Too Much Fun Jesper Juul,2024-12-10 The surprising history of the Commodore 64 the best selling home computer of the 1980s the machine that taught the world that computing should be fun The Commodore 64 C64 is officially the best selling desktop computer model of all time according to The Guinness Book of World Records It was also from 1985 to 1993 the platform for which most video games were made But while it sold at least twice as many units as other home computers of its time like the Apple II ZX Spectrum or Commodore Amiga it is strangely forgotten in many computer histories In Too Much Fun Jesper Juul argues that the C64 was so popular because it was so versatile a machine developers and users would reinvent again and again over the course of 40 years First it was a serious computer next a game computer then a computer for technical brilliance graphical demos using the machine in seemingly impossible ways then a struggling competitor and finally a retro device whose limitations are now charming The C64 Juul shows has been ignored by history because it was too much fun Richly illustrated in full color this book is the first in depth examination of the C64's design and history and the first to integrate US and European histories With interviews of Commodore engineers and with its insightful look at C64 games music and software from Summer Games to International Karate to Simons BASIC Too Much Fun will appeal to those who used a Commodore 64 those interested in the history of computing and video games and computational literacy or just those who wish their technological devices would last longer *The Reader's Guide to Microcomputer Books* Michael

Nicita,Ronald Petrusha,1984 *The Big Idea* ,2011 From the Pythagorean theorem to DNA's double helix from the discovery of microscopic life forms to the theory of relativity the big ideas of science and technology shape an era's worldview Open this book grasp the newest ideas from thought leaders of today then spring off from them to move back through the past one big idea at a time Meet the people who gave birth to these ideas and those who fought against them Meet the MIT electrical engineer currently developing a way to turn on the lights cordlessly then move back through Nikola Tesla's visionary concept of the wireless transfer of energy Thomas Edison's groundbreaking work in developing a nationwide electrical grid Ben Franklin's experiments to capture electricity all the way back to ancient Greece where Thales of Miletus described static electricity as a property of naturally occurring amber Ingeniously organized and eminently browsable this richly visual volume is divided into six big sections medicine transportation communication biology chemistry and the environment Words and images that work together to explain such fascinating and elusive subjects as cloud computing sunshields to cool the Earth and self driving cars What did it take to get to these futuristic realities Then turn the page and follow a reverse chronological illustrated time line of science and technology This remarkable illustrated history tells the story of every Big Idea in our history seen through the lens of where science is taking us today and tomorrow With an irresistibly cutting edge

searchable vendor database and thousands of pages of legacy PC hardware coverage that can no longer be included in the printed book but that are invaluable to PC techs servicing older computers *Reputation Management* John Doorley, Helio Fred Garcia, 2007 Reputation Management is a how to guide for professionals and students in corporate communications that rests on the premise that corporate reputations can be measured monitored and managed In the Steps of Alan Turing: Working in the Digital Age James Lenton Alty, 2024-08-16 Computing has developed at an astonishing pace over the last 40 years and Professor Alty has been involved in most aspects from working at the bits bytes level to higher level management As a member of the Computer Board for Universities and Research Councils between 1976 81 he chaired a very influential working party on microtechnology which had a major impact both in universities and in industry One commentator wrote This report should be tattooed on the DTI s backside In 1976 he and his team were the first to recognise that the postcode was much more important than assisting the posting of letters and they pioneered its commercial use He spent a great deal of effort making computers easier to use for the average person Between 1984 and 1990 he was Executive Director of the Turing Institute for Artificial Intelligence and became very involved with artificial intelligence research around the world Between 1990 and 2000 his research team made significant improvements to critical computer interfaces in power stations and aircraft In the 1990s Professor Alty examined the techniques of musical composition and showed that they could be used in computer interfaces In 1996 he pioneered the commercial use of digital radio producing with Roberts Radio the first successful DAB Radio one of which is on display in the British Science Museum Finally in 2000 he and his team performed some important research into dyslexia which is still highly quoted even today This book provides an interesting insight into working in the digital age *Computer* Paul Atkinson, 2010-08-15 The pixelated rectangle we spend most of our day staring at in silence is not the television as many long feared but the computer the ubiquitous portal of work and personal lives At this point the computer is almost so common we don t notice it in our view It s difficult to envision that not that long ago it was a gigantic room sized structure only to be accessed by a few inspiring as much awe and respect as fear and mystery Now that the machine has decreased in size and increased in popular use the computer has become a prosaic appliance little more noted than a toaster These dramatic changes from the daunting to the ordinary are captured in Computer by design historian Paul Atkinson Here Atkinson chronicles the changes in physical design of the computer and shows how these changes in design are related to changes in popular attitude Atkinson is fascinated by how the computer has been represented and promoted in advertising For example in contrast to ads from the 1970s and 80s today s PC is very PC genderless and largely status free Computer also considers the role of the computer as a cultural touchstone as evidenced by its regular appearance in popular culture including the iconography of the space age HAL from 2001 A Space Odyssey James Bond s gadgetry and Stars War and Star Trek Computer covers many issues ignored by other histories of computing which have focused on technology and the economics involved in their production but rarely on the role of fashion in the physical design and

promotion of computers and their general reception The book will appeal to professionals and students of design and technology as well as those interested in the history of computers and how they have shaped and been shaped by our lives
