Abstract

The aim of the present research is to study the effectiveness of Kayser's disaffection model on the reduction of marital disaffection in couples. The research method is quasi-experimental with pretest, posttest and follow-up control group design. The population consisted of couples that had visited counseling center of the University of Tehran in the years 2016-2017 and were selected as couples with marital disaffection according to interview and questionnaire. Sample included 16 purposefully selected couples that were assigned to treatment and control groups randomly. The treatment group received marital con-

Producing And Reducing Disaffection:

Effective Schools for Disaffected Students Paul Cooper, 2002-03-11 Disaffected pupils respond well in circumstances where they feel secure where they have a sense of being valued and respected and where they perceive there to be opportunities for them to succeed Effective Schools for Disaffected Students offers insights into how these outcomes might be achieved in both mainstream and segregated settings The investigation is based on the views of pupils who have been excluded from mainstream schools for pupils with emotional and behavioural difficulties The author relates the pupils experiences of the different types of school to research in the area of school effectiveness He offers some practical guidelines on ways in which teachers and managers can work towards reducing disaffection in schools within the real life contexts in which they occur The book will appeal to anybody whose concerns are with the everyday realities of schooling Handbook of Emotional and Behavioural Difficulties Peter Clough, 2005 The book reveals itself to be both a scholarly and practical resource that will be indispensable to anyone seeking insight and direction for understanding and responding to EBD in the 21st century Professor Paul Cooper The University of Leicester International Journal on School Disaffection , 2006

Theories of Inclusive Education Peter Clough, Jenny Corbett, 2000-12-30 As a doctoral student currently writing a dissertation which focuses on inclusive education I found this an excellent supportive resource It brings together the major theorists of the last 20 years and very importantly highlights the perceived change in Mary Warnock's stance towards statementing since the late 1970s This element of change in the individual society and policy is an issue which runs through the book and from an emancipatory and postmodernist stance is a vital inclusion The inclusion of personal reflections greatly adds to the text instilling a confidence in the student that there is value in being a person with a point of view For me the publication of the book comes after my own critical analysis of the literature From a purely selfish aspect I wish it had been published earlier in my studies An excellent resource that I would thoroughly recommend Amazon Review This book traces the major stages of thinking in the development of inclusive education It provides overviews of the main theoretical influences the medico psychological model sociological positions curriculum studies school effectiveness and the impact upon policy and practice of the Disability Movement Positioned and discussed in their historical contexts the book provides a synopsis and critique of the last 50 years of the 20th century including the introduction of the term special educational needs the practice of integration and the present processes of inclusive education The unique features of this book include personal reflections by a number of people who are considered to have had a major influence in the development of Inclusive Education Summaries of their work their writing and their thinking are provided drawn from interviews with them and their own publications The book identifies and embraces some major issues It does so bearing in mind the interests and perspectives of students working within Inclusive education studies and presents some complex issues in an accessible format with a direct style Linking directly to the student experience the book concludes with examples of how students have

used theories on inclusive education to inform their reflections on practice The book throughout is deliberately learner friendly using sample group activities and suggested readings and is designed to be an effective course reader

Educating Young Children Helen McAuley, Peter Jackson, 2022-11-21 In its discussion of the three levels of teaching and learning whole school philosophy classroom policy and specific teaching frameworks *Educating Young Children* originally published in 1992 addresses the twin themes of teacher ethics and pedagogic theory In developing their argument the writers draw on both empirical classroom research and philosophical analysis as well as the work developed within the Roehampton Institute MA programme in which they were both tutors at the time

Emotional Growth and Learning Paul Greenhalgh, 2002-11-01 When working with children an understanding of the social interactions and relationships which influence emotional growth and learning is essential *Emotional Growth and Learning* clarifies these processes and serves as a practical and theoretical resource for the training of teachers and other professionals Paul Greenalgh draws on case studies from his own experience to illustrate the relevant concepts of Jungian psychoanalytic and humanistic psychology Individual and group exercises help adults to explore their own participation in the growth and learning processes and the book s multi disciplinary approach and accessible style will appeal to teachers parents and those working in clinical psychology counselling and social work

Curricula for Diversity in Education Tony Booth, Mary Masterton, Patricia Potts, Will Swann, 2013-06-17 They can make a start by recognising and accepting difference in their students and by providing curricula that are accessible to all This volume portrays attempts to alleviate difficulties in learning across the curriculum in history mathematics poetry and science and explores ways of supporting children with disabilities It examines how approaches to reducing difficulties have changed in the last decade looking at the experience of children and young people under pressure children who are bullied young people affected by HIV and AIDS youth trainees and children in care There is a final section on basic methods of research into educational practice

Ethnicity and Education in England and Europe Dr Ian Law, Dr Sarah Swann, 2013-01-28 *Ethnicity and Education in England and Europe* examines where when and how minority ethnic groups miss out on educational opportunities Through a combination of comparative quantitative and qualitative methodologies and the showcasing of new research it provides a fresh approach to examining the long standing debates over ethnicity and in particular ethnic differences in educational achievement Drawing on extensive empirical research in England as well as information gathered as part of a major international programme of research under the auspices of the European Union EDUMIGROM this book both synthesises the findings of the English team and puts these findings in context through comparison with the analytical material generated in a range of other European countries With a key focus on the educational experiences and outcomes of the Roma in Central and Eastern Europe as compared with the experiences of minority ethnic groups in Western Europe this volume provides a contemporary assessment of ethnic relations across a selected range of European countries Presenting comparative cross national analyses of ethnic inequalities and

