From these developmental considerations come principles of 3 modes of learning: operative, figurative, and connotative as they apply to school curricula and the achievement of classroom skills. Motivational dynamics extending from the Piagetian philosophy are examined. Classroom applications of this approach provide teachers with methods for assessing children's levels of cognitive development or analyzing curriculum materials. The Active Classroom discusses how teachers can implement Piagetian insights in running school classrooms; principles of classroom practice are derived from concepts of child growth and development.
