Harvey, 1972-12-15 Perspectives on Modernization is published in memory of Ian Weinberg a sociologist of brilliant promise who died at the age of thirty It consists of essays by his colleagues students and teachers which reflect upon and carry further Ian Weinberg's major scholarly concerns the processes of industrialization and modernization of societies The book begins with an essay by Ian Weinberg which was presented at the annual meeting of the American Sociological Association 1968 It is followed by a paper of wide scope and interest Wilbert E Moore's Normative Conflict in Stages of Cultural Change Noting that the study of rapid social change can no longer be confined to the so called modernizing countries Moore argues that comparable normative conflicts occur at comparable stages of cultural change Rainer C Baum and Charles Tilly are concerned with the serious gaps in the theory of modernization and politics Baum is specifically concerned with developing a political analogue to the theory of economic development Tilly concentrates on a longitudinal study of the relationship between modernization and collective political conflicts S D Clark writes of patterns of urban growth looking at two exceptions to the well studied outward movement of immigrants in Canadian cities Edward Shorter studies the modernization of sexual attitudes by analysing illegitimacy The last three papers approach modernization through economic changes and development H Nishio analyses the relationships between political control and economic development in Japan over two centuries Stanely R Barrett studies the transition of the economy in a Nigerian utopian community from communalism to partial private enterprise and L R Marsden E B Harvey and J Bulcock explore the relationship of literacy and economic development in thirty nine African countries The volume includes an introduction by the editor and an outline of Ian Weinberg's short but brilliant career These essays are like the work of the man they seek to honour wide ranging and intellectually provocative in their approach to a complex question The volume is a fitting tribute to both the man and the spirit of intellectual vitality to which he was committed Perspectives on Modernization Edward B. Harvey, 1972 Cover Contents CONTRIBUTORS PREFACE INTRODUCTION The concept of modernization an unfinished chapter in sociological

theory Typical normative conflicts in stages of cultural change On political modernity stratification and the generation of societal power The modernization of political conflict in France Rural migration and patterns of urban growth Sexual change and illegitimacy the European experience Political centralism and economic consequences an analysis of early Japanese modernization Crisis and change in a West African utopia **Mandarins of the Future** Nils Gilman,2004-12-01 Because it provided the dominant framework for development of poor postcolonial countries modernization theory ranks among the most important constructs of twentieth century social science In *Mandarins of the Future* Modernization Theory in Cold War America Nils Gilman offers the first intellectual history of a movement that has had far reaching and often unintended consequences After a survey of the theory's origins and its role in forming America's postwar sense of global mission Gilman offers a close analysis of the people who did the most to promote it in the United States and the academic institutions they came to dominate He first explains how Talcott Parsons at Harvard constructed a social theory that challenged the prevailing economics centered understanding of the modernization process then describes the work of Edward Shils and Gabriel Almond in helping Parsonsian ideas triumph over other alternative conceptions of the development process and finally discusses the role of Walt Rostow and his colleagues at M I T in promoting modernization theory during the Kennedy and Johnson administrations By connecting modernization theory to the welfare state liberalism programs of the New Deal order Gilman not only provides a new intellectual context for America's Third World during the Cold War but also connects the optimism of the Great Society to the notion that American power and good intentions could stop the postcolonial world from embracing communism **Tradition, Conflict, and Modernization** Richard Maxwell Brown,Don E.

Fehrenbacher,2013-10-22 *Tradition Conflict and Modernization* Perspectives on the American Revolution aims to expand knowledge on the intellectual character of the Revolution its relation to the trend of modernization and its standing as a manifestation of social conflict The book discusses the American revolution in national tradition the collective action in England and America in 1765 1775 and back country rebellions and the homestead ethic in America in 1740 1799 The text also describes the perspective of modernization related to the American revolution modernization and human Historians will find the book invaluable **Differentiation Theory and Social Change** Jeffrey C. Alexander,Paul Burbank Colomy,1990

The Routledge Handbook of Comparative Global Urban Studies Patrick Le Galès,Jennifer Robinson,2023-09-18 The Routledge Handbook of Comparative Global Urban Studies is a timely intervention into the field of global urban studies coming as comparison is being more widely used as a method for global urban studies and as a number of methodological experiments and comparative research projects are being brought to fruition It consolidates and takes forward an emerging field within urban studies and makes a positive and constructive intervention into a lively arena of current debate in urban theory Comparative urbanism injects a welcome sense of methodological rigor and a commitment to careful evaluation of claims across different contexts which will enhance current debates in the field Drawing together more than 50 international

scholars and practitioners this book offers an overview of key ideas and practices in the field and extends current thinking and practice The book is primarily intended for scholars and graduate students for whom it will provide an invaluable and up to date guide to current thinking across the range of disciplines which converge in the study of urbanism including geography sociology political studies planning and urban studies **Syria's Kurds** Jordi Tejel,2008-08-29 Jordi Tejel presents combining different disciplines such as history sociology and anthropology a new understanding of the dynamics leading to the consolidation of a Kurdish minority awareness in contemporary Syria The book explores in particular how conditions for a change in ethnic strategy from one of dissimulation to one of visibility have emerged amongst Syria s Kurds

