Population and Technological Change Ester Boserup,1981 **My Professional Life and Publications, 1929-1998**

Ester Boserup,1999 Ester Boserup s writings have had major impact over the last quarter century on the evolution of thought in anthropology demography economics and sociology about the interrelationships among economic demographic and technical change In the present booklet the author reviews seventy years of work and writing on development economics and its relation to her own experience from government planner in Denmark during the Second World War via the UN to consultant concerning today s problems of the Third World **The New Palgrave Dictionary of Economics** ,2016-05-18

The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product

Bulletin of the United States Bureau of Labor Statistics ,1984 [The Demographic Revolution in Modern Egypt](#) Warren C. Robinson,Fatma H. El-Zanaty,2006-01-01 The Demographic Revolution in Modern Egypt tells the dramatic story of Egypt s transition in the last two decades from staggeringly high to low fertility and mortality rates Scholars Warren C Robinson and Fatma H El Zanaty especially delve into the reasons for the decline in fertility including the relative success of Egypt s recent public initiatives in family planning Robinson and El Zanaty compellingly show the importance of continued demographic stability in Egypt for that nation the Middle East and indeed the world The authors point to Egypt s optimistic progress as a model for other countries facing out of control birthrates wreaking havoc with economic and social development

Brookings Papers on Economic Activity 1998 George L. Perry,Brookings,1999-02-01 For almost thirty years Brookings Papers on Economic Activity BPEA has provided academic and business economists government officials and members of the financial and business communities with timely research of current economic issues Contents include Articles Technical Progress and Co invention in Computing and in the Uses of Computers by Timothy Bresnahan and Shane Greenstein Causes and Consequences of Airline Fare Wars by Steven Morrison and Clifford Winston Pharmaceutical Innovations and Market Dynamics Tracking Effects on Price Indexes for Antidepressant Drugs by Ernst R Berndt Iain M Cockburn and Zvi Grilches Power Struggles Explaining Deregulatory Reforms in Electricity Markets by Matthew W White The Welfare Impacts of Competitive Telecommunications Supply A Household Level Analysis by Frank A Wolak [A Concise Economic History of the World](#) Rondo E. Cameron,1993 This classic book offers a broad sweep of economic history from prehistoric times to the present and explores the disparity of wealth among nations Now in its fourth edition A Concise Economic History of the World includes expanded coverage of recent developments in the European Union transition economies and East Asia **Seeking a Richer Harvest** Tina Thurston,Christopher T Fisher,2006-11-25 Subsistence intensification innovation and change have long figured prominently in explanations for the development of social complexity

among foragers and horticulturalists and the rise of chiefly societies and archaic states yet there is considerable debate over the actual mechanisms that promote these processes Traditional approaches to the intensification question emphasize population pressure climate change bureaucratic management or even land degradation as prerequisites for the onset of new or changing strategies or the construction and maintenance of agricultural landscapes Most often these factors are modeled as external forces outside the realm of human decision making but recent archaeological research presents an alternative to this suggesting that subsistence intensification is the result of human driven strategies for power prestige and status stemming from internal conditions within a group When responding to environmental adversity human groups were less frequently the victims as they have been repeatedly portrayed Instead human groups were often vigorous actors responding with resilience ingenuity and planning to flourish or survive within dynamic and sometimes unpredictable social and natural milieux

The Elgar Companion to Development Studies David Clark, 2006 If handbooks can be inspiring this is it Like a true companion it takes in its stride conversations both big and small Its entries do not just present an international and multidisciplinary mix but true to life they work on several different scales And importantly the book makes its authority evident For it is like an extended website but with all the added advantages of an encyclopaedia that actually tells you about the authors and the sources on which they have drawn The resulting compilation is highly intelligent thoughtful and above all usable Dame Marilyn Strathern University of Cambridge UK The Elgar Companion to Development Studies is a major production in the development studies field authored by a star studded cast of contributors With 136 entries covering a vast range of topics it should quickly establish itself as a leading work of reference We should all feel indebted to David Clark who has successfully brought this substantial publishing project to completion John Tye University of Oxford UK This is a most comprehensive handbook on development studies It brings together a wide varied array of carefully crafted summaries of 136 key topics in development by an international cast of well respected academics and other experts in respective areas of study The handbook is heavily interdisciplinary organically combining economic political historical social cultural institutional ethical and human aspects of development While the wide range of entries might appear as a simple glossary listing or an encyclopedic collection each of the 136 entries offers more depth and discussion than the average handbook Viewed in this light this companion is highly likely to become known as a leading reference work on the topic Highly recommended Ismael Hossein Zadeh Choice The Elgar Companion to Development Studies is an innovative and unique reference book that includes original contributions covering development economics as well as development studies broadly defined This major new Companion brings together an international panel of experts from varying backgrounds who discuss theoretical ethical and practical issues relating to economic social cultural institutional political and human aspects of development in poor countries It also includes a selection of intellectual biographies of leading development thinkers While the Companion is organised along the lines of an encyclopaedia each of its 136 entries provide more depth and discussion

than the average reference book Its entries are also extremely diverse they draw on different social science disciplines incorporate various mixes of theoretical and applied work embrace a variety of methodologies and represent different views of the world The Elgar Companion to Development Studies will therefore appeal to students scholars researchers policymakers and practitioners in the field of development as well as the interested layman *Ester Boserup's Legacy on Sustainability* Marina Fischer-Kowalski, Anette Reenberg, Anke Schaffartzik, Andreas Mayer, 2014-08-19 Arising from a scientific conference marking the 100th anniversary of her birth this book honors the life and work of the social scientist and diplomat Ester Boserup who blazed new trails in her interdisciplinary approach to development and sustainability **Africa** Catherine Coquery-Vidrovitch, 1988 Coquery Vidrovitch's book is not merely good it's marvellous It represents the finest product of the Annales tradition of structural history Immanuel Wallerstein **Area Wage Survey**, 1984 **Compendium of Urban Complexity** Diego Rybski, 2025-07-18 This book brings together key findings insights and theories at the intersection of two disciplines city science and complex systems It features a curated collection of chapters contributed by emerging scholars conducting cutting edge research in complexity science interdisciplinary physics and quantitative geography The compendium is tailored to a thematically diverse audience spanning quantitative fields such as statistical and mathematical physics as well as socially focused domains such as geography and urban planning By integrating novel methods and insights from physics economics and geography this book aims at an interdisciplinary spectrum of graduate students and academic researchers studying cities as complex systems **International Handbook of Population and Environment** Lori M. Hunter, Clark Gray, Jacques Véron, 2022-02-07 This handbook presents a timely and comprehensive overview of theory data methods and research findings that connect human population dynamics and environmental context It presents regional summaries of empirical findings on migration and environmental connections and summarizes environmental impacts of migration such as urbanization and deforestation It also offers background on the health implications of environmental conditions such as climate change natural disasters scarcity of natural resources as well as on resource scarcity and fertility gender considerations in population and environment and the connections between population size growth composition and carbon emissions This handbook helps readers to better understand the complexities within population environment connections in addition to some of the opportunities and challenges within environmental demography As such this collection is an invaluable resource for students researchers and policy analysts in the areas of demography migration fertility health and mortality as well as environmental global and development studies

Sociological Worlds Stephen K. Sanderson, 2013-10-31 This reissue of the now classic Sociological Worlds originally published in 1995 attempts to present a comprehensive picture of human social life from the perspective of the comparative historical revolution in sociology and presents some of the best theoretical and empirical work that is now being done by comparative historical sociologists as well as work by their close cousins socio cultural anthropologists From this perspective
