The Economics of Entrepreneurship Simon C. Parker, 2009-11-12 A theoretical and empirical investigation of how economics can contribute to our understanding of entrepreneurship Concepts, Processes and Practice of Entrepreneurship Milton Rajaratne, 2024-09-16 This textbook focuses on entrepreneurship with special reference to value venture and wealth creation In doing so it elaborates on creation of consumer surplus and producer surplus through value creation creation of ventures through different avenues and methods and finally creation of wealth of nations through enhancing supply of entrepreneurs and entrepreneurship talents To achieve this the book covers the following topics entrepreneurship history and theory entrepreneur types responsibilities and roles entrepreneurial process business modelling venture creation and growth management intellectual property rights protection service and production ventures international entrepreneurship political economy of entrepreneurship neo entrepreneurship and comparative entrepreneurship cultures Along with nearly 150 illustrations including tables figures and pictures and extensive real world examples readers will also find useful the hypotheses and matrices such as venture classification matrix entrepreneurial opportunity diagnostic matrix i 10 hypothesis risk return matrix business model matrix venture growth management scheme intervention process opportunity identification methods innovation path 5 C growth model social entrepreneurship model and risk return matrix that are newly introduced in the book **Entrepreneurship and Institutions** Nick Williams, Tim Vorley, Colin Williams, 2017-07-13 Entrepreneurship does not occur in a vacuum The institutions which provide the framework for economic activity matter As countries around the world strive for economic growth this book examines how institutional arrangements are critical in fostering entrepreneurship Through 12 case studies drawn from Asia Europe and America the book demonstrates how different institutional arrangements impact the nature scope and scale of entrepreneurial activity Each chapter highlights how the prevailing formal and informal institutional arrangements interact and how this has consequences for the development of more entrepreneurial economies By synthesizing empirical and theoretical insights the book explores how fostering more entrepreneurial economies is as much a question of institutional alignment as it is the creation of more supportive formal and informal institutions **Handbook of Research On Entrepreneurship** Alain Fayolle, 2014-05-30 This indispensable Handbook offers a fresh look at entrepreneurship research addressing what we already know and what we still need to know in the field Over the course of 17 chapters a collaboration of 24 highly regarded researchers expe Peace Through Entrepreneurship Steven R. Koltai, 2016-08-30 Joblessness is the root cause of the global unrest threatening American security Fostering entrepreneurship is the remedy The combined weight of American diplomacy and military power cannot end unrest and extremism in the Middle East and other troubled regions of the world Steven Koltai argues Koltai says an alternative approach would work investing in entrepreneurship and reaping the benefits of the jobs created through entrepreneurial startups From 9 11 and the Arab Spring to the self

proclaimed Islamic caliphate instability and terror breed where young people cannot find jobs Koltai marshals evidence to show that joblessness not religious or cultural conflict is the root cause of the unrest that vexes American foreign policy and threatens international security Drawing on Koltai's stint as senior adviser for Entrepreneurship in Secretary Hillary Clinton's State Department and his thirty year career as a successful entrepreneur and business executive Peace through Entrepreneurship argues for the significant elevation of entrepreneurship in the service of foreign policy not rural microfinance or mercantile trading but the scalable stuff of Silicon Valley and Sam Walton generating the vast majority of new jobs in economies large and small Peace through Entrepreneurship offers a nonmilitary long term solution at a time of disillusionment with Washington's big development approach to unstable and underdeveloped parts of the world and when the new normal is fear of terrorist attacks against Western targets beheadings in Syria and jihad Extremism will not be resolved by a war on terror The answer Koltai shows is stimulating entrepreneurial economic opportunities for the virtually limitless supply of desperate unemployed young men and women leading lives of endless economic frustration Fostering Innovation and Entrepreneurship Christian Schwarzkopf, 2016-04-21 Christian Schwarzkopf has developed a new more holistic entrepreneurial ecosystem on a national level and has analyzed as well as compared the fundamentals of innovation and entrepreneurship in Germany and the USA in order to derive the key elements for an entrepreneurial ecosystem The described ecosystem consists of four circles and 24 elements with the entrepreneur in the core Surrounding essential elements for example are risk financing culture or domestic markets The author shows the differences between Germany and the USA and provides improvement proposals for nations like Germany **Sustainable Entrepreneurship** Vanessa Ratten, Paul Jones, Vitor Braga, Carla Susana Marques, 2019-03-27 Sustainable entrepreneurship focuses on how the environment is embedded within business practices This book examines collaboration strategies and initiatives for sustainable entrepreneurs with a wide variety of partners and demonstrates how they can be used to increase overall performance and achieve global competitiveness Based on the latest empirical evidence from emerging economies the book's respective chapters address sustainability issues in connection with knowledge creation and learning outsourcing and the roles of universities consultants and the public sector *Entrepreneurship and the Market Process* Arielle John, Diana W. Thomas, 2020-12-14 What is the significance of entrepreneurship in an economy Scholars have argued that when the market is viewed as a process of perpetual adjustment to various forces and not as a set of end state prices and quantities simply arrived at the role of the entrepreneur comes to the fore What then are fruitful ways to conceive of the phenomenon of entrepreneurship How do entrepreneurs both respond to and shape larger forces in the economy In what ways can political institutions and government regulation shape the decisions made by entrepreneurs and their responsiveness to consumers How does the cultural environment influence the types of opportunities that an entrepreneur will notice and act on Finally is entrepreneurial behavior strictly limited to activity we see in the market This edited volume comprised of chapters by

