**Perspectives on Travel Writing** Glenn Hooper, 2017-05-15 Ranging from the early modern to the postcolonial and dealing mainly with encounters in Europe the Americas and the Middle East *Perspectives on Travel Writing* is a collection of new essays by international scholars that examines some of the various contexts of travel writing as well as its generic characteristics Contributions examine the similarities between autobiography and memoir fiction and travel writing and attempt to define travel writing as a genre Utilising a variety of approaches the essays display a shared concern with what travel writing does and how it does it The effects of encounter and border crossing on gender race and national identity are considered throughout The collection begins with a review of some of the problems and issues facing the scholar of travel writing and moves on to a detailed discussion of the qualities of travel writing and its related forms It then presents in chronological order a number of case studies before closing with a critical discussion of approaches to the subject An essay collection with broad historical and geographical coverage this volume should appeal to students and researchers of travel and travel related literatures from across the Humanities

**Traveling South** John David Cox, 2010-04-15 *Traveling South* is the first major study of how narratives of travel through the antebellum South helped construct an American national identity during the years between the Revolutionary War and the Civil War John Cox makes his case on the basis of a broad range of texts that includes slave narratives domestic literature and soldiers diaries as well as more traditional forms of travel writing In the process he extends the boundaries of travel literature both as a genre and as a subject of academic study The writers of these intranational accounts struggled with the significance of travel through a region that was both America and other In writings by J Hector St John de Crvecoeur and William Bartram for example the narrators create personal identities and express their Americanness through travel that Cox argues becomes a defining aspect of the young nation In the narratives of Frederick Douglass and Solomon Northup the complex relationship between travel and slavery highlights contemporary debates over the meaning of space and movement Both Fanny Kemble and Harriet Jacobs explore the intimate linkings of women s travel and the construction of an ideal domestic space whereas Frederick Law Olmsted seeks through his travel writing to reform the southern economy and expand a New England yeoman ideology throughout the nation The Civil War diaries of Union soldiers written during the years that witnessed the largest movement of travelers through the South echo earlier themes while concluding that the South should not be transformed in order to become sufficiently American rather it was and should remain a part of the American nation regardless of perceived differences

**Not So Innocent Abroad** Ulrike Brissin, Bernard Schweizer, 2009-10-02 With its specific focus on the connections between politics travel and travel writing *Not So Innocent Abroad* offers a fresh approach to the study of travel literature The authors make clear that travel and travel writing are never an innocent enterprise rather journeying always occurs within political systems and travel writing either reflects the traveler s political stance includes political aspects of foreign cultures or directly or indirectly

influences political decisions In contrast to most scholarly publications that primarily focus on travel literature of former colonial nations this volume includes a broader range of travelogues depicting cultures worldwide spanning from the eighteenth to the twenty first century It thus offers with its comparative approach not only a geographically wide selection but also an historical dimension to the political aspects of travel writing Although most travel literature generally has followed the Horatian principle to instruct and delight the armchair traveler the authors of this volume clearly address the broader political implications of travel and travel writing within networks of naked politics such as international or interior conflicts emigration laws or national propaganda They also reveal how insidiously political messages are dissimulated through travel writing

Perspectives on Travel Writing Glenn Hooper,Tim Youngs,2004 Ranging from the early modern to the postcolonial and dealing mainly with encounters in Europe the Americas and the Middle East Perspectives on Travel Writing is a collection of new essays by international scholars that examines some of the various contexts of travel writing as well as its generic characteristics Contributions examine the similarities between autobiography and memoir fiction and travel writing and attempt to define travel writing as a genre Utilising a variety of approaches the essays display a shared concern with what travel writing does and how it does it The effects of encounter and border crossing on gender race and national identity are considered throughout The collection begins with a review of some of the problems and issues facing the scholar of travel writing and moves on to a detailed discussion of the qualities of travel writing and its related forms It then presents in chronological order a number of case studies before closing with a critical discussion of approaches to the subject An essay collection with broad historical and geographical coverage this volume should appeal to students and researchers of travel and travel related literatures from across the Humanities

**Forthcoming Books** Rose Arny,2004 Postcolonial Transitions in Europe Sandra Ponzanesi,Gianmaria Colpani,2015-12-14 Is the notion of postcolonial Europe an oxymoron How do colonial pasts inform the emergence of new subjectivities and political frontiers in contemporary Europe Postcolonial Transitions in Europe explores these questions from different theoretical geopolitical and media perspectives Drawing from the interdisciplinary tools of postcolonial critique this book contests the idea that Europe developed within clear cut geographical boundaries It examines how experiences of colonialism and imperialism continue to be constitutive of the European space and of the very idea of Europe By approaching Europe as a complex political space the chapters investigate topical concerns around its politics of inclusion and exclusion towards migrants asylum seekers and refugees as well as its take on internal conflicts transitions and cosmopolitan imaginaries With a foreword by Paul Gilroy

