

Diverse Perspectives on Justice

Justice has taken on new meanings as a result of this. The following are particularly significant among them: The communitarian perspective, the liberal perspective, the libertarian perspective, the Marxist perspective, the democratic-socialist perspective, the anarchist perspective, the feminist perspective, and the subaltern perspective. Understanding these viewpoints will go a long way toward assisting us in comprehending the intricacy of the issue.

Liberal perspective

The main issue with justice, according to a liberal perspective, is liberty. It strives to incorporate the ideas of equality and fraternity in the larger context of liberty since it is especially concerned with substantive liberty. The main embodiment of this viewpoint is Rawls' Theory of Justice.

THEORY OF JUSTICE BY RAWLS

In his renowned book *A Theory of Justice* (1971), contemporary American philosopher John Rawls (1921-2002) noted that a decent society is defined by a number of characteristics. A good society's first virtue is justice. In other words, fairness is a prerequisite for a decent society but it is not sufficient in and of itself. Those who contend that justice shouldn't stand in the way of social growth and advancement run the risk of morally degrading society.

Issue with Distribution

To provide a fair distribution of "basic goods," such as rights and liberties, powers and opportunities, money and wealth, means of self-respect, and so forth, is the goal of justice, in Rawls' view. According to Rawls, his theory is a pure procedural justice theory. It indicates that once a set of justice principles has gained universal acceptance, the distribution that results from its

Handbook of Moral Motivation Karin Heinrichs, Fritz Oser, Terence Lovat, 2013-06-12 The Handbook of Moral Motivation offers a contemporary and comprehensive appraisal of the age old question about motivation to do the good and to prevent the bad From a research point of view this question remains open even though we present here a rich collection of new ideas and data Two sources helped the editors to frame the chapters first they looked at an overwhelmingly fruitful research tradition on motivation in general attribution theory performance theory self determination theory etc in relationship to morality The second source refers to the tension between moral judgment feelings beliefs and the real moral act in a twofold manner a as a necessary duty and b as a social but not necessary bond In addition the handbook utilizes the latest research from a wide range of disciplinary perspectives wishing to suggest by this that the answer to the posed question will likely not come from one discipline alone Furthermore our hope is that the implicit criticism that the narrowly constructed research approach of the recent past has contributed to closing off rather than opening up interdisciplinary lines of research becomes in this volume a strong counter discourse The editors and authors of the handbook commend the research contained within in the hope that it will contribute to better understanding of humanity

as an inherently moral species **Justice in Islam** Ramon Harvey, Daniel Tutt, 2023-01-01 From its roots in the Qur'an and the life of the Prophet Muhammad (p.b.u.h) to its branches in contemporary political and social movements Islam has always been concerned with the question of social justice. The promise of a just order on earth has motivated both the reflections of the community of scholars and the actions of Muslims who have striven to realize it within their societies. Despite the disappointments that history has often delivered the hope for justice remains undimmed as does the struggle to achieve it today. This concise volume focuses on some of the ways that the theme of justice is explored in emerging currents of Islamic thought. Chapters discuss new theological and ethical proposals in the light of contemporary philosophical developments, ideas of gender justice that provoke a reformist challenge to the received tradition and regional contexts such as Turkey, Iran and Japan in which the question of Islam's relationship to justice is sharpened by the particularities of history and locale. The contributions to this collection raise the prospect that if justice can be imagined more perfectly as an Islamic ideal perhaps it can be brought into reality **Irm Introduction to Criminal Justice** Siegel, 2004-03 **Imagining Justice** John Crank, 2014-09-25 *Imagining Justice* seeks to move away from normative thinking about justice, particularly in the area of justice education, suggesting that what is needed today is a way to think about the enterprise of justice that will capture its full potential. By providing an introduction to the intellectual potential of the field of justice, we can acknowledge that the field is wider than formerly recognized and ultimately imagine the full richness that justice can encompass *Introduction to Criminal Justice* Joseph J. Senna, Larry J. Siegel, 1990 *Psychological Perspective on Affirmative Action* Dennis Doverspike, Mary Anne Taylor, Winfred Arthur, 2006 What does psychology have to do with affirmative action? In the author's opinion, questioning the relevance of psychology to an issue such as affirmative action is unfortunately not an uncommon query even among many people within the field of psychology. When most people both within and outside the field make an association between psychology and affirmative action, it is in terms of the debate over racial differences in performance on intelligence tests. Thus the decision to write this book was based upon what was seen as a need to demonstrate and highlight the substantive contribution that psychology can make in terms of improving our understanding of why it is that people respond to affirmative action with a variety of reactions and emotions. The primary goal of this book is to discuss empirical research and theoretical work on affirmative action from a psychological perspective. The intended audience is academics, including undergraduate and graduate students and social science researchers **The Routledge International Handbook of Multidisciplinary Perspectives on Character Development, Volume I** Michael D. Matthews, Richard M. Lerner, 2024-03-29 Drawing from philosophy, religion, biology, behavioral and social sciences and the arts, *The Routledge International Handbooks of Multidisciplinary Perspectives on Character Development Volumes I and II* present cutting-edge scholarship about the concept of character across the life span, the developmental and contextual bases of character, and the key organizations of societal sectors within and across nations that promote character development in individuals, families,

and communities This first volume Conceptualizing and Defining Character explores the foundations of the field by providing an array of interdisciplinary approaches to character development including economics education law literature military science philosophy and many more With contributions from international experts Volume I brings together cutting edge research and discusses instances of character development including civic character courage fairness forgiveness gratitude morality tolerance and thankfulness This comprehensive publication is an essential reference for researchers and graduate students in behavioral sciences biology philosophy theology and economics as well as practitioners leading or evaluating character education or character development programs around the world Find Volume II Moderators Threats and Contexts here www.routledge.com/9781032172453 *JUSTICE AND HUMAN DIGNITY IN AFRICA* GMT EMEZUE, INGE

Affirmative Action and Justice Michel Rosenfeld, 1991-01-01 A comprehensive discussion of both the interpretive and critical issues central to the question of whether affirmative action programs are constitutional Michel Rosenfeld presents a new theory that strongly defends the justice of affirmative action from the standpoint of both philosophy and constitutional law