scholars and students studying from the disciplines of sociology and economics examines entrepreneurship theoretically and applied to various cases It provides an overview of the economic literature on entrepreneurship and puts forth a framework for understanding the market process as well the policy implications of government intervention and cultural considerations in the market It will be of use to any scholars students practitioners or policymakers interested in entrepreneurship

provides a thorough review of the literature on this topic and presents a model based on this literature It reviews the empirical and conceptual research that substantiates the many components of the model and describes a corporate entrepreneurship strategy based on that model Entrepreneurship and Development Sonia Ben Slimane,Hatem M'henni,2020-12-15 In analyzing the complex link between entrepreneurship innovation and development in the context of the emerging world this book offers a holistic reading of this triptych based on a theoretical foundation that is itself subject to controversy the national system of innovative entrepreneurship The emerging nature of the studied countries provides specific insights and allows the theoretical developments to be fine tuned to the current issues In a context that makes competitive advantages transient emerging markets can provide a real test case for responding in a structural and innovative way to social and economic challenges thus ensuring the sustainable performance of their innovative entrepreneurial system Entrepreneurship and Development advocates for the integration of the social and cultural history of a given country within the framework of public policies and proposes more targeted actions for innovative entrepreneurial activities Moreover the education system must integrate the entrepreneurial culture and foster multidisciplinary to support the transfer of knowledge to markets *Economic Development and Entrepreneurship in Transition Economies* Jovo Ateljević,Jelena Trivić,2016-04-05 This book contributes to a better understanding of entrepreneurship in transition economies Current

literature reflects the more traditional schools of thought on entrepreneurship which are influenced by the Western perspective and fail to fully address the scenario in transition economies There is a broad consensus among academics policy makers and practitioners that a fundamental cause of difficulties experienced by most economies in transition has been the fact that reform has not been accompanied by the creation of new private businesses and particularly SMEs This is especially evident in states created in Europe after the dissolution of the Soviet Union where many barriers which were inherited from the old system remain in place thus inhibiting entrepreneurial progress in these countries despite a favorable political and economic environment The contributions featured in this book focus on how much progress has been achieved so far with regard to these aspects as well as identify which current barriers and issues still need to be resolved Themes include innovation performance financing venture capital educational factors and entrepreneurial learning

Enabling Agri-entrepreneurship and Innovation Catherine Chan, Brent S Sipes, Tina Lee, 2017-02-14 Agricultural entrepreneurs in conflict and post conflict regions face special challenges not just everyday personal risks but also the difficulties of building small businesses when real or threatened violence can disrupt business growth cycles and economic security Alongside establishing secure institutions building a secure economy is rightly seen as the best way for conflict torn regions to establish a peaceful future But current agricultural entrepreneurship training and development starts from an assumption of peace meaning that it is not always fit for purpose The result is sub optimal program design and inefficient use of resources A product of a collaboration of experts in the fields of agri business agricultural marketing and international development this book gives officials and agencies developing entrepreneurship programs the practical real life examples they need

