modified account of what makes human beings equal and what is needed to achieve equality Koggel utilizes insights from care ethics but switches the focus from care as a moral response within personal relationships to the broader network of relationships within which care is given or withheld The result is an account of moral personhood and agency that is richer than the view propounded by liberal theory and care ethics This exciting and original work challenges theoretical resistance to the idea that relationships are relevant to an understanding of equality and it provides an opening to a critical analysis of relationships and care that informs and transforms our understanding of what is needed to treat all people with equal concern and respect

Relational Theory Christine M. Koggel, Ami Harbin, Jennifer J. Llewellyn, 2025-04-18 Relational theory starts from the ontological fact of our being in networks of relationships and draws out what this means for theories of knowledge and for moral and political theory This book uses insights from feminist relational theory to outline the ontological epistemological and moral political implications of this theoretical approach The chapters in this volume focus on relationships of power and oppression how these relationships shape who is taken to have knowledge and who is dismissed or ignored and what all of this means for theories of equality justice and moral and political theory more generally A focus on relationships of power and oppression opens up an examination into structures such as colonialism and capitalism that shape interconnected networks of relationships between humans and human and non human entities and ecosystems This volume which now includes eight additional chapters published both before and after the original special issue offers a significant step forward in the development of feminist relational theory Following early forays in identifying and criticizing mainstream liberal theory in the Western tradition chapters in this collection draw on approaches by anti oppression theorists found in critical disability critical race anti colonial decolonial and non Western theories to further broaden the descriptions and analyses of relationships and networks of relationships and to extend and advance feminist relational theory and its applications The chapters in this book were originally published in the Journal of Global Ethics

Being Relational Jocelyn Downie, Jennifer J. Llewellyn, 2011-11-10 At the heart of relational theory lies the idea that the human self is fundamentally constituted in terms of its relations to others For relational theorists the self not only lives in relationship with and to others but also owes its very existence to such relationships In this groundbreaking collection leading relational theorists explore core moral and metaphysical concepts while health law and policy scholars respond by analyzing how such considerations might apply to more practical areas of concern Innovative and self reflexive *Being Relational* brings a powerful theoretical framework to health law and policy studies In so doing it makes a bold contribution to scholarship and will appeal to a broad range of thinkers especially those with an interest in social justice and who seek to understand the complex ways in which power is

created and sustained relationally *Moral Issues in Global Perspective - Volume 2: Human Diversity and Equality - Second Edition* Christine Koggel, 2006-03-27 Now available in three thematic volumes the second edition of *Moral Issues in Global Perspective* is a collection of the newest and best articles on current moral issues by moral and political theorists from around the globe Each volume seeks to challenge the standard approaches to morality and moral issues shaped by Western liberal theory and to extend the inquiry beyond the context of North America Covering a broad range of issues and arguments this collection includes critiques of traditional liberal accounts of rights justice and moral values while raising questions about the treatment of disadvantaged groups within and across societies affected by globalization Providing new perspectives on issues such as war and terrorism reproduction euthanasia censorship and the environment each volume of *Moral Issues in Global Perspective* incorporates work by race class feminist and disability theorists *Human Diversity and Equality* the second of the three volumes examines issues of equality and difference and the effects within and across borders of kinds of discrimination on the basis of race ethnicity gender disability class and sexual orientation Nine essays are new four of which were written especially for this volume *Moral Issues in Global Perspective* is available in three separate volumes *Moral and Political Theory* *Human Diversity and Equality* and *Moral Issues* **Our Faithfulness to the Past** Sue Campbell, 2014 Essays by the late feminist philosopher Sue Campbell explore the entanglement of epistemic and ethical values in our attempts to be faithful to our pasts Her relational conception of memory is used to confront the challenges of sharing memory and reconstituting selves even in contexts fractured by moral and political differences especially those rooted in oppression and past injustices **The Disabled Contract** Jonas-Sébastien Beaudry, 2021-03-18 Social contract theories generally predicate the authority of rules that govern society on the idea that these rules are the product of a contractual agreement struck between members of society These theories embody values such as equality reciprocity and rationality that are highly prized within our culture Yet a closer inspection reveals that these features exclude other important values relations and even persons from the realm of contractual morality and justice especially people with severe intellectual disabilities Jonas S bastien Beaudry explores the moral status of intellectually disabled people in social contract thought and argues that this tradition needs to be revisited to include the most vulnerable Addressing this problem will have concrete repercussions in law and policy because many issues that people with disabilities face are connected to deeply rooted assumptions about their status as full citizens or full members of our moral political and legal communities