*The Global Work of Art* Caroline A. Jones,2017-06-01 Global biennials have proliferated in the contemporary art world but artists engagement with large scale international exhibitions has a much longer history that has influenced the present in important ways Going back to the earliest world s fairs in the nineteenth century this book argues that globalism was incubated in a century of international art contests and today constitutes an important tactic for artists As world s fairs brought millions of attendees

into contact with foreign cultures products and processes artworks became juxtaposed in a theater of nations which challenged artists and critics to think outside their local academies From Gustave Courbet s rebel pavilion near the official art exhibit at the 1855 French World s Fair to curator Beryl Madra s choice of London based Cypriot Hussein Chalayan for the off site Turkish pavilion at the 2006 Venice Biennale artists have used these exhibitions to reflect on contemporary art speak to their own governments back home and challenge the wider geopolitical realm changing art and art history along the way Ultimately Caroline A Jones argues the modern appetite for experience and event structures which were cultivated around the art at these earlier expositions have now come to constitute contemporary art itself producing encounters that transform the public and force us to reflect critically on the global condition

The Cambridge Companion to Postcolonial Travel Writing Robert Clarke,2018-01-11 The Cambridge Companion to Postcolonial Travel Writing offers readers an insight into the scope and range of perspectives that one encounters in this field of writing Encompassing a diverse range of texts and styles performances and forms postcolonial travel writing recounts journeys undertaken through places cultures and communities that are simultaneously living within through and after colonialism in its various guises The Companion is organized into three parts Part I Departures addresses key theoretical issues topics and themes Part II Performances examines a range of conventional and emerging travel performances and styles in postcolonial travel writing Part III Peripheries continues to shift the analysis of travel writing from the traditional focus on Eurocentric contexts This Companion provides a comprehensive overview of developments in the field appealing to students and teachers of travel writing and postcolonial studies

*Flora Tristan: Devenir Escritura, Devenir Mujer* Luz Stella Rodas Rojas,2008 **Travel Writing in an Age of Global Quarantine** Gary Fisher,David Robinson,2021-09-07 Travel Writing in an Age of Global Quarantine is an anthology of travel accounts by a diverse range of writers and academics Challenging conventional academic authority each contributor writes from memory during the Covid 19 lockdown about a place they have previously visited accompanied by an historical traveller who published an account of the same place As immobility is forced upon us at least for the immediate future we have the chance to reflect Travel Writing in an Age of Global Quarantine presents opportunities to approach a text as a scholar differently We break with the traditional academic rules by inserting ourselves into the narrative and foregrounding the personal subjective elements of literary scholarship Each contributor critiques an historical description of a place about which simultaneously they write a personal account

Chan,2006-06-01 This book features China's newly emergent transnational management culture. It uses established and new methodologies to analyze how different types of Sino foreign joint enterprises manage cultural differences between various layers of managers and employees while negotiating strategies that contain conflicts, uncertainties and frustrations. Much of the book focuses on the relations among personnel and management within Sino foreign businesses. It highlights how new elements have been introduced in the daily practices of management at the work floor and in the managerial offices specifically in relation to improving human resource development and resolving conflicts. The book also examines how these transnational firms function in the broader context of Chinese society and politics. In providing freshly researched cases and methodological studies by experienced researchers in the field, the book suggests alternative pathways toward innovative business management in China, thus making it attractive to academics and business managers alike. Yugoslavia in the British Imagination

Samuel Foster,2021-06-17 Despite Britain entering the 20th century as the dominant world power, public discourses were imbued with a cultural pessimism and rising social anxiety. Through this study, Samuel Foster explores how this changing domestic climate shaped perceptions of other cultures and Britain's relationship to them, focusing on those Balkan territories that formed the first Yugoslavia from 1918 to 1941. Yugoslavia in the British Imagination examines these connections and demonstrates how the popular image of the region's peasantry evolved from that of foreign Other to historical victim suffering at the hand of modernity's worst excesses and symbolizing Britain's perceived decline. This coincided with an emerging moralistic sense of British identity that manifested during the First World War. Consequently, Yugoslavia was legitimized as the solution to peasant victimization, and as Foster's nuanced analysis reveals, enabling Britain's imagined and self-promoted revival as civilization's moral arbiter. Drawing on a range of previously unexplored archival sources, this compelling transnational analysis is an important contribution to the study of British social history and the nature of statehood in the modern Balkans.