Political Violence, Crises and Revolutions (Routledge Revivals) Ekkart Zimmermann,2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violenceCrisesMilitary Coups D tatRevolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and correspondi Civilization, Nation and Modernity in East Asia Zhiyu Shi,2012 This book explores the crisis of cultural identity which has assaulted Asian countries since Western countries began to have a profound impact on Asia in the nineteenth century Confronted by Western civilization and by modernity Asian countries have been compelled to rethink their identity and to consider how they should relate to Western civilization and modernity The result the author argues has been a redefining by Asian countries of their own character as nations and an adaptation of civilization and modernity to their own special conditions Asian nations the author contends have thereby engaged with the West and with modernity but on their own terms occasionally and in various inconsistent ways in which they could assert a sense of difference forcing changes in the Western concept of civilization Drawing on postmodern theory the Kyoto School Confucian and other traditional Asian thought and the actual experiences of Asian countries especially China and Japan the author demonstrates that Asian countries redefining of the concept of civilization in the course of their quest for an appropriate postmodern national identity is every bit as key a part of the rise of Asia as economic growth or greater international political activity Civilization, Nation and Modernity in East Asia Chih-Yu Shih,2012-06-25 This book explores the crisis of cultural identity which has assaulted Asian countries since Western countries began to have a profound impact on Asia in the nineteenth century Confronted by Western civilization and by modernity Asian countries have been compelled to rethink their identity and to consider how they should relate to Western civilization and modernity The result the author argues has been a redefining by Asian countries of their own character as nations and an adaptation of civilization and modernity to their own special conditions Asian nations the author contends have thereby engaged with the West and with modernity but on their own terms occasionally and in various inconsistent ways in which they could assert a sense of difference forcing changes in the Western concept of civilization Drawing on

postmodern theory the Kyoto School Confucian and other traditional Asian thought and the actual experiences of Asian countries especially China and Japan the author demonstrates that Asian countries redefining of the concept of civilization in the course of their quest for an appropriate postmodern national identity is every bit as key a part of the rise of Asia as economic growth or greater international political activity *Political Violence and Kurds in Turkey* Mehmet

Orhan,2015-10-16 The Kurdish conflict is an acknowledged long standing issue in the Middle East and the emergence of radical Kurdish nationalist movements in the 20th century played a decisive role in the evolution of political violence *Political Violence and Kurds in Turkey* examines how this political violence impacts Kurds in contemporary Turkey and explores the circumstances that move human beings to violent acts It looks at the forms political violence takes and in which times and spaces it occurs as well as the roles played by micro and macro factors It takes a theoretical approach to violence as both producer and product of interrelations between many actors and contextualises this with studies of violence in Kurdish villages and towns The book evaluates the three levels at which political violence operates between the state and Kurdish movements among Kurdish groups and between Kurdish political organizations and Kurdish society and divides it into its different aspects and processes fragmentation segmentation signifying intra ethnic struggles between Kurdish actors mobilization the course leading the Kurdish movement to armed conflict participation the use of violence by individuals and repertoires the forms taken by political violence Offering an in depth analysis of the dynamics behind political violence and its use amongst Kurds in Turkey this book will be a key resource for students and scholars of Middle Eastern Kurdish Studies and Conflict Studies and offers new understanding and approaches to the study of political violence **French Peasants in Revolt** Ted W. Margadant,2012-09-03 The triumphant rise of Louis Napoleon Bonaparte over his Republican opponents has

been the central theme of most narrative accounts of mid nineteenth century France while resistance to the coup d tat generally has been neglected By placing the insurrection of December 1851 in a broad perspective of socioeconomic and political development Ted Margadant displays its full significance as a turning point in modern French history He argues that as the first expression of a new form of political participation on the part of the peasants resistance to the coup was of greater importance than previously supposed Furthermore it provides an appropriate testing ground for more general theories of peasant movements and popular revolts Using manuscript materials in French national and departmental archives that cover all the major areas of revolt the author examines the insurrection in depth on a national scale After a brief discussion of the main characteristics of the insurrection he analyzes its economic and social foundations the dialectic of repression and conspiracy that fostered the political crisis and the armed mobilizations violence and massive arrests that exploded as the result A final chapter considers the implications of the insurrection for larger issues in the social and political history of modern France **Regarding Tilly** María J. Funes,2016-10-17 Studying Charles Tilly 1929 2008 American sociologist historian and political scientist is essential for understanding political change and social conflict His research

focuses on how grassroots populations through different forms of collective action influence historical events by trying to improve the conditions of people's lives. This book is not only an homage to Tilly but is also aimed at understanding and applying his thought. In each chapter, the authors, experts on Tilly's work, examine his concepts, theories, and methodological contributions, providing a richer understanding of them. In addition, this book is very contemporary. From the beginning of this century, mainly from 2011, important popular mobilizations such as the Arab Spring and 15 M or los indignados, the indignant movement in Spain, gradually spread to other countries: the US, Yemen, Israel, etc. In successive Occupy movements, the political mobilization of the grassroots movements are undergoing a resurgence, a process that Tilly would have wanted to study. This book can be a good guide for analyzing and understanding these movements. *Exiles of Erin Lynn Hollen Lees*, 1979. Non-Violence and the French Revolution Micah Alpaugh, 2015. Challenging scholarly emphasis on French Revolutionary violence, this book instead examines the prevalence of peaceful democratic methods in Parisian protest.

China Transformed R. Bin Wong, 2018-10-18. The assumption still made in much social science research that Europe provides a universal model of development is fundamentally mistaken, according to R. Bin Wong. The solution is not, however, simply to reject Eurocentric norms but to build complementary perspectives such as a Sinocentric one to evaluate current understandings of European developments. A genuinely comparative perspective, he argues, will free China from wrong expectations and will allow those working on European problems to recognize the distinct character of Western development.
