Perspectives On Loss And Trauma Assaults On The Self:

Perspectives on Loss and Trauma John H. Harvey, 2002 Taking a broad perspective the book reviews theory and research on loss and trauma as a result of the death of close friends and family divorce unemployment homelessness war and violence and genocide and discusses relevant therapy approaches for coping with major loss Loss, Grief, and Trauma in the Workplace Neil Thompson, Dale Lund, 2017-07-12 The workplace is not immune to the problems pressures and challenges presented by experiences of loss and trauma and the grief reactions they produce This clearly written well crafted book offers important insights and understanding to help us appreciate the difficulties involved and prepare ourselves for dealing with such demanding situations when they arise People's experiences of loss and trauma are of course not left at the factory gate or the office door Nor are loss and traumatic events absent from the workplace itself Loss grief and trauma are very much a part of life and that includes working life Executives managers human resource professionals and employee assistance staff need to have at least a basic understanding of how loss grief and trauma affect people in the workplace This book provides that foundation of understanding and offers guidance on how to find out more about these vitally important workplace issues The text provides a valuable blend of theory and practice that will be of interest to those involved in management human resources and organizational studies as well as those interested in the social scientific study of loss grief and trauma and of course to those involved in the helping professions It is essential reading for anyone concerned with making the workplace a more humane and effective environment or anyone wishing to develop an understanding of the complexities of loss grief and trauma in our lives Handbook of Traumatic Loss Neil Thompson, Gerry R. Cox, Robert G. Stevenson, 2017-01-06 The Handbook of Traumatic Loss adopts a broad holistic approach that recognizes traumatic loss much more fully as a multidimensional human phenomenon not simply a medical condition Initial chapters build a foundation for understanding traumatic loss and explore the many ways we respond to trauma Later chapters counterbalance the individualistic focus of dominant approaches to traumatic loss by highlighting a number of thought provoking social dimensions of traumatic loss Each chapter emphasizes different aspects of traumatic loss and argues for ways in which clinicians can help deal with its many and varied impacts On the move Aitor Ibarrola-Armendariz, Jon Ortiz de Urbina Arruabarrena, 2016-07-29 This volume brings together a selection of the papers and round tables delivered at the 39th AEDEAN Conference held at the University of Deusto in November 2015 The essays in On the Move Glancing Backwards to Build a Future in English Studies often begin with typically academic gestures such as retrieving a classic text and finding new ways of studying its genre or characterization or remarking how certain ungrammatical constructions have gone frequently unnoticed even in well known texts for various reasons or entangling oneself in contentions about the adequacy of dissecting a literary text or linguistic problem by using innovative analytical tools In all cases though there is the intention of putting forth certain views and notions that will help future scholars to deal in a better light with the dilemmas regularly

encountered in literary linguistic and cultural studies The book opens with three essays by professors Bartholomae Pullum and R o who demonstrate not only their mastery in their respective subjects but also their ability to tailor their contents to multifarious audiences. The next two sections represent the main body of the e book with nearly forty contributions on both literature and cultural studies Part II and language and linguistics Part III These short academic pieces are a representative showcase of the research being done lately in the different areas of expertise The last section of the volume gathers together the results of four research projects dealing with such engaging topics as postcolonial crime fiction or forgotten texts by Anglo writers about the Spanish Civil War It is hard to think of any potential reader schooled in English Studies who will not find something suitable to their interests and tastes in this volume **Responding to Loss** Adolf Hansen, 2020-11-25 Reading this book caregivers will find ways to increase their effectiveness by understanding more fully what their care receivers are experiencing by finding creative ways to assist them in processing what is happening and by working with them to discern responses to loss that are emotionally healthy intellectually coherent spiritually genuine culturally sensitive relationally authentic and personally fulfilling **Understanding Loss** Judith Murray, 2015-09-16 Loss and consequent grief permeates nearly every life changing event from death to health concerns to dislocation to relationship breakdown to betrayal to natural disaster to faith issues Yet while we know about particular events of loss independently we know very little about a psychology of loss that draws many adversities together This universal experience of loss as a concept in its own right sheds light on so much of the work we do in the care of others This book develops a new overarching framework to understand loss and grief taking into account both pathological and wellbeing approaches to the subject Drawing on international and cross disciplinary research Judith Murray highlights nine common themes of loss helping us to understand how it is experienced. These themes are then used to develop a practice framework for structuring assessment and intervention systematically Throughout the book this generic approach is highlighted through discussing its use in different loss events such as bereavement trauma chronic illness and with children or older people Having been used in areas as diverse as child protection palliative care and refugee care the framework can be tailored to a range of needs and levels of care Caring for people experiencing loss is an integral part of the work of helping professions whether it is explicitly part of their work such as in counselling or implicit as in social work nursing teaching medicine and community work This text is an important guide for anyone working in these areas Handbook of Posttraumatic Growth Lawrence G. Calhoun, Richard G. Tedeschi, 2014-07-10 Posttraumatic growth is an area in which investigations are now being undertaken in many different parts of the world The view that individuals can be changed sometimes in radically good ways by their struggle with trauma is ancient and widespread However the systematic focus by scholars and clinicians on the possibilities for growth from the struggle with crisis is relatively recent There are now a growing number of studies and scholarly papers on the antecedents correlates and consequences of posttraumatic growth and there are also theoretical models that can help guide the research

