**The Medieval Christian Philosophers**

Richard Cross, 2013-11-19

The High Middle Ages were remarkable for their coherent sense of Christendom of people who belonged to a homogeneous Christian society marked by uniform rituals of birth and death and worship That uniformity which came under increasing strain as national European characteristics became more pronounced achieved perhaps its most perfect intellectual expression in the thought of the western Christian thinkers who are sometimes called scholastic theologians These philosophers produced during roughly the period 1050 1350 CE a cohesive body of work from their practice of theology as an academic discipline in the university faculties of their day Richard Cross elegant and stylish textbook designed specifically for modern day undergraduate use on medieval theology and philosophy courses offers the first focused introduction to these thinkers based on the individuals themselves and their central preoccupations The book discusses influential figures like Abelard Peter Lombard and Hugh of St Victor the use made by Aquinas of Aristotle the mystical theology of Bonaventure Robert Grosseteste s and Roger Bacon s interest in optics the complex metaphysics of Duns Scotus and the political thought of Marsilius of Padua and William of Ockham Key themes of medieval theology including famous axioms like Ockham s Razor are here made fully intelligible and transparent *Philosophy and Theology in the Middle Ages* G. R. Evans, 2003-09-02 In the ancient world being a philosopher was a practical alternative to being a christian Philosophical systems offered intellectual practical and moral codes for living By the Middle Ages however philosophy was largely though inconsistently incorporated into Christian belief From the end of the Roman Empire to the Reformation and Renaissance of the sixteenth century Christian theologians had a virtual monopoly on higher education The complex interaction between theology and philosophy which was the result of the efforts of Christian leaders and thinkers to assimilate the most sophisticated ideas of science and secular learning into their own system of thought is the subject of this book Augustine as the most widely read author in the Middle Ages is the starting point Dr Evans then discusses the classical sources in general which the medieval scholar would have had access to when he wanted to study philosophy and its theological implications Part I ends with an analysis of the problems of logic language and rhetoric In Part II the sequence of topics God cosmos man follow the outline of

the summa or systematic encyclopedia of theology which developed from the twelfth century as a text book framework Does God exist What is he like What are human beings Is there a purpose to their lives These are the great questions of philosophy and religion and the issues to which the medieval theologian addressed himself From divine simplicity to ethics and politics this book is a lively introduction to the debates and ideas of the Middle Ages      **Postmodern Christianity** John W.

Riggs,2003-04-01 John Riggs argues for a common ground between postmodernism and Christianity focusing on how this applies to issues such as reproductive rights and the ordination of women gay men and lesbians and suggest that Christianity avoid the extreme positions of either completely accommodating itself to or completely rejecting postmodern culture

**The Immanent Person of the Holy Spirit from Anselm to Lombard**

Matthew Knell, 2009-11-01 This study shows that there has not yet been any comprehensive study of the person of the Holy Spirit in the twelfth century and that such a study has something to add to concepts of twelfth century thought as well as modern debates in pneumatology The richness of debate that took place with the advent of scholasticism and its clashes with more traditional approaches to Christian study raised issues about western conceptions of the Spirit that were both grounded in scripture And The church fathers writings and thoroughly tested by reason and debate
