Jacques Derrida Peter Bornedal, 2024-01-15 This book presents a critique of Derrida from a Nietzschean perspective

Questioning the often advertised association between Nietzsche and Derrida it focuses instead on important differences and incompatibilities between Nietzsche's naturalistic paradigm and Derrida's textual paradigm Peter Bornedal argues that Nietzsche's position points us toward a pragmatic and constructionist epistemology based on a naturalist world view which was cutting edge in his days while Derrida's epistemology reduces theories of knowledge to a general textualism In short Nietzsche is not the predecessor of deconstruction or generally postmodernism that he is often portrayed to be His thinking does not advocate postmodernism's suspension of truth reason logic and understanding but rather replicates the paradigms of emerging disciplines of his day such as biology psychology cognitive science and linguistics His thinking is not playfulness for its own sake and does not defend formal transcendentalist principles such as difference The Barren Epistemology of Jacques Derrida A Critique of Deconstruction from a Nietzschean Perspective argues instead that Derrida's introduction of the supposedly novel difference logic may be analyzed as a transcendentalist validation of logical errors often addressed in earlier Western thinking in order to be avoided such as the contradiction in Aristotle or the paralogism in Kant With this critical view the work re-examines difference thinking and questions whether inconsistencies are manufactured rather than discovered in deconstructionist interpretation