further It is clear however that this phenomenon is not yet well understood The Handbook of Posttraumatic Growth Research and Practice provides both clinicians and researchers with a comprehensive and up to date view of what has been done so far In addition it uses the foundations of what has been done to provide suggestions for the next useful steps to take in understanding posttraumatic growth The book offers contributions of important and influential scholars representing a wide array of perspectives of posttraumatic growth This volume serves as an impetus for additional work both in the academic aspects and in the possibilities for clinical applications of posttraumatic growth This Handbook will appeal to students practitioners and researchers working in a broad array of disciplines and human services The Evolution of Coanitive Behavior Therapy Donald Meichenbaum, 2017-02-17 The Evolution of Cognitive Behavior Therapy A Personal and Professional Journey with Don Meichenbaum explores the untold story of how Cognitive Behavior Therapy emerged and discusses the controversies encountered along the way This volume will feature a personal account of Don Meichenbaum s contributions from his initial work on self instructional training with schizophrenics and impulsive children through his work on stress inoculation training and his most recent works with traumatized individuals These previously published papers are complemented with updated papers and accompanying commentary Trauma, Recovery, and Growth Stephen Joseph, P. Alex Linley, 2008-02-13 The latest theory and research on understanding posttraumatic stressand its treatment providing evidence based clinical interventions using techniques drawn from positive psychology It is known that exposure to stressful and traumatic events can have severe and chronic psychological consequences At the same time mindful of the suffering often caused by trauma there is also a growing body of evidence testifying to posttraumatic growth the positive psychological changes that can result for survivors of trauma Blending these two areas of research and exploring the relevance of positive psychology to trauma practice Trauma Recovery and Growth Positive Psychological Perspectives on Posttraumatic Stress provides clinicians with the resources they need to implement positive psychology interventions in their trauma treatment across a spectrum of therapeutic perspectives including cognitive behavioral psychodynamic humanistic existential and group therapies Featuring contributions by internationally renowned researchers and practitioners and edited by experts in the field of positive psychology who have worked with survivors of trauma in the facilitation of their resilience recovery and growth this timely book is divided into four parts Toward an Integrative Positive Psychology of Posttraumatic Experience Growth and Distress in Social Community and Interpersonal Contexts Clinical Approaches and Therapeutic Experiences of Managing Distress and Facilitating Growth Beyond the Stress Growth Distinction Issues at the Cutting Edge of Theory and Practice Trauma Recovery and Growth explores the role positive psychology can play in how clinical practitioners treat and work with survivors of stressful and traumatic events and offers an optimistic perspective in the treatment of those who suffer posttraumatic stress following devastating events such as terrorist attacks childhood sexual abuse cancer and war Problematizing Law, Rights, and Childhood in Israel/Palestine Hedi Viterbo, 2021-08-05 In this book Hedi Viterbo