policy interventions Ethnicity and Education in England and Europe makes a significant contribution to debates in the fields of migration ethnicity and education and will be of interest to both scholars and policy makers concerned with questions of race and educational outcome Changing Theories And Practices Of Discipline Roger Slee,2020-04-03 Behaviour problems in our schools occupy a considerable part of the education agenda and media attention The major thrust of the literature has been on the provision of new classroom management approaches Too often these packages are inappropriate to the specific context of the school and its pupils There are no quick fix solutions In this book Slee proposes a critical re examination of the school discipline issue In doing so he provides an overview of policy change an examination of the major schools of thought on student discipline a reconsideration of the context in which young people teachers and schools now find themselves and practical responses for addressing all levels of discipline policy making *Pupil Disaffection in Schools* Sarah Swann,2016-04-15 Sarah Swann provides a fresh approach to examining the long standing debates over disaffection and in particular social class differences in educational achievement through a mixed methods methodology and the showcasing of new research By observing pupils as they engage with peers and teachers in school Swann allows disaffection to be seen and heard in real events which constructs disaffection differently from objective statistical evidence on school exclusions Rather than a homogenous identity this book illustrates disaffection as layered and resting on a series of issues located on the crossroads between the cultural context of the neighbourhood and the public sphere of the school It plots in a detailed way how these structures interact and mesh to create disaffected identities Disaffection does not emerge in a vacuum or without a cause Pupils arrive at school with a wide variety of experiences and it is from these that they interpret understand and act out their identities Whilst the study in part seeks to describe and understand the social world of the school in terms of the pupils interpretations of the situation it analytically frames the perceptions of pupils within a wider social context In particular it focuses on the relationships between schooling and the wider macro structures and social relations that underpin disaffection This approach makes the research both critical and interpretative and also able to shed new light on educational policy across England based on an understanding of the role of disaffection Improving productivity ,1977

RANN 2: Improving productivity ,1977 **RANN 2** ,1977 **The Management of Children with Emotional and Behavioural Difficulties** Ved Varma,2015-06-18 The management of children with emotional and behavioural difficulties has always been a source of worry and concern to those who have to deal with them Many such children are unpredictable sometimes embarrassing and can often make us feel helpless We need to know more about them and why they think feel and behave as they do Originally published in 1990 the contributors to this volume bring a wide ranging professional practical approach to the problem looking at it from the perspectives of psychiatry psychology psychotherapy education and social work They underline the fact that such behaviour cannot be assessed in isolation from the context in which it occurs and go beyond a mere description of maladjusted children to ask Maladjusted to what And under what conditions The social and

family context is continually borne in mind The book will still be of great interest to psychologists psychiatrists psychotherapists teachers and social workers as well as to students in those disciplines who will find it an invaluable source to help them in their first encounters with child patients clients and pupils Disabling Policies? Gillian Fulcher,2015-12-22 First published in 1989 this book is about integrating or mainstreaming policies looking specifically at how to improve circumstances for schoolchildren with disabilities or handicaps and their teachers The author draws on her experiences both within and outside the academic institution to conceptualise and theorise policy so as to place this policy in a political framework and locate it in a wider model of social life This model is then used to disentangle the nature and effects of policy practices surrounding integration and mainstreaming looking at practice in various parts of Europe the US and Australia at that time Although written at the end of the 1980s this book discusses topics that are still relevant today **Individual Learners** W. Ray Crozier,2013-04-03 No two learners are the same They take different approaches to learning tasks and they respond to formal education in different ways Yet the current emphasis in education is on what is common to learners from a common curriculum to a common teaching method Individual Learners reviews and discusses recent research that shows that differences in personality contribute significantly to children s and adults experiences of success and failure in education Individual Learners considers fundamental issues in the study of personality and provides an up to date review and evaluation of the continuing nature nurture debate It then examines five traits that can have an impact upon learning aggressiveness anxiety achievement motivation self confidence and shyness The book provides an accessible account of the recent research into the links between personality and education and its implications for educational practice It will be invaluable to anyone with an interest in education whether students teachers or lecturers 'Race', Class and Gender in Exclusion From School Alex McGlaughlin,Debbie Weekes,Cecile Wright,2002-11 First published in 1999 Routledge is an imprint of Taylor Francis an informa company **Overcoming Learning and Behaviour Difficulties** Tony Charlton,Dr Kevin Jones,2002-01-04 Partnership with students involving them more in decisions which effect their education can improve both motivation and behaviour This is recognised by recent legislation notably the Code of Practice for special needs The contributions in this collection first consider issues such as empowerment and sources for learning and behaviour difficulties The central sections written by respected experts look at different kinds of partnership and how they can be used including peer tutoring counselling contracts class based support self monitoring and a range of whole school approaches Effective Classroom Management Robert Laslett,Colin Smith,2002-01-04 This latest new edition of Effective Classroom Management is written for new teachers and those who train and guide them It combines sound practical advice on lesson organisation and teaching methods with an exploration of teachers feelings about themselves and the children they teach In this second edition classroom management is considered from four aspects management in the classroom mediation with individuals modification of behaviour and monitoring school discipline Wild Socialism Martin Comack,2012-09-11 Wild Socialism

examines the rise development and decline of revolutionary councils of industrial workers in Berlin at the end of the First World War This popular movement spread throughout Germany and was without precedent in either the theory or practice of the Social Democratic party and the trade unions allied to it These workers councils were most highly developed in Berlin within its particular industrial political and cultural milieu The Berlin Shop Stewards group provided a hard core of militant revolutionaries within the movement many of whose adherents were more moderate or ambiguous in their views Externally the councilists faced a hostile Social Democratic trade union bureaucracy who characterized council rule as wilde Sozialismus a reconstituted and repressive state power and a revolutionary rival in the rise of German Bolshevism This work considers the experience of the Berlin councils as alternative institutions outside of traditional union party and governmental structures