Current Issues on Digital Transformation, Corporate Entrepreneurship, and Coopetition Anna Ujwary-Gil, 2024-01-01 An integrated PLS SEM model on the interplay of antecedents and moderators driving corporate entrepreneurship activity in South Africa

PURPOSE Corporate entrepreneurship CE is a multi faceted phenomenon and although there is extant research on CE there are knowledge gaps that warrant a deeper understanding Indeed focusing solely on independent variables overlooks the extent to which CE activities are mutually and reciprocally supportive We align our article with research calls for theory building which provides a novel understanding of the dynamic complexity of the CE process

METHODOLOGY In this regard we formulate and empirically evaluate an integrated CE model that reflects the integrative complexity of the antecedents driving CEA The

study context is the South African banking sector where primary data n 312 is obtained via a structured survey Four meta hypotheses and several sub hypotheses reflecting the organizational individual and environmental level antecedents are tested using partial least squares structural equation modeling PLS SEM FINDINGS The main study finding validates that corporate strategy is the bedrock of CEA The results also reveal that entrepreneurial strategy entrepreneurial structure transformational leadership organizational resources and an entrepreneurial mindset are significant predictors of CEA IMPLICATIONS Practical implications highlight that it is important for managers to consider the configuration of the predictors within the CE model which function as pathways to entrepreneurial corporate strategy ORIGINALITY AND VALUE Our study makes a unique contribution by developing and testing an integrated and comprehensive model reflecting the dynamic complexity of the antecedents driving CEA It is anticipated that the results will allow researchers to compare and examine comparable antecedents to CEA and their applicability in global country contexts Keywords corporate entrepreneurship antecedents entrepreneurial strategy organizational resources transformational leadership entrepreneurial mindset partial least squares structural equation modelling PLS SEM South Africa Pushing coopetition research further Understanding relevance and operationalization of the attributes of coopetition strategies and competitive relationships PURPOSE Although coopetition was defined three decades ago and is intensively investigated its theoretical and research cognition remains far from thoroughly understood The lack of conceptual consistency prevents researchers from conducting comparable research leading to more generalizable results and thus from building coherent knowledge This study addresses the above shortcoming by the development of operationalizations of two types of attributes assigned to coopetition strategic attributes characterizing coopetition strategies and relational attributes characterizing competitive relationships METHODOLOGY In our study we adopted a two step research process consisting of qualitative verification of a list of 8 coopetition attributes 2 strategic and 6 relational identified in prior literature as relevant for coopetition success and the development of integrative conceptualization and measurement approaches for them The verification was conducted through focus group interviews with scholars experienced in coopetition research and senior managers from firms adopting coopetition strategies The measurement approaches for the positively verified attributes were developed through the integration of 1 approaches used so far in coopetition literature 2 approaches used to date in the literature on the features of inter organizational relationships and 3 approaches that emerged during the focus group interviews FINDINGS This study shows two strategic i e dynamics and paradoxicality and six relational i e asymmetry complexity intensity mutual dependence strength and tensions coopetition attributes as heterogeneously relevant for coopetition success and offers multi item operationalizations for them derived from a combination of prior literature and qualitative research IMPLICATIONS Our paper shows strategic and relational attributes of coopetition as theoretically and practically relevant for coopetition success ORIGINALITY AND VALUE As a contribution this study offers scientifically grounded operationalizations of eight attributive