Feminist Interpretations of Ludwig Wittgenstein Naomi Scheman, Peg O'Connor, 2010-11-01 The original essays in this volume while written from diverse perspectives share the common aim of building a constructive dialogue between two currents in philosophy that seem not readily allied Wittgenstein who urges us to bring our words back home to their ordinary uses recognizing that it is our agreements in judgments and forms of life that ground intelligibility and feminist theory whose task is to articulate a radical critique of what we say to disrupt precisely those taken for granted agreements in judgments

and forms of life Wittgenstein and feminist theorists are alike however in being unwilling or unable to make sense in the terms of the traditions from which they come needing to rely on other means including telling stories about everyday life to change our ideas of what sense is and of what it is to make it For both appeal to grounding is problematic but the presumed groundedness of particular judgments remains an unavoidable feature of discourse and as such in need of understanding For feminist theory Wittgenstein suggests responses to the immobilizing tugs between modernist modes of theorizing and postmodern challenges to them For Wittgenstein feminist theory suggests responses to those who would turn him into the normal philosopher he dreaded becoming one who offers perhaps unorthodox solutions to recognizable philosophical problems In addition to an introductory essay by Naomi Scheman the volume s twenty chapters are grouped in sections titled The Subject of Philosophy and the Philosophical Subject Wittgensteinian Feminist Philosophy Contrasting Visions Drawing Boundaries Categories and Kinds Being Human Agents and Subjects and Feminism s Allies New Players New Games These essays give us ways of understanding Wittgenstein and feminist theory that make the alliance a mutually fruitful one even as they bring to their readings of Wittgenstein an explicitly historical and political perspective that is at best implicit in his work The recent salutary turn in analytic philosophy toward taking history seriously has shown how the apparently timeless problems of supposedly generic subjects arose out of historically specific circumstances These essays shed light on the task of feminist theorists along with postcolonial queer and critical race theorists to in Wittgenstein s words rotate the axis of our examination around whatever real need s might emerge through the struggles of modernity s Others Contributors besides the editors are Nancy E Baker Nalini Bhushan Jane Braaten Judith Bradford Sandra W Churchill Daniel Cohen Tim Craker Alice Crary Susan Hekman Cressida J Heyes Sarah Lucia Hoagland Christine M Koggel Bruce Krajewski Wendy Lynne Lee Hilda Lindemann Nelson Deborah Orr Rupert Read Phyllis Rooney and Janet Farrell Smith

Disorientation and Moral Life Ami Harbin,2016-04-01 This book is a philosophical exploration of disorientation and its significance for action Disorientations are human experiences of losing one s bearings such that life is disrupted and it is not clear how to go on In the face of life experiences like trauma grief illness migration education queer identification and consciousness raising individuals can be deeply disoriented These and other disorientations are not rare Although disorientations can be common and powerful parts of individuals lives they remain uncharacterized by Western philosophers and overlooked by ethicists Disorientations can paralyze overwhelm embitter and misdirect moral agents and moral philosophy and motivational psychology have important insights to offer into why this is More perplexing are the ways disorientations may prompt improved moral action Ami Harbin draws on first person accounts philosophical texts and qualitative and quantitative research to show that in some cases of disorientation individuals gain new forms of awareness of political complexity and social norms and new habits of relating to others and an unpredictable moral landscape She then argues for the moral and political promise of these gains A major contention of the book is that disorientations have non revolutionary effects they can help us act without first helping us resolve what to do In exploring these possibilities *Disorientation and Moral Life* contributes to philosophy of emotions moral philosophy and political thought from a distinctly feminist perspective It makes the case for seeing disorientations as having the power to motivate profound and long term shifts in moral and political action A feminist re envisioning of moral psychology provides the framework for understanding how they do so