radically challenges our picture of law human rights and childhood both in and beyond the Israel Palestine context He reveals how Israel rather than disregarding international law and children's rights has used them to hone and legitimize its violence against Palestinians He exposes the human rights community s complicity in this situation due to its problematic assumptions about childhood its uncritical embrace of international law and its recurring emulation of Israel s security discourse He examines how and to what effect both the state and its critics manufacture shape and weaponize the categories child and adult Bridging disciplinary divides Viterbo analyzes hundreds of previously unexamined sources many of which are not publicly available Bold sophisticated and informative Problematizing Law Rights and Childhood in Israel Palestine provides unique insights into the ever tightening relationship between law children's rights and state violence at both the local and global levels The SAGE Handbook of Social Work Mel Gray, James Midgley, Stephen A Webb, 2012-06-22 This Handbook is the world's first generic major reference work to provide an authoritative guide to the theory method and values of social work in one volume Drawn from an international field of excellence the contributors each offer a critical analysis of their individual area of expertise The result is this invaluable resource collection that not only reflects upon the condition of social work today but also looks to future developments Split into seven parts the Handbook investigates Policy dimensions Practice Perspectives Values and ethics The context of social work Research Future challenges It is essential reading for all students practitioners researchers and academics engaged in social work Attachment and Loss in the Works of James Joyce Linda Horsnell, 2021-11-04 Using John Bowlby's Attachment Theory as a frame of reference Attachment and Loss in the Works of James Joyce critically analyzes James Joyce's representation of grief Based on cognitive emotional and behavioral elements Attachment Theory allows for new and innovative readings to emerge which differ from those offered by Freudian Lacanian and Jungian paradigms Acknowledging the importance of the Theory of Mind and Reader Response this book uses the concept of internal working models to elucidate how the childhood experiences with which Joyce has endowed his protagonists ultimately leads to how they respond to loss The texts of Dubliners Portrait of the Artist and Ulysses show how central separation and loss were to Joyce s work It provides examples of such experiences in different age groups under differing circumstances and at different stages in the grief process Attachment Theory highlights the complexity of human relationships throughout the life cycle not only how they can affect the grief process but how grief affects them

Counting Our Losses Darcy L. Harris,2011-01-19 This text is a valuable resource for clinicians who work with clients dealing with non death nonfinite and ambiguous losses in their lives It explores adjustment to change transition and loss from the perspective of the latest thinking in bereavement theory and research The specific and unique aspects of different types of loss are discussed such as infertility aging chronic illnesses and degenerative conditions divorce and separation immigration adoption loss of beliefs and loss of employment Harris and the contributing authors consider these from an experiential perspective rather than a developmental one in order to focus on the key elements of each loss as it may be

experienced at any point in the lifespan Concepts related to adaptation and coping with loss such as resilience hardiness meaning making and the assumptive world transcendence and post traumatic growth are considered as part of the integration of loss into everyday life experience Women and Trauma in the Works of Margaret Atwood and Anita Desai Naadiva Yaqoob Mir, 2023-07-31 This book highlights the everyday trauma that women experience while finding themselves as victims of a deeply masculine and prejudiced milieu It details a kind of counter memory broadening readers awareness about women s trauma narratives. The works analysed here are all authored by women and have significant claims to be treated as feminist trauma fiction that is as novels that are preoccupied with a socio political analysis of women s status and that espouse social or psychological transformation The book will serve to expand the reader's awareness of trauma by engaging them with personalised means of narration that highlight the troubled ambivalence of traumatic memory and warn us that trauma gets reproduced if left unattended For both Margaret Atwood and Anita Desai trauma emerges as a major and dominating theme in their works In spite of being culturally separate both Atwood and Desai show striking similarities as far as their art of writing is concerned Death, Dying, and Bereavement Judith Stillion, Thomas Attig, 2014-11-07 Delivers the collective wisdom of foremost scholars and practitioners in the death and dying movement from its inception to the present Written by luminaries who have shaped the field this capstone book distills the collective wisdom of foremost scholars and practitioners who together have nearly a millennium of experience in the death and dying movement The book bears witness to the evolution of the movement and presents the insights of its pioneers eyewitnesses and major contributors past and present Its chapters address contemporary intellectual institutional and practice developments in thanatology hospice and palliative care funeral practice death education and caring of the dying suicidal bereaved and traumatized With a breadth and depth found in no other text on death dying and bereavement the book disseminates the thinking of prominent authors William Worden David Clark Tony Walter Robert Neimeyer Charles Corr Phyllis Silverman Betty Davies Therese A Rando Colin Murray Parkes Kenneth Doka Allan Kellehear Sandra Bertman Stephen Connor Linda Goldman Mary Vachon and others Their chapters discuss the most significant facets of early development review important current work and assess major challenges and hopes for the future in the areas of their expertise A substantial chronology of important milestones in the contemporary movement introduces the book frames the chapters to follow and provides guidance for further in depth reading The book first focuses on the interdisciplinary intellectual achievements that have formed the foundation of the field of thanatology The section on institutional innovations encompasses contributions in hospice and palliative care of the dying and their families funeral service and death education The section on practices addresses approaches to counseling and providing support for individuals families and communities on issues related to dying bereavement suicide trauma disaster and caregiving An Afterword identifies challenges and looks toward future developments that promise to sustain further enrich and strengthen the movement KEY FEATURES Distills the wisdom of pioneers in and major contributors to the