success factors of coopetition The developed measurement proposals can find valuable applications in two ways First coopetition researchers can use them in their studies and a consistent measurement approach will allow for the comparison of research results bringing us closer to drawing more general conclusions Second coopetition practitioners can use these proposals when managing coopetition for instance to evaluate monitor and intentionally shape them to make coopetition more successful Keywords coopetition focus group interviews operationalization measurement scale cooperative relationships coopetition strategies Guiding incumbent companies in navigating digital transformations A qualitative study on structural ambidexterity and strategic leadership PURPOSE Despite digital transformation being a focus topic for incumbent companies organizational structures are a significant barrier to their success Referring to the positive correlation between ambidexterity and digital innovation our research provides guidance on structural ambidexterity for incumbent companies Previous research has barely differentiated between exploration and exploitation in digital transformation In the present paper we fill part of this research gap by focusing on structural ambidexterity in digital transformations and providing guidance on how incumbent companies can overcome organizational challenges METHODOLOGY Our research is based on an explorative research design with 33 semi structured interviews that allow in depth information The interview partners were selected using purposive sampling and represented different industry and hierarchy levels All of them have been in a position related to digital transformation in an incumbent company for the last two years We ensure scholarly rigor using thematic analysis to analyze our data FINDINGS Our decision tree guides separation or integration based on the closeness of digital activities to the core business and the association of the activities to exploration or exploitation Additionally we recommend considering the digital maturity grade in the decision making Developing a cross functional digital transformation strategy and pursuing a balanced portfolio fosters ambidexterity in digital transformation Clear responsibilities collaborative decision making candidate selection and collaboration with IT are essential leadership activities IMPLICATIONS for theory and practice Our research expands the existing research on digital transformations of incumbent companies We specifically contribute to the limited details on how to separate digital activities considering an exploration exploitation perspective Our study guides practitioners to address one of their major challenges in digital transformations with the help of our decision tree ORIGINALITY AND VALUE Based on the positive correlation between ambidexterity and digital innovation our study contributes to the existing research by providing in depth knowledge of structural ambidexterity in digital transformations This detailed information is essential to provide knowledge on enabling the positive correlation between ambidexterity and innovation in the context of structural ambidexterity Keywords digital transformation digitalization organizational structures structural ambidexterity temporal ambidexterity incumbent companies guidelines Leveraging green innovation from big data analytics Examining the role of resource orchestration and green dynamic capabilities PURPOSE The notion of big data analytics BDA has received increased attention from both researchers and

managers Keeping in view the significance of BDA the current research aims to examine the role of BDA capability to leverage firm green innovation GI Drawing from the dynamic capability view current study suggests that BDA capability prompts green dynamic capabilities DCs enabling organizations to attain GI successfully Particularly present study proposes that BDA analytics prompt GI directly as well as through green DCs Moreover this study also draws from complementarity perspective and proposes that resource orchestration capability ROC is likely to enhance the effectiveness of green DCs in eliciting GI Thus the objectives of the current study are threefold first it aims to unveil the role of BDA capability in prompting GI second it examines the mediating role of green DCs for the relationship between BDA capability and GI and third this research examines the moderating effect of ROC to examine if it strengthens the effects of green DCs

METHODOLOGY This study involves testing hypotheses using primary data collected by using the method of survey questionnaire The data were collected from 291 Pakistani organizations Pakistan is an emerging economy where businesses are responsible for substantial amounts of carbon di oxide and greenhouse gasses GHG emissions Therefore Pakistani organizations serve as a suitable context for the study The respondent organizations were from both the manufacturing and service sectors PLS SEM was employed as an analytical approach for testing the hypotheses Construct validity and reliability were confirmed prior to hypotheses testing

FINDINGS Results demonstrate that BDA capability positively affects GI 0 33 p

Youth Entrepreneurship and Local Development in Central and Eastern Europe Dr Paul Blokker, Mr Bruno Dallago, 2012-11-28 This book analyses the opportunities and barriers for youth entrepreneurship amid systemic change in Central and Eastern Europe The authors cover different aspects of youth entrepreneurship and its contribution to the debate on youth unemployment in transition economies The book discusses the wide spread over optimism regarding youth entrepreneurship self employment and its impact on economic innovation and job creation resulting from a disregard of critical contextual features and the characteristics of young entrepreneurs themselves The authors give due acknowledgment of the importance of both factors and so fully understand the impediments to youth entrepreneurship especially in a transition context Furthermore they seek to assess the opportunities and constraints of promotion policies in transition economies Most importantly the book provides the first empirical contribution to youth entrepreneurship in Central and Eastern Europe by offering a representative number of case studies The book will be invaluable reading for scholars and students of transition and developing countries particularly those with an interest in entrepreneurship

Pro In Entrepreneurship Introduction

In the digital age, access to information has become easier than ever before. The ability to download Pro In Entrepreneurship has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Pro In Entrepreneurship has opened up a world of possibilities. Downloading Pro In Entrepreneurship provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Pro In Entrepreneurship has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Pro In Entrepreneurship. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Pro In Entrepreneurship. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Pro In Entrepreneurship, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect

themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Pro In Entrepreneurship has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
