The Evaluation Enterprise Jan-Eric Furubo,Nicoletta Stame,2018-06-27 Today evaluation is part of governing systems and is supported by powerful institutions It is taken for granted that evaluation leads to betterment However evaluation itself is seldom analyzed from a critical perspective In this book Jan Eric Furubo and Nicoletta Stame have assembled an international line up of distinguished experts and emerging scholars to fill this void Examining evaluation from a critical or evaluative perspective each contribution in this book offers a systematic and critical insight into the broader relationship between evaluation and society Divided into three parts the various chapters ask questions such as What are the consequences of the institutionalization of evaluation Has the professionalization of evaluators favored their action in the public interest Is the money spent on evaluation worth it Is the market of evaluation allowing real competition for the best services The answers to these questions demonstrate that the constitutive effects of the social practice of evaluation can also be the suppression of other forms of knowledge and the favoring of certain notions about societal development and political and administrative processes

The Reincarnation Sensation Norman L. Geisler, J. Yutaka Amano, 2004-06-21

One in every four Americans believes in reincarnation according to a recent Gallup poll Why does our society have such a growing preoccupation with death and past life experiences Authors Norman L Geisler and J Yutaka Amano conclude that among the reasons for the popularity and influence of reincarnation philosophy are the rapid rise of the New Age Movement and society s fascination with Eastern thought They examine cases of spontaneous past life recall and point out alternative explanations for these phenomena Ultimately The Reincarnation Sensation shows that the doctrine of reincarnation is contrary to the Bible s teaching about eternal life and incompatible with the Christian faith