contemporary death dying and bereavement movement Includes living witness accounts of the movement s evolution and important milestones Presents the best contemporary thinking in thanatology Describes contemporary institutional developments in hospice and palliative care funeral practice and death education Illuminates best practices in care of the dying suicidal bereaved and traumatized Cognitive Grief Therapy Ruth Malkinson, 2007 Knowledge skills and intervention strategies for the treatment of individuals couples and families who have experienced a loss through death of Research in the Social Scientific Study of Religion Ralph L. Piedmont, Andrew Village, 2010-07-12 This volume includes a section on spirituality and hope that brings together theoreticists and practitioners who present original research on this important topic Alongside this section are papers presenting studies on civic participation suffering with God and spirituality Trauma and Resilience Among Child Soldiers Around the World Patricia Kerig, Cecilia Wainryb, 2017-12-22 It is estimated that approximately 300 000 children actively serve in various kinds of military groups around the world Some of these children are forcibly conscripted through abduction or threats of violence to themselves or their families others are coerced or manipulated into joining and still others are more subtly compelled by circumstances that lead choosing to enlist to represent the lesser of the evils life has placed before them No matter how they come to serve in war however child soldiers are exposed to subjected to and often forced to perpetrate horrors that meet or exceed our diagnostic criteria for trauma exposure This volume brings together leading investigators in the field to share new research regarding the traumatic impact of child soldiering from diverse international contexts including Burundi Colombia Liberia Mozambique Nepal Sierra Leone Uganda and provocatively among gang involved youth in the United States Contributions include data from longitudinal studies following former child soldiers into adulthood as well as investigations of the intergenerational impact of childhood conscription on former child combatants own children In addition research presented in this volume uncovers sources of resilience among these youth and details efforts to bring trauma informed intervention and rehabilitation programs to these war torn regions This book was originally published as a special issue of the Journal of Aggression Maltreatment and Trauma Encyclopedia of Trauma Charles R. Figley, 2012-09-17 This timely and authoritative two volume set includes hundreds of signed entries by experts in the field of traumatology exploring traditional subjects as well as emerging ideas as well as providing further resources for study and exploration **Holocaust Theater** Gene A. Plunka, 2017-12-22 Facts about the Holocaust are one way of learning about its devastating impact but presenting personal manifestations of trauma can be more effective than citing statistics Holocaust Theater addresses a selection of contemporary plays about the Holocaust examining how collective and individual trauma is represented in dramatic texts and considering the ways in which spectators might be swayed viscerally intellectually and emotionally by witnessing such representations onstage Drawing on interviews with a number of the playwrights alongside psychoanalytic studies of survivor trauma this volume seeks to foster understanding of the traumatic effects of the Holocaust on subsequent generations

Holocaust Theater offers a vital account of theater s capacity to represent the effects of Holocaust trauma
