Perspectives on the World Christian Movement Steven C. Hawthorne, 1999

Social-Cultural Anthropology George Allan Phiri, 2009-09-01 Effective communication with the African society in the field of missions church planting and social development work has been and continues to be a great challenge particularly to people from western cultural and language orientation Africans are a we rather than I and a depended on rather than independent of society The worldview of a traditional African in terms of society relationships and communication is communal Certainly the African perception of communalism affects how they communicate with the people of different cultural orientation Africa has several cultures and people differ in their

communication depending on their cultural orientation However there are universal African cultures that act as a framework for understanding key aspects of communication with Africans for successful missions church planting and social development work This book therefore provides a strategy of understanding communication with the African society The discussions in this book provide readers with different cultural orientations unique perception of the African society as s he may be planning to communicate with the African society for missions church planting and social development work even doing humanitarian ministry in African society Although literacy levels have improved tremendously in most African countries most of Africa is not a reading society It is imperative to understand that most Africans still communicate orally and are not time conscious Hence effective communication in African societies ought to be based on storytelling rather than literature distribution although this is in transition In fact Africans are oratory and good listeners Thus this book provides an understanding to people of different cultural orientations when they plan to communicate with the people in Africa

Spirit-Filled World Allan Heaton Anderson,2018-02-16 This book is about African Pentecostalism and its relationship to religious beliefs about a pervading spirit world It argues that Pentecostalism keeps both a continuous and a discontinuous relationship in tension Based on field research in a South African township including qualitative interviews and focus group discussions the study explores the

context of African Pentecostalism as a whole and how it interacts with the concepts of ancestors divination and various types of spirit Themes discussed include the reasons for the popularity of healing exorcism the prosperity gospel the experience of the Holy Spirit Spirit manifestations and practices resembling both traditional and biblical precedents as well as scholarly discussions on African Pentecostalism from theological and social scientific disciplines The book suggests that the focus on a spirit filled world affects all kinds of events and explains the rapid growth of Pentecostalism outside the western world
